This book analyzes the representation of children in 21st-century Latin American cinema by bringing attention to the political act of choosing children as protagonists. It provides a platform to understand the mechanisms in contemporary filmmaking that challenge the displacement created by the conventional subordinated role of children in cinema.

mexicana. Desde su primera
versión, aparecida en 1994, Los
mil y un velorios ha mantenido

el inigualable estilo de Carlos Monsiváis. Una crónica que recupera la memoria roja de los mexicanos y se adentra en los laberintos actuales de la delincuencia organizada. En esta amplia crónica de la nota roja, Carlos Monsiváis recupera los casos más sonados (Goyo Cárdenas, el Pelón Sobera, los Narcosatánicos, la Mataviejitas, etc.) y se adentra en los laberintos del narco y los crímenes de odio, haciendo en todo momento una reflexión mordaz y desgarradora sobre el crimen como expresión de lo cotidiano y lo excepcional en la sociedad mexicana. La crítica ha

opinado: "En una tradición dominada por la seriedad, el hieratismo y la pregunta existencial de la identidad (Paz, Rulfo, Fuentes, Elizondo...), Monsiváis reivindicó la risa como un medio para lidiar con una realidad adversa. Al ser antiolemne e irreverente, la obra de Monsiváis resultó una bocanada de aire puro en medio de la gazmoñería y la solemnidad literarias" -Jezreel Salazar, Revista de la Universidad de México-

consagratoria y desacralizadora de las masas. Un libro de revelaciones pudorosas del gran cronista mexicano Carlos Monsiváis. Incluye la crónica que convirtió a Juan Gabriel en un mito. La sucesión de escenas (cuadros y carros alegóricos) donde el pondo es la forma más ostentosa de la liviandad, y los hombres de pro, y Columnas del Deber, resultan turiferarios de la Santísima Trivialidad. La pequeña historia en el México del siglo XX: el mural disperso y siempre recién inaugurado donde participan María Félix y los chavos banda, Dolores del Río y los chavos punk, las

vedettes y los economistas; Juan Gabriel y la pareja cerúlea en el dancing, Celia Montalbán que anima el hoyo fonqui y el cachudo queda dirige a María Condesa. El pudor, la liviandad: los sentimientos extintos en la sociedad que no acaba nunca de ser plenamente moderna. Y, ¿qué melodía se le antoja, patrón? Fragmento de "Instituciones: Juan Gabriel", ensayo incluido en Escenas de pudor y liviandad: "Había una vez una ciudad llamada Juárez en la frontera de México con Estados Unidos. This book studies the role of subterranean spaces in literary works about Mexico City. It analyzes how underground spaces such as the subway, the sewage

system, tunnels, crypts, and the subsoil itself relate to the whole of the city in a body of works published after 1985, the year of the deadliest earthquake in the capital's history. The texts belong to the most important genres in urban literature (the novel, the short story, and the crónica) and demonstrate the crucial role played by the underground in contemporary imaginings of the megalopolis, as it condenses and confronts the tensions that run through them. Una antología global

The heartbreaking final volume in Sergio Pitol's groundbreaking memoir-essay-fiction-hybrid Trilogy of Memory, which won him the prestigious Cervantes Prize, finds Pitol boldly and passionately weaving fiction and autobiography together to tell of his life lived through the written word as a way to stave off the advancement of a degenerative neurological condition causing him to lose the use of language. Carlos Monsiváis reúne un muestrario de personajes que de modos diversos,

insólitos a veces, ilustran facetas de la sociedad mexicana. Así, gracias a su particular estilo, desfilan ante el lector músicos (Lara, Jiménez), chavos onderos y clase alta, figuras espectaculares (Fidel Velázquez, La Tigresa, Isela Vega, Siqueiros), un escritor singular ahogado por su ubicua figura (Novo), un maestro de ceremonias de masas (Raúl Velasco) y los militantes de izquierda que con sus vidas y muertes son el indispensable contrapunto del amor perdido por la historia mexicana.

En este volumen se han reunido, junto con muchas fotografías de la colección del Museo del Estanquillo. Estas páginas son espejos del país y de nosotros, imágenes de nuestros recuerdos, Maravillas que son, sombras que fueron, captadas por esa especie de fotógrafo de México que fue Carlos Monsiváis durante cinco décadas.

