

Lost In The Barrens Farley Mowat

The popular sequel to his award-winning *Lost in the Barrens*, this is Farley Mowat's suspense-filled story of how Awasin, Jamie and Peetryuk, three adventure-prone boys, stumble upon a cache of Viking relics in an ancient tomb somewhere in the north of Canada. Packed with excitement and with little-known information about the customs of Viking explorers, this story of survival portrays the bond of youthful friendship and the wonders of a virtually unexplored land.

In 1957, Farley Mowat shipped out aboard one of Newfoundland's famous coastal steamers, tramping from outport to outport along the southwest coast. The indomitable spirit of the people and the bleak beauty of the landscape would lure him back again and again over the years. In the process of falling in love with a people and a place, Mowat also met the woman who would be the great love of his life: A stunningly beautiful and talented young artist, Claire Wheeler insouciantly climbed aboard Farley's beloved but jinxed schooner as it lay on the St. Pierre docks, once again in a cradle for repairs, and changed both their lives forever. This is the story of that love affair, of summers spent sailing the Newfoundland coast, and of their decision to start their life together in Burgeo, one of the province's last remaining outports. It is also an unforgettable portrait of the last of the outport people and a way of life that had survived for centuries but was now passing forever. Affectionate, unsentimental, this is a burnished gem from an undiminished talent. I was inside my vessel painting the cabin when I heard the sounds of a scuffle nearby. I poked my head out the companionway in time to see a lithesome young woman swarming up the ladder which leaned against Happy Adventure's flank. Whining expectantly, the shipyard dog was endeavouring to follow this attractive stranger. I could see why. As slim and graceful as a ballet dancer (which, I would later learn, was one of her avocations), she appeared to be wearing a gleaming golden helmet (her own smoothly bobbed head of hair) and was as radiantly lovely as any Saxon goddess. I invited her aboard, while pushing the dog down the ladder. "That's only Blanche." I reassured my visitor. "He won't bite. He's just, uh . . . being friendly." "That's nice to know," she said sweetly. Then she smiled . . . and I was lost.

Feisty icon, passionate Canadian, unrelenting foe of all pretension; energetic provocateur-at-large and most importantly, superb and dedicated writer, there cannot be a Canadian alive who is unaware of the legacy that is Farley Mowat. And No Bird Sang and A Whale for the Killing are the first books in a new Douglas & McIntyre library of handsomely redesigned paperback editions of Farley Mowat's work. Turned away from the Royal Canadian Air Force for his apparent youth and frailty, Farley Mowat joined the infantry in 1940. The young second lieutenant soon earned the trust of the soldiers under his command, and was known to bend army rules to secure a stout drink, or find warm – if non-regulation -- clothing. But when Mowat and his regiment engaged with elite German forces in the mountains of Sicily, the optimism of their early days as soldiers was replaced by despair. With a naturalist's eyes and ears, Mowat takes in the full dark depths of war -- and his moving account of military service, and the friends he left behind, is also a plea for peace. It is one of the most searing and unforgettable World War II memoirs from any Canadian.

The northeastern seaboard of Canada and the United States, extending from Labrador to Cape Cod, was the first region of North America to suffer from human exploitation. Farley Mowat informs extensive historical and biological research with his direct experience living in and observing this region. When it was first published more than 20 years ago, *Sea of Slaughter* served as a catalyst for environment reform, raising awareness of the decline and destruction of marine and coastal species. Today, it remains a prescient environmental classic, serving, now as ever, as a haunting reminder of the impact of human interest on the natural world.

Eastern Passage

The story of an astonishing band of Canadian soldiers and their part in the Allied victory in Italy. The Hastings and Prince Edward Regiment (the Hasty Ps) was Canada's most decorated regiment in the Second World War, winning thirty-one battle honours. Famed for their role in the Allied invasion of Sicily and the conquest of Italy, for six years the members of the regiment suffered brutal conditions, fighting bravely in the face of fierce opposition from the enemy, and ultimately triumphing. In The Regiment (originally published in 1955), Farley Mowat, famed Canadian fiction writer and regiment member, tells the story of the Hasty Ps, from their recruitment in September 1939 until the end of the war. Mowat was a second lieutenant and platoon leader with the regiment, and writes movingly of the great suffering his fellow soldiers endured, their bravery in battle, and the lasting friendships he forged as a member of the group. In this provocative bestseller, Farley Mowat challenges the conventional notion that the Vikings were the first Europeans to reach northern Canada. Mowat offers instead an unforgettable portrait of the Albans, a race originating from the island now known as Britain. Battered by repeated invasions from their aggressive neighbours -- Celt, Roman and Norse -- the Albans boarded seaworthy, skin-covered boats and fled west. Their search for safety, and for the massive walrus herds on which their survival depended, took them first to Iceland, then to Greenland, and, finally, to the land now known as Newfoundland and Labrador. Skillfully weaving together clues gathered from forty years of research, Mowat presents a fascinating account of a forgotten history. The Farfarers affirms Mowat's status as one of Canada's most powerful chroniclers. From the Trade Paperback edition.

