We are children of the stars. This is our legacy and our heritage. In the history of the cosmos, Earth is a young planet. Our souls, on the other hand, have been around forever and will continue to be around forever. Thus Earth is not our only home. We have lived many lives in unusual environments before deciding to journey here and learn the lessons of Earth. After our schooling is completed on this planet, we will journey onward to

discover new worlds to explore. The memories of these soul journeys are recorded in our subconscious, and in Legacy from the Stars hypnotherapist Dolores Cannon shows that they can be retrieved through regressive hypnosis. She reports dramatic cases where the subjects relived other lifetimes in strange environments -- inhabitants of other planets. After reading her latest book, you may agree that "we are all extraterrestrials," and Earth is merely a stop-over in our long adventure.

We've all heard stories of people who've experienced seemingly miraculous recoveries from illness, but can the same thing happen for our world? According to pioneering biologist Bruce H. Lipton, it's not only possible, it's already occurring. In Spontaneous Evolution, this world-renowned expert in the emerging science of epigenetics reveals how our changing understanding of biology will help us navigate this turbulent period in our planet's history and how each of us can participate in

this global shift. In collaboration with political philosopher Steve Bhaerman, Dr. Lipton invites readers to reconsider: •the "unquestionable" pillars of biology, including random evolution, survival of the fittest, and the role of DNA; •the relationship between mind and matter; •how our beliefs about nature and human nature shape our politics, culture, and individual lives; and •how each of us can become planetary "stem cells" supporting the health and growth of our world.By

questioning the old beliefs that got us to where we are today and keep us stuck in the status quo, we can trigger the spontaneous evolution of our species that will usher in a brighter future. .

Bestselling author and spiritual leader Lorna Byrne teaches you to have more compassion and love for yourself and to see the love all around you—perfect for those who have gained insight from such bestselling authors as Louise Hay and Doreen Virtue. Lorna Byrne sees angels and speaks to

them every day. She sees so much more than angels, though: she sees love as a physical force, emanating from those she observes. In this inspiring book, Lorna reveals what angels have taught her about love and how we can unlock the love stored within all of us. While we can't destroy or diminish this love, we can release more of it and love others and ourselves more fully. With her unique insight into love, she has also created a seven-day program with exercises you can do each day in order to have more

self-appreciation. By the end of the program, you will not only feel more love in the universe, but you will also have a greater understanding of yourself and your inherent inner power.

My Whispering Angels is the extraordinary story of an ordinary Irish wife and mother blessed with an incredible gift. Francesca faced the dawn of the new millennium debilitated by ill-health and despair, without any hope or faith in her future. This was until the loving angels and spirits that

she remembered watching over her as a young girl returned to save her in adulthood. We are taken on a wondrous journey of self-discovery as Francesca describes how her angels helped her to recover from her illness and led her to a profound spiritual healing. The angels taught her how to use her gift to help others and to use her insight to guide them to lives enriched with hope and purpose. Francesca's remarkable story is a testament to the transformations that can occur if you open your eyes

and your heart to hope.

There are a lot of gratitude books out there, but none quite like this, which comes with actual gifts: a sign, a totem, an answer, and a present from the natural world! Most of us believe we can think our way out of problems. We believe that if we just exert enough mental

effort, we will pull up a solution to whatever ails us. And that has gotten us nowhere. So in this book, we're going to forget thinking . . . and start thanking. This playful but easy practice has the power to reconnect us with our true nature. When we observe the world from a place of gratitude, when we use our attention to spot beauty and gaze at wonder, we tune in to a frequency of magic. This joy channel is the most powerful on the planet and has the capability to radically change our

lives. Brazen gratitude provides a portal—an entry point—straight into the heart of the field of infinite possibilities described in Pam Grout's bestseller *E-Squared*. It enables you to align with the spaciousness of the cosmic energy field, the spaciousness that makes your life a love-shining prism. Thanking puts you on an energetic frequency—a vibration—that calls in miracles and will make you rich (in spirit), happy, and madly in love (with life). This book also offers a different

Behind all these moving communications is Grey Eagle, Rosemary's mentor, constant companion, and friend. His spirit pervades this book as he focuses the spotlight on an important teaching: Life may continue after death, but how we behave on the Earth Plane does count. Grey Eagle elevates the