Just as Mexican national life

has come to center on the sprawling, dynamic, almost indefinable metropolis of Mexico City, so recent Mexican cinema has focused on the city not merely as a setting for films but almost as a protagonist in its own right, whose conditions both create meaning for and receive meaning from the human lives lived in its midst. Through close readings of fourteen recent critically acclaimed films, this book watches Mexican cinema in this process of producing cultural meaning through its creation,

enaction, and interpretation of the idea of Mexico City. David William Foster analyzes how Mexican filmmakers have used Mexico City as a vehicle for exploring such issues as crime, living space, street life, youth culture, political and police corruption, safety hazards, gender roles, and ethnic and social identities. The book is divided into three sections. "Politics of the City" examines the films Rojo amanecer, Novia que te vea, Frida, naturaleza viva, and Sexo, pudor y lágrimas. "Human Geographies" looks

Las consignas “No sin nosotros”, “Nunca más un México sin nosotros”, y otras de intención similar, responden a la certeza compartida: sólo se avanza en la democratización y en la lucha contra la desigualdad si se le pone límites a la exclusión o si se le elimina. La primera parte de este libro se dedica a la crónica de algunos procesos primordiales de la sociedad civil en México desde 1985. En la segunda se reproduce la crónica de Carlos Monsiváis escrita en los días del terremoto, en esos meses de dolor, confianza y energía de la comunidad imaginada.

As the most popular mass spectator

sport across the world, soccer generates key moments of significance on and off the field, encapsulated in events that create metaphors and memories, with wider social, cultural, psychological, political, commercial and aesthetic implications. Since its inception as a modern game, the history of soccer has been replete with events that have changed the organization, meanings and impact of the sport. The passage from the club to the nation or from the local to the global often opens up transnational spaces that provide a context for studying the events that have 'defined' the sport and its followers. Such defining events can

include sporting performances, decisions taken by various stakeholders of the game, accidents and violence among players and fans, and invention of supporter cultures, among other things. The present volume attempts to document, identify and analyse some of the defining events in the history of soccer from interdisciplinary and comparative perspectives. It revisits the discourses of signification and memorialization of such events that have influenced society, culture, politics, religion, and commerce. This book was originally published as a special issue of the journal Soccer & Society.

In the months leading up to the 1968 Olympic games in Mexico City, students took to the streets, calling for greater democratization and decrying crackdowns on political resistance by the ruling PRI party. During a mass meeting held at the Plaza of the Three Cultures in the Tlatelolco neighborhood, paramilitary forces opened fire on the gathering. The death toll from the massacre remains a contested number, ranging from an official count in the dozens to estimates in the hundreds by journalists and scholars. Rereading the legacy of this tragedy through diverse artistic-political interventions across the

decades, Photopoetics at Tlatelolco explores the state's dual repression—both the massacre's crushing effects on the movement and the manipulation of cultural discourse and political thought in the aftermath. Examining artifacts ranging from documentary photography and testimony to poetry, essays, chronicles, cinema, literary texts, video, and performance, Samuel Steinberg considers the broad photographic and photopoetic nature of modern witnessing as well as the specific elements of light (gunfire, flares, camera flashes) that ultimately defined the massacre. Steinberg also demonstrates the ways in which

the labels of “massacre” and “sacrifice” inform contemporary perceptions of the state’s blatant and violent repression of unrest. With implications for similar processes throughout the rest of Latin America from the 1960s to the present day, Photopoetics at Tlatelolco provides a powerful new model for understanding the intersection of political history and cultural memory.

Why did collectors seek out posters and collect ephemera during the late-nineteenth and the twentieth centuries? How have such materials been integrated into institutional collections today? What inspired collectors to build significant

holdings of works from cultures other than their own? And what are the issues facing curators and collectors of digital ephemera today? These are among the questions tackled in this volume—the first to examine the practices of collecting prints, posters, and ephemera during the modern and contemporary periods. A wide range of case studies feature collections of printed materials from the United States, Latin America, France, Germany, Great Britain, China, Japan, Russia, Iran, and Cuba. Fourteen essays and one roundtable discussion, all specially commissioned from art historians, curators, and collectors for this

volume, explore key issues such as the roles of class, politics, and gender, and address historical contexts, social roles, value, and national and transnational aspects of collecting practices. The global scope highlights cross-cultural connections and contributes to a new understanding of the place of prints, posters and ephemera within an increasingly international art world.

