

Los Amores De Alarc N File Type

Alarcón defends the comedia against criticism through his definition of illusion as a moral art - a stance evident in his plays.

This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1976.

Mira de Amescua

A History of Spanish Golden Age Drama

A Survey of Aesthetic Uncertainties in the Age of Reason

1987 : a Chart Book

Catalogue of the Spanish Library and of the Portuguese Books Bequeathed by George Ticknor to the Boston Public Library

Magicians, necromancers and astrologers are assiduous characters in the European golden age theatre. This book deals with dramatic characters who act as physiognomists or palm readers in the fictional world and analyses the fictionalisation of physiognomic lore as a practice of divination in early modern Romance theatre from Pietro Aretino and Giordano Bruno to Lope de Vega, Calderón de la Barca and Thomas Corneille.

The aim of these investigations has been to trace the native origins of the Romantic movement of the nineteenth century, this self-conscious opposition to neo-classicism; to follow its course until it joins the general European movement; and in so doing to estimate the quantity and quality of the Romantic products of the period under survey. The field of study covers approximately the whole of the eighteenth century, from the time when the accession of a Bourbon prince encouraged the already growing tendency

Itself with the movement abroad. - Preface.

El hongo y el mirinaque: aproposito comico en un acto y en verso, improvisado

Taken as a whole, the essays in this volume represent a preliminary step in exploring Hispanic drama of the early modern period, mindful of the fact that theater on both sides of the Atlantic was "stimulated by the abundance and wonder of the Americas, and cannot be understood without the gold, silver, chocolate, pineapple, birds, colors, and flavors of the laboratory of the New World" (Ortega 2002, 9). This volume

successfully encompasses and reflects critically relevant, actual issues of memory, identity, ceremony, and power in an ebb-and-flow effect from shore to shore, and demonstrates how both the New and Old Worlds were performed, imagined, codified, and allegorized as they were empirically understood.

In Ambiguous Antidotes, Hilaire Kallendorf explores the receptions of virtues in the realm of moral philosophy and the artistic production it influenced during the Spanish Gold Age.

The Literature of the Spanish People

Spain's Golden Age, the seventeenth century, left the world one great legacy, the flower of its dramatic genius -- the comedia. The work of the Golden Age playwrights represents the largest combined body of dramatic literature from a single historical period, comparable in magnitude to classical tragedy and comedy, to Elizabethan drama, and to French neoclassical theater. A History of

Spanish Golden Age Drama is the first up-to-date survey of the history of the comedia, with special emphasis on critical approaches developed during the past ten years. A history of the comedia necessarily focuses on the work of Lope de Vega and Calderon de la Barca, but Ziomek also gives full credit to the host of lesser dramatists who followed in the paths blazed by Lope and Calderon,

and whose individual contributions to particular genres added to the richness of Spanish theater. He also examines the profound influence of the comedia on the literature of other cultures.

Representing the largest expansion between editions, this updated volume of Ottemiller's Index to Plays in Collections is the standard location tool for full-length plays published in collections and anthologies in England and the United States throughout the 20th century and beyond. This new volume lists more than 3,500 new plays and 2,000 new authors, as well as birth and/or death

Information for hundreds of authors.

Through its proven approach to language learning, EL MUNDO 21 HISPANO provides heritage speakers of Spanish with a wealth of both contextualized and purposeful content. The completely revised and redesigned second edition provides integrated coverage of grammar, vocabulary, media (audio and video), and culture as well as ample opportunities to review each lesson's theme. Throughout the

book, readers are given multiple opportunities to learn about their own country of origin, or that of their ancestors, so that they begin to respect and take pride in their own cultural heritage. As readers discover the 21 countries that comprise the Spanish-speaking world, they will achieve a global understanding of the issues and challenges faced by the Spanish-speaking world today.

Annual List of Books Added to the Public Library of Cincinnati

A Tale Blazed Through Heaven charts the development of representations of the mythological tale of Mars, Venus, and Vulcan from its origins in Classical Antiquity to its reception in sixteenth- and seventeenth-century Spain. Analysing in detail a number of works of literature and art from what is now known as Spain's 'Golden Age' -- the period of Cervantes, Velázquez, Calderón, and others -- it explores some of the reasons behind thepopularity of the tale amongst both canonical and less well-known writers and

painters. In so doing, it sheds lights on a number of aspects of the literary and visual culture of the Early Modern period, both in Spain and, byextension, Europe as a whole.

A paperback of Gerald Brenan's account of Spanish literature from Roman times to the present, which has won praise from every quarter for its original and enthusiastic approach, its wide-ranging scholarship and elegant style. First published in paperback in 1976, this book remains a useful study of Spanish literary history.

A History of the Spanish Novel

La Lectora

This report presents a statistical overview of the current housing conditons of selected races: White, Black; American Indian, Eskimo, or Aleut; and Asian or Pacific Islander households. Data are also shown for Hispanic-origin households. Generally, the report is based on data collected from the American Housing Survey (AHS) for the United States in 1987, a biennial national sample survey of approximately 55, 800 housing unites conducted by the Bureau of the Census for the Department of Housing and Urban Development. Since the AHS does not obtain data on the individual groups comprising the Asian or Pacific Islander and the Hispanic-origin populations, data from the 1980 Public-Use Microdata Sample, a 1-percent sample of the United States population as enumerated in the 1980 Census, are included in this publication.

The origins of the Spanish novel date back to the early picaresque novels and Don Quixote, in the sixteenth and seventeenth centuries, and the history of the genre in Spain presents the reader with such iconic works as Galdós's Fortunata and Jacinta, Clarín's La Regenta, or Unamuno's Mist. A History of the Spanish Novel traces the developments of Spanish prose fiction in order to offer a comprehensive and detailed account of this important literary tradition. It opens with an introductory chapter that examines the evolution of the novel in Spain, with particular attention to the rise and emergence of the novel as a genre, during the sixteenth and seventeenth centuries, and the bearing of Golden-Age fiction in later novelists of all periods. The introduction contextualises the Spanish novel in the circumstances and milestones of Spain's history, and in the wider setting of European literature. The volume is comprised of chapters presented diachronically, from the sixteenth to the twenty-first century and others concerned with specific traditions (the chivalric romance, the picaresque, the modernist novel, the avant-gardist novel) and with some of the most salient authors (Cervantes, Zayas, Galdós, and Baroja). A History of the Spanish Novel takes the reader across the centuries to reveal the captivating life of the Spanish novel tradition, in all its splendour, and its phenomenal contribution to Western literature.