EYE TO EYE WITH DEATH: THE WOLF PROJECT Hordes of bloodthirsty wolves are slaughtering the arctic caribou, and the government's Wildlife Service assigns naturalist Farley Mowat to investigate. Mowat is dropped alone onto the frozen tundra, where he begins his mission to live among the howling wolf packs and study their ways. Contact with his quarry comes quickly, and Mowat discovers not a den of marauding killers but a courageous family of skillful providers and devoted protectors of their young. As Mowat comes closer to the wolf world, he comes to fear with them the onslaught of bounty hunters and government exterminators out to erase the noble wolf community from the Arctic. Never Cry Wolf is one of the brilliant narratives on the myth and magic of wild wolves and man's true place among the creatures of nature. "We have doomed the wolf not for what it is, but for what we deliberately and mistakenly perceive it to be — the mythologized epitome of a savage, ruthless killer — which is, in reality, no more than the reflected image of ourself." — From the new Preface

The Black Joke is a rousing sea story in the tradition of the great classic pirate tales. The time is the 1930s. The loot is bootleg liquor, not pirate gold. And the ship is the Black Joke, the speediest, nimblest craft on the Newfoundland coast—Jonathon Spence, owner and master. An unwelcome passenger enmeshes the boat and her crew (young Peter and Kye) in danger and near destruction . . . until the fiercely independent people of the island of Miquelon are caught up in the fate of the Black Joke and the cargo aboard her.

In 1985, when Mowat tried to enter the United States for a book promotion tour, he was barred by the McCarran Act, a 1952 law enacted during the McCarthy era. This book, told with outraged but good humour, describes Mowat's fight against the ban.

In the quiet of Hog's Hollow, each member of the River family pursues a dream. Old Man River sets out to build a fallout shelter in case the war in Vietnam "brings the end of everything," his wife Flo, who collects Gone with the Wind dolls, attempts to pen her own Southern saga; Beau, their older son, suffers from "space fever" and aspires to be an astronaut. As for Danny, the younger River boy, well, he just dreams of having a dog. Then in the spring of 1965 tragedy befalls the Rivers—a tragedy that makes the Old Man wish he'd never started building the shelter, stops Flo from finishing her bestseller, and leaves Beau grounded rather than airborne. But the tragedy does finally bring a dog into Danny's life. And not just any old dog. Danny comes to believe that the mixed-breed stray embodies the spirit of someone he dearly loves. He won't allow anyone to separate him from the dog, not even after it bites the neighborhood bully and the police are sent to take it away. With *No Man's River*, Farley Mowat has penned his best Arctic tale in years. This book chronicles his life among Metis trappers and native people as they struggle to eke out a living in a brutal environment. In the spring of 1947, putting the death and devastation of WWII behind him, Mowat joined a scientific expedition. In the remote reaches of Manitoba, he witnessed an Eskimo population ravaged by starvation and disease brought about by the white man. In his efforts to provide the natives with some of the assistance that the government failed to provide, Mowat set out on an arduous journey that collided with one of nature's most arresting phenomena—the migration of the Arctic's caribou herds. Mowat was based at Windy Post with a Metis trapper and two Inlalmiut children. A young girl, known as Rita, is painted with special vividness—checking the trap lines with the men, riding atop a sled, smoking a tiny pipe. Farley returns to the North two decades later and discovers the tragic fate that befell her. Combining his exquisite portraits with awe-inspiring passages on the power of nature, *No Man's River* is another riveting memoir from one of North America's most beloved writers.

A new and captivating piece of the puzzle of Farley Mowat's life: the years from his return from the north in the late 1940s to his discovery of Newfoundland and his love affair with the sea in the 1950s. This was a time in which he wrote his first books and weathered his first storms of controversy. It was a time of self-discovery, a formative period for him as a writer and activist. Mowat offers a rare glimpse into the inner workings of a writer's career and the events that shaped his work.

A classic account of the degradation of a tribe of Canadian Indians focuses on the fate of the Inlalmiut people of Northern Canada who suffered cultural decline, food shortages, and outside exploitation throughout the twentieth century. Reprint.

A Canadian icon gives us his final book, a memoir of the events that shaped this beloved writer and activist. Farley Mowat has been beguiling readers for fifty years now, creating a body of writing that has thrilled two generations, selling literally millions of copies in the process. In looking back over his accomplishments, we are reminded of his groundbreaking work: He single-handedly began the rehabilitation of the wolf with *Never Cry Wolf*. He was the first to bring advocacy activism on behalf of the Inuit and their northern lands with *People of the Deer* and *The Desperate People*. And his was the first populist voice raised in defense of the environment and of the creatures with whom we share our world, the ones he has always called *The Others*. Otherwise is a memoir of the years

between 1937 and the autumn of 1948 that tells the story of the events that forged the writer and activist. His was an innocent childhood, spent free of normal strictures, and largely in the company of an assortment of dogs, owls, squirrels, snakes, rabbits, and other wildlife. From this, he was catapulted into wartime service, as anxious as any other young man of his generation to get to Europe and the fighting. The carnage of the Italian campaign shattered his faith in humanity forever, and he returned home unable and unwilling to fit into post-war Canadian life. Desperate, he accepted a stint on a scientific collecting expedition to the Barrengrounds. There in the bleak but beautiful landscape he finds his purpose – first with the wolves and then with the indomitable but desperately starving

Inlalmiut. Out of these experiences come his first pitched battles with an ignorant and uncaring federal bureaucracy as he tries to get aid for the famine-stricken Inuit. And out of these experiences, too, come his first books. Otherwise goes to the heart of who and what Farley Mowat is, a wondrous final achievement from a true titan.

Farley Mowat's outrageous memoir begins with his unlikely conception in a canoe and continues to his boyhood fascination with creatures of the natural world and on to his youthful rambles and adventures. To his immense pleasure and his parents' dismay, he adopted various beasts (whom he affectionately calls "The Others") as roommates. In this boyhood memoir, he recounts the exploits of this second family, who have been the subjects of many of his beloved books for young readers. This is the tale of a mischievous, immensely gifted young naturalist, recounted with the wisdom, humor and grown-up perspective of a very talented writer.