The modern metropolis has been called 'the symbol of our times', and life in it epitomizes, for many, modernity itself. But what to make of inherited ideas of modernity when faced with life in Mexico City and São Paulo, two of the largest metropolises in the world? Is their fractured reality, their brutal social contrasts, and the ever-escalating violence faced by their citizens just an intensification of what Engels described in the first in-depth analysis of an industrial metropolis, nineteenth century Manchester? Or have post-industrial and neo-globalized economies given rise to new forms of urban existence

in the so-called developing world? Life in the Megalopolis: Mexico City and São Paulo investigates how such questions are explored in cultural productions from these two Latin American megalopolises, the focus being on literature, film popular music, and visual arts. This book combines close readings of works with a constant reference to theoretical, anthropological and social studies of these two cities, and builds on received definitions of the concept megalopolis Life in the Megalopolis is the first book to combine urban-studies theories (particularly Lefebvre, Harvey, and de Certeau) with Benjaminian cultural analyses, and theoretical discussions with close-readings of recent cultural works in various media. It is also the first book to compare Mexico City and

La mejor antología del maestro de la crónica. Carlos Monsiváis era a partes iguales figura mediática, escritor popular e intelectual imprescindible. Autor de una obra tan amplia como fascinante, inventó una forma de contar la realidad y dotó a la crónica y al ensayo periodístico de verdadero calado literario, como prueban las

páginas que conforman esta antología, seleccionada por Jordi Soler en conversación con el propio Monsiváis. El título, *Los ídolos a nado*, un verso de Ramón López Velarde, lo eligió Monsiváis, quizá por su misteriosa sonoridad, y también porque contiene esa imagen poderosa que sugiere lo que esta antología pretende: cruzar el mar y traer a España la obra de uno de los escritores imprescindibles de la lengua. Reseñas: «En su Autobiografía, que publicó a los veintiocho años, Monsiváis declaró: "Acepté esta suerte de autobiografía con el mezcquino fin de hacerme ver como una mezcla de Albert Camus y Ringo Starr". Power is a pervasive phenomenon yet there is little consensus on what it is and how it should be understood. In this book the cultural theorist Byung-Chul Han develops a fresh and original perspective on the nature of power, shedding new light on this key

feature of social and political life. Power is commonly defined as a causal relation: an individual's power is the cause that produces a change of behaviour in someone else against the latter's will. Han rejects this view, arguing that power is better understood as a mediation between ego and alter which creates a complex array of reciprocal interdependencies. Power can also be exercised not only against the other but also within and through the other, and this involves a much higher degree of mediation. This perspective enables us to see that power and freedom are not opposed to one another but are manifestations of the same power, differing only in the degree of mediation. This highly original account of power will be of great interest to students and

scholars of philosophy and of social, political and cultural theory, as well as to anyone seeking to understand the many ways in which power shapes our lives today.

Un volumen tan hermoso como delicioso. One of Mexico's foremost

social and political chroniclers and its most celebrated cultural critic, Carlos Monsiváis has read the pulse of his country over the past half century. The author of five collections of literary journalism pieces called crónicas, he is perhaps best known for his analytic and often satirical descriptions of Mexico City's popular culture. This comprehensive study of Monsiváis's crónicas is the first book to offer an analysis of these works and to place Monsiváis's work within a theoretical framework that recognizes the importance of his vision of Mexican

culture. Linda Egan examines his ideology in relation to theoretical postures in Latin America, the United States, and Europe to cast Monsiv tis as both a heterodox pioneer and a mainstream spokesman. She then explores the poetics of the contemporary chronicle in Mexico, reviewing the genre's history and its relation to other narrative forms. Finally, she focuses on the canonical status of Monsiv tis's work, devoting a chapter to each of his five principal collections. Egan argues that the five books that are the focus of her study tell a story of ever-renewing suspense: we cannot

