

Lorenzo Vanini

In *The Vices of Learning* Sari Kivistö examines scholarly vices, such as pride, plagiarism and the desire for fame, in over one hundred Latin dissertations and treatises from the late Baroque and early Enlightenment periods.

Dental clinical photography is the most precise visual communication between doctor and patient, between doctor and a dental technician or interdisciplinary, where clinical manifestations are the main subject. Dental photography is an invaluable tool in documenting the case, establishing the diagnosis, and planning the treatment, even in the absence of the patient. With the help of dental photographs, we allow the patient to see what we see in his oral cavity. We also provide the dental technician with the aesthetic perception of color, morphological and chromatic characteristics of complex dental structures such as texture, shade, saturation, tooth brightness, and other optical properties of dental

surfaces. With the help of dental photos, we create new smiles by applying the Digital Smile Design (DSD) Concept, allowing the patient to participate step by step in creating their smile. This concept consists of a virtual process of designing and previewing the final result, computer-assisted, based on the individual needs of the patient and the principles of harmony and dentofacial aesthetics while paying particular attention to the functional aspects of the dentomaxillary system. Today, dental photography has become an independent medical discipline in many countries, where candidates are well informed and prepared to take the best quality images. A modest attempt to combine the profession of doctor and photographer's passion resulted in this work, aiming to accumulate as much helpful information about dental clinical photography in a single material. This work was written by a doctor for doctors, out of the desire to come to their aid, to give them a boost to a fascinating world of technique and art, as the approach of this kind of

photography introduces us implicitly in an artistic creation area, where we will communicate to those to whom we address our thoughts, feelings, and moods, and reaching this area will give us many soul satisfactions.

con nuovi documenti e testimonianze

Bibliographie internationale de l'Humanisme et de la Renaissance 31

This comprehensive bibliography will be a necessary starting-point for all future students of the communist international, 1919-1943. It contains the most complete annotated list of references on the subject published so far.

The complete record of the Second Congress of the Communist International, newly translated & fully annotated. This gathering, held in Petrograd (Leningrad) & Moscow in 1920, set the new International's political course. The debate among delegates from 37 countries gives a gripping portrayal of social struggles & working-class movements in the era of the Russian revolution. Essential to the documentary

*record of the international labor movement, this volume is the latest in the acclaimed series THE COMMUNIST INTERNATIONAL IN LENIN'S TIME. It makes available for the first time in English the complete proceedings of the Communist International's first four congresses, held between 1919 & 1922. They are the starting point for any study of the origins of the modern communist movement. "Brings together an excellent choice of important & revealing documents....This collection & the entire series will be important resources for any library of 20th-century history" -Robert V. Daniels, editor, A DOCUMENTARY HISTORY OF COMMUNISM; Other volumes: *Lenin's Struggle for a Revolutionary International -Documents, 1907-1916: The Preparatory Years. *The German Revolution & the Debate on Soviet Power -Documents, 1918-1919: Preparing the Founding Congress. *Founding the Communist International -Proceedings & Documents of the First Congress: March 1919. *To See the Dawn - Baku, 1920: First Congress of the Peoples of the East. Giulio Cesare Vanini nell'Europa del Seicento

“Mr. Thomas has understood [the Spanish Civil War] incredibly well and has written it superbly. A full, vivid and deeply serious treatment of a great subject.”—Vincent Sheean, *The New York Times Book Review* A masterpiece of the historian’s art, Hugh Thomas’s *The Spanish Civil War* remains the best, most engrossing narrative of one of the most emblematic and misunderstood wars of the twentieth century. Revised and updated with significant new material, including new revelations about atrocities perpetrated against civilians by both sides in this epic conflict, this “definitive work on the subject” (Richard Bernstein, *The New York Times*) has been given a fresh face forty years after its initial publication in 1961. In brilliant, moving detail, Thomas analyzes a devastating conflict in which the hopes, dreams, and dogmas of a century exploded onto the battlefield. Like no other account, *The Spanish Civil War* dramatically reassembles the events that led a European nation, in a continent on the brink of world war, to

divide against itself, bringing into play the machinations of Franco and Hitler, the bloodshed of Guernica, and the deeply inspiring heroics of those who rallied to the side of democracy. Communists, anarchists, monarchists, fascists, socialists, democrats -- the various forces of the Spanish Civil War composed a fabric of the twentieth century itself, and Thomas masterfully weaves the diffuse and fascinating threads of the war together in a manner that has established the book as a genuine classic of modern history.

"Stands without rivals as the most balanced and comprehensive book on the subject."—American Historical Review

In this first full-length biography of Ferrari, Lovett traces his intellectual development in Milan and describes his twenty years of voluntary exile in Paris. In discussing Ferrari's relationships with French radicals and socialists, Lovett documents the growth of his political consciousness in the 1840s, his gradual commitment to the democratization of European society, and his response to the impact of both the French and Italian revolutions of

1848. Originally published 1979. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

Dictionary of Philosophy and Psychology

The Historical Dictionary of the Spanish Civil War covers the history of the war through a chronology, an introductory essay, appendixes, maps, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on persons, places, events, institutions, battles, and campaigns. This book is an excellent access point for students,

researchers, and anyone wanting to know more about the Spanish Civil War.

This book traces the clandestine Comintern activities of the German communist Arthur Ewert and his associates during the 1920s and 1930s. It describes through the lives of its participants the founding, expansion, and the collapse of a revolutionary institution unique in contemporary history. An ambitious politician who fell short of his goals in the communist party of his own country, Ewert's strengths and weaknesses reflect the human condition of those who served the Comintern as an exposed vanguard in its existence between the two great wars.