In 1954 Dame Enid Lyons, the first woman elected to the Australian House of Representatives, argued

that radio had 'created a bigger revolution in the life of a woman than anything that has happened any time' as it brought the public sphere into the home and women into the public sphere. Taking this claim as its starting point, Sound Citizens examines how a cohort of professional women broadcasters, activists and politicians used radio to contribute to the public sphere and improve women's status in Australia from the introduction of radio in 1923 until the

introduction of television in 1956. This book reveals a much broader and more complex history of women's contributions to Australian broadcasting than has been previously acknowledged. Using a rich archive of radio magazines, station archives, scripts, personal papers and surviving recordings, Sound Citizens traces how women broadcasters used radio as a tool for their advocacy; radio's significance to the history of women's advancement; and how

broadcasting was used in the development of women's citizenship in Australia. It argues that women broadcasters saw radio as a medium that had the potential to transform women's lives and status in society, and that they worked to both claim their own voices in the public sphere and to encourage other women to become active citizens. Radio provided a platform for women to contribute to public discourse and normalised the presence of women's voices in the public sphere, both

literally and figuratively.

This book identifies eight key mechanisms that can transform a set of ideas into a psychological flytrap.

The author suggests that, like the black holes of outer space, from which nothing, not even light, can escape, our contemporary cultural landscape

contains numerous intellectual black-holes-belief systems constructed in such a way that unwary passers-by can similarly find themselves drawn in. While such self-sealing bubbles of belief will most easily trap the gullible or poorly educated, even the most intelligent and educated of us are potentially vulnerable. Some of the world's greatest thinkers have fallen in, never to escape. This witty, insightful

critique will help immunize readers against the wiles of cultists, religious and political zealots, conspiracy theorists, promoters of flaky alternative medicines, and others by clearly setting out the tricks of the trade by which such insidious belief systems are created and maintained.

Publisher's Note: A new, expanded edition has replaced this book under the new title *Visionary: The Mysterious Origins of Human Consciousness*,

this definitive edition includes a new Introduction by Graham Hancock as well as restored chapters that were omitted from the original paperback release. Less than fifty thousand years ago mankind had no art, no religion, no sophisticated symbolism, no innovative thinking. Then, in a dramatic and electrifying change, described by scientists as "the greatest riddle in human history," all the skills and qualities

that we value most highly in ourselves appeared already fully formed, as though bestowed on us by hidden powers. In *Supernatural* Graham Hancock sets out to investigate this mysterious "beforeandafter moment" and to discover the truth about the influences that gave birth to the modern human mind. His quest takes him on a detective journey from the stunningly beautiful painted caves of

prehistoric France, Spain, and Italy to rock shelters in the mountains of South Africa, where he finds extraordinary Stone Age art. He uncovers clues that lead him to the depths of the Amazon rainforest to drink the powerful hallucinogen Ayahuasca with shamans, whose paintings contain images of "supernatural beings" identical to the animalhuman hybrids depicted in prehistoric caves. Hallucinogens such as mescaline also

produce visionary encounters with exactly the same beings.

Scientists at the cutting edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of other "dimensions."

Could the "supernaturals" first depicted in the painted caves be the ancient teachers of mankind? Could it be that human evolution is not just the "meaningless"

process that Darwin identified, but something more purposive and intelligent that we have barely begun to understand?

The New York Times bestselling author, teacher, and speaker provides the next step beyond his immensely popular Notes from the Universe trilogy with this special 10th anniversary edition of the modern classic that contains even more enriching wisdom for living an abundant,

joyous life. We create our own reality, our own fate, and our own luck. We are all filled with infinite possibilities, and it's time to explore how powerful we truly are. With clear-eyed and masterful prose, *Infinite Possibilities* effortlessly reveals our true spiritual nature and exactly what it takes to find true happiness and fulfillment. Witty and intelligent, this is "the perfect book at the perfect time. It is full

of wisdom, answers, and guidance—a unique combination that is guaranteed to help anyone during times of change and transition” (Ariane de Bonvoisin, bestselling author of *The First 30 Days*). This tenth anniversary edition features a new foreword by Bob Proctor and a new introduction from the author. A set of tools for mastering the one skill standing between us and success: the ability to ask for the things we

need to succeed. Imagine you're on a deadline for a big project, and feeling overwhelmed. Or you're looking for a job, but can't seem to get your foot in the door. Or you're dying for tickets to a sold out concert, and all your leads have gone cold. What do these problems have in common? They can all be solved simply by reaching out to a colleague, friend, or wider network and making an ask. Studies show that asking for

help makes us better and less frustrated at our jobs. It helps us find new opportunities and new talent. It unlocks new ideas and solutions, and enhances team performance. And it helps us get the things we need outside the workplace as well. And yet, we rarely give ourselves permission to ask. Luckily, the research shows that asking—and getting—what we need is much easier than we tend to think. Here, Wayne Baker shares

a set of strategies—used at companies like Google, GM, and IDEO—that individuals, teams, and leaders can use to make asking for help a personal and organizational habit, including:

- A quiz to identify your asking-giving style
- SMART criteria for who, when, and how to ask
- “Plug-and-play ” routines that make requests a standard component of meetings
- Mini-games that incentivize asking within teams
- The

compassion for both ourselves and others and to see all the love around us in this powerful and moving book—perfect for fans of Louise Hay and Doreen Virtue. Lorna Byrne, an Irish mystic, has been seeing angels since she was a baby, but she sees even more than that. In *Love from Heaven*, she reveals for the first time that she sees love as a physical force. Lorna first became conscious that the angels were teaching her about love when she was five years old, and today she can see how love manifests in each of us. She sees that newborn babies are full of pure love and that many teenagers and adults seem surrounded at the heart level by a transparent but ironlike band, which restricts that love. We are all pure love, but nine out of ten of us have locked away most of this love within

ourselves. This love remains there, though—indestructible and ready to be released, if only we can learn to love ourselves first. Love from Heaven will transform the way you think about love, stir up the love within, and make you more compassionate, leading to a happier life for you and those around you.

identity in the twenty-first century.”—Rabbi Lord Jonathan Sacks A bold proposal for discovering relevance in Judaism and ensuring its survival, from a pioneering social activist, business leader, and fighter pilot in the Israeli Air Force *God Is in the Crowd* is an original and provocative blueprint for Judaism in the twenty-first century. Presented through the lens of Tal Keinan’s unusual personal story, it a sobering analysis of the threat to Jewish continuity. As the Jewish people has become concentrated in just

two hubs—America and Israel—it has lost the subtle code of governance that endowed Judaism with dynamism and relevance in the age of Diaspora. This code, as Keinan explains, is derived from Francis Galton’s “wisdom of crowds,” in which a group’s collective intelligence, memory, and even spirituality can be dramatically different from, and often stronger than, that of any individual member’s. He argues that without this code, this ancient people—and the civilization that it spawned—will soon be extinct.

Finally, Keinan puts forward a bold and original plan to rewrite the Jewish code, proposing a new model for Judaism and for community in general. Keinan was born to a secular Jewish family in Florida. His interest in Judaism was ignited by a Christian minister at his New England prep school and led him down the unlikely path to enlistment in the Israel Air Force. Using his own dramatic experiences as a backdrop, and applying lessons from his life as a business leader and social activist, Keinan takes the reader on a riveting

adventure, weaving between past, present, and future, and fusing narrative with theory to demonstrate Judaism's value to humanity and chart its path into the future. Advance praise for *God Is in the Crowd*

“Beautifully written, brilliantly argued, this is a unique contribution to the conversation and a must read for anyone concerned with Jewish continuity.”—Yossi Klein Halevi, author of *Letters to My Palestinian Neighbor*

“*God Is in the Crowd* blends social science, economics, religion, and national identity to help us see more clearly

who we are as individuals, people, and a society.”—Dan Ariely, author of *The Upside of Irrationality* “American, Israeli, entrepreneur, fighter pilot, and investor: Keinan’s diagnosis of Israel and the Jewish Diaspora is provided through the lens of a rich and gripping life story. Keinan’s contribution is indispensable to the debate about the future of the Jewish people.”—Dan Senor, co-author of *Start-up Nation*

Lorna Byrne sees & talks with angels every day of her life. When Lorna's husband died, her world fell apart. In this

book she tells the story of how she pulled her life back together & how she started to spread the angels' message. Imbued with a love for journalism by a father who is subsequently killed, Maggie Chen interns at a Seattle newspaper and vows to clear her father's name of criminal allegations, an endeavor that leads her to research her family's connections to the Chinese Exclusion Era. Describes how guardian angels are present, supporting and protecting everyone, and how they can be called upon for their help in making life