know the end until
Monsivís is through

project. Despite this, she
observes, his work between

in Spain and Latin America. In *The Everyday Atlantic*, Tania Gentic offers a new understanding of the ways in which individuals and communities perceive themselves in the twentieth-century Atlantic world. She grounds her study in first-time comparative readings of daily newspaper texts, written in Spanish, Portuguese, and Catalan. Known as chronicles, these everyday literary writings are a precursor to the blog and reveal the ephemerality of identity as it is represented and received daily. Throughout the text Gentic offers fresh readings of well-known and lesser-

known chroniclers (cronistas), including Eugeni d'Ors (Catalonia), Germán Arciniegas (Colombia), Clarice Lispector (Brazil), Carlos Monsiváis (Mexico), and Brazilian blogger Ricardo Noblat. While previous approaches to the Atlantic crossings by subjects, Gentie highlights the everyday moments of reading and thought in which discourses of nation, postcolonialism, and globalization come into conflict. Critics have often evaluated in isolation how ideology, ethics, affect, and the body inform

What defines the boundary between fact and fabrication, fiction and nonfiction, literature and journalism? Latin American Documentary Narratives unpacks the precarious testimonial relationship between author

and subject, where the literary journalist, rather than the subject being interviewed, can become the hero of a narrative in its recording and retelling. Latin American Documentary Narratives covers a variety of nonfiction genres from the 1950s to the 2000s that address topics such as social protests, dictatorships, natural disasters, crime and migration in Latin America. This book analyzes □ and includes an appendix of interviews with □ authors who have not previously been critically read together,

from the early and emblematic works of Gabriel García Márquez and Elena Poniatowska to more recent authors, like Leila Guerriero and Juan Villoro, who are currently reshaping media and audiences in Latin America. In a world overwhelmed by data production and marked by violent acts against those considered 'others', Liliana Chávez Díaz argues that storytelling plays an essential role in communication among individuals, classes and cultures.

Si, además de la realidad, algo se opone a lo uniforme, son las crónicas urbanas de personajes y creencias. Así, por ejemplo, este auge de lo diverso admite la convivencia, divertida o resignada, contradictoria y complementaria, de Luis Miguel y el Niño Fidencio, de El Santo, el enmascarado de Plata, y el Metro, de Sting y los coleccionistas de pintura virreinal. Lo antes mencionado, en un sentido digamos que positivo, apunta al caos: en esta oportunidad no la alteración de las jerarquías sino la gana

de vivir como si las jerarquías no estuviesen aquí, sobre uno y dentro de uno. Y el caos (en el sentido de marejada del relajo y suefio de la trascendencia) usa también de esas fijezas en el tumulto que llamamos rituales. Aunque no se perciba, en las grandes ciudades las jerarquías se mantienen rígidas y, al mismo tiempo, las jerarquías pierden su lugar y se deshacen en la trampa de los sentidos, en el embotellamiento de seres, automóviles, pasiones, circunstancias. Y mientras

esto acontece, son los rituales, esa última etapa de permanencia, los que insisten en la fluidez de lo nacional. En la más intensa de las transformaciones concebibles, las ceremonias, objeto de estas crónicas, aportan las últimas pruebas de continuidad.

At once intimate and wide-ranging, and as enthralling, surprising, and vivid as the place itself, this is a uniquely eye-opening tour of one of the great metropolises of the world, and its largest Spanish-speaking city.

Horizontal Vertigo: The title

refers to the fear of ever-impending earthquakes that led Mexicans to build their capital city outward rather than upward. With the perspicacity of a keenly observant flaneur, Juan Villoro wanders through Mexico City seemingly without a plan, describing people, places, and things while brilliantly drawing connections among them. In so doing he reveals, in all its multitudinous glory, the vicissitudes and triumphs of the city 's cultural, political, and social history: from indigenous antiquity to the

Aztec period, from the Spanish conquest to Mexico City today—one of the world's leading cultural and financial centers. In this deeply iconoclastic book, Villoro organizes his text around a recurring series of topics: "Living in the City," "City Characters," "Shocks," "Crossings," and "Ceremonies." What he achieves, miraculously, is a stunning, intriguingly coherent meditation on Mexico City's genius loci, its spirit of place.

What is Power?

Using concepts from urban and cultural studies, City Fictions examines the representation of the city in the works of five important late-twentieth-century Spanish American authors, Octavio Paz, Julio Cortazar, Christina Peri Rossi, Diamela Eltit, and Carlos Monsiváis.

While each of these authors is influenced at least partially by a specific Spanish American city, be it Mexico City, Buenos Aires, Montevideo, or Santiago, the element that brings them together is the way in which the city is fictionalized

in their work: they all equate both language and the body with urban space. In these metaphors, language breaks down and the body disintegrates, creating a disturbing picture of violent decline. The poetry of Paz associates the urban surroundings with dissolving sentences and desensitized, fingertips; for Cortazar, characters walking through cities are seen as both creating and unraveling written texts; The central figure of this novel is a young man whose parents were executed for conspiring to steal atomic secrets for Russia. His name is Daniel Isaacson, and as the story opens, his parents have been dead for many years. He has had a long time to adjust to their deaths. He has not adjusted. Out of the shambles of his childhood, he has constructed a new

life—marriage to an adoring girl who gives him a son of his own, and a career in scholarship. It is a life that enrages him. In the silence of the library at Columbia University, where he is supposedly writing a Ph.D. dissertation, Daniel composes something quite different. It is a confession of his most intimate relationships—with his wife, his foster parents, and his kid sister Susan, whose own radicalism so reproaches him. It is a book of memories: riding a bus with his parents to the ill-fated Paul Robeson concert in Peekskill; watching the FBI take his father away; appearing with Susan at rallies protesting their parents' innocence; visiting his mother and father in the Death House. It is a book of investigation: transcribing Daniel's interviews with people who

knew his parents, or who knew about them; and logging his strange researches and discoveries in the library stacks. It is a book of judgments of everyone involved in the case—lawyers, police, informers, friends, and the Isaacson family itself. It is a book rich in characters, from elderly grand- mothers of immigrant culture, to covert radicals of the McCarthy era, to hippie marchers on the Pen-tagon. It is a book that spans the quarter-century of American life since World War II. It is a book about the nature of Left politics in this country—its sacrificial rites, its peculiar cruelties, its humility, its bitterness. It is a book about some of the beautiful and terrible feelings of childhood. It is about the nature of guilt and innocence, and about the relations of people to nations.

It is The Book of Daniel.

Drawing on a mix of political, economic, literary, and filmic texts, Crisis Cultures challenges current cultural histories of the neoliberal period by arguing that financialization, and not just neoliberalism, has been at the center of the dramatic transformations in Latin American societies in the last thirty years. Starting from political economic figures such as crisis, hyperinflation, credit, and circulation and exemplary cultural texts, Whitener traces the interactions between culture, finance, surplus populations, and racialized state violence after 1982 in Mexico and Brazil. Crisis Cultures makes sense of the emergence of new forms of exploitation and terrifying police and militarized violence by tracking the cultural and

discursive forms, including real abstraction and the favela and immaterial cadavers and voided collectivities, that have emerged in the complicated aftermath of the long downturn and global turn to finance. This landmark collection of illustrated essays explores the vastly underappreciated history of America's other cities -- the great metropolises found south of our borders in Central and South America. Buenos Aires, So Paulo, Mexico City, Caracas, Havana, Santiago, Rio, Tijuana, and Quito are just some of the subjects of this diverse collection. How have desires to create modern societies shaped these cities, leading to both architectural masterworks (by the likes of Luis Barragn, Juan O'Gorman, Lcio Costa,

Roberto Burle Marx, Carlos Ral Villanueva, and Lina Bo Bardi) and the most shocking favelas? How have they grappled with concepts of national identity, their colonial history, and the continued demands of a globalized economy? Lavishly illustrated, Cruelty and Utopia features the work of such leading scholars as Carlos Fuentes, Edward Burian, Lauro Cavalcanti, Fernando Oayrzn, Roberto Segre, and Eduardo Subirats, along with artwork ranging from colonial paintings to stills from Chantal Akerman's film From the Other Side. Also included is a revised translation of Spanish King Philip II's influential planning treatise of 1573, the "Laws of the Indies," which did so much to define the form of the Latin American city.
