This intensive foundation course in Dutch is designed for those with no previous knowledge of the language. It is lively and fast-paced, providing students with a wide range of activities, and drawing on an impressive selection of source material from many different media. Audio materials are presented on accompanying CDs, to be purchased separately. Taking students from beginner to intermediate level in one year, the Routledge Intensive Dutch Course develops a thorough working knowledge of the structures of Dutch and practises the four key skills of language learning: reading, writing, speaking, and listening. Guidance for tutors as well as links to related sites is available on the Routledge website. Leven en werk van de Nederlandse schilder (1865-1934).

For over half a century, Alistair Cooke entertained and informed millions of listeners around the world in his weekly BBC radio program Letter from America. An outstanding observer of the American scene, he became one of the world’s best-loved broadcasters, and a foreigner who helped Americans better understand themselves. Here, in print for the first time, is a collection of Cooke’s finest reports that celebrates the inimitable style of this wise and avuncular reporter. Beginning with his first letter in 1946, a powerful description of American GIs returning home, and ending with his last broadcast in February 2004, in which he expressed his views on the United States presidential campaign, the collection captures Cooke’s unique voice and gift for telling stories. Gathered in this volume are encounters with the many presidents Cooke knew, from Roosevelt to Nixon, Reagan, Clinton, and Bush, both Senior and Junior. His friends are warmly recollected–among them Leonard Bernstein, Philip Larkin, Humphrey Bogart, Charlie Chaplin, and Katharine Hepburn. We observe a variety of political landmarks–the Vietnam War, Watergate, Cooke’s remarkable eyewitness account of Robert Kennedy’s assassination, through to the scandals that surrounded Clinton and the conflict in Iraq. His moving evocation of the events of September 11 and its aftermath remains essential reading, while his recollections of holidays and sporting events remind us of Cooke’s delight in the pleasures of everyday life. Imbued with Alistair Cooke’s good humor, elegance, and understanding, Letter from America, 1946—2004 is a captivating insight into the heart of a nation and a fitting tribute to the man who was for so many the most reassuring voice of our times.

An innovative study of the cult of the navy in the age of empire.

John Naisbitt’s book Megatrends (1982) sold more than 8 million copies world wide and remained at the top of the bestseller lists for two years. That book, and Megatrends 2000, established John Naisbitt as one of the world’s foremost forecasters of social, economic, political and cultural trends. In those books, he accurately predicted trends ranging from the globalisation of the economy to the surging impact of technological innovations and the renewed power of culture on our lives. Now he provides a vision of the forces that will transform the world following the epochal changes of the early 1990s.InGlobal Paradox, John Naisbitt explores the new global environment of the 1990s and the powerful opportunities and challenges it will present to nations, businesses and individuals in this period of growth and transformation at the millennium’s end.New patterns have emerged in the world since the collapse of the Soviet Union. The global economy is growing at an unprecedented rate, but large organisations in business and government are faltering. The ‘European dream’ is fading, and dozens of nations are establishing their own identities. Multinational corporations are loosening their fetters and becoming loose confederations of small, agile operating units. Small and medium sized businesses are coming to increasingly dominate the marketplace. This is the global paradox: as the global economy gets larger, the individual units-people, countries and small firms-are becoming more powerful.Global Paradoxspells out the patterns that will reshape our daily life, at home, in business, in politics and travel. This is a book for everyone concerned about the shape of the future.-As nations proliferate, electronics will become both a universal currency and language.-Small and medium sized companies will be the driving force behind the future’s huge global economy.-The world will shape itself into new trading and political blocs.-Big multinational companies will reshape themse

Velikovsky returns to his roots as a psychologist and psychoanalytical therapist, with humanity as a whole as his patient. After an extremely revealing overview of the foundations of the various psychoanalytical systems, he makes the step into crowd psychology and reopens the case of Worlds in Collision from a totally different point of view: as a psychoanalytical case study.

America’s moral decline is not secret. An alarming number of moral and cultural problems have exploded in our country since 1960--a period when the standards of morality expressed in our laws and customs have been relaxed, abandoned, or judicially overruled. Conventional wisdom says laws cannot stem moral decline. Anyone who raises the prospect of legislation on the hot topics of our day – abortion, family issues, gay rights, euthanasia – encounters a host of objections: As long as I don't hurt anyone the government s should leave me alone." No one should force their morals on anyone else." You can't make people be good." Legislating morality violates the separation of church and state." 'Legislating Morality' answers those objections and advocates a moral base for America without sacrificing religious and cultural diversity. It debunks the myth that morality can't be legislated" and amply demonstrates how liberals, moderates, and conservatives alike exploit law to promote good and curtail evil. This book boldly challenges prevailing thinking about right and wrong and about our nation's moral future.

This book gathers selected papers presented at International Conference on Machine Learning, Advances in Computing, Renewable Energy and Communication (MARC 2020), held in Krishna Engineering College, Ghaziabad, India, during December 17–18, 2020. Society 3.0: Mastering the Global Transition on Our Way to the Next Step in Human Evolution investigates the myriad of financial crises plaguing our society today, as well as their effects on the future of work and education. Ronald van de Hoff also describes the need for (and emergence of) a knowledge- driven civilization, marked by accelerating change, value networks, and “knowmadz,” the nomadic knowledge workers of the future.Monetizing on the Mesh is the final theme explored in this book. Open value networks replace value chains, reality and virtuality are blurring. People get what they need from each other and may go around your organization, unless the crowd becomes part of your organization. Business models are changing. How do you connect with potential clients who may never become paying clients in the end? What is social capital? How do you create sustainable monetization with your own Mesh?On the platform www.society30.com, the content of this book is evaluated, contradicted, deepened, and extended.

When Frankie Hermans emerges from a coma after 200 days, he knows his life is never going to be the same again. For a start, he can't talk, he can't walk and it's a struggle even to wield a pen. And then there's Joe Speedboat -- a boy who arrived in the sleepy village of Lomark like a blazing comet and who's been stirring things up ever since. Whether setting off bombs, racing mopeds or building a bi-plane, Joe has the touch of a magician and the spirit of a daredevil. He also sees a use for Frankie's good right arm beyond writing: as a champion arm-wrestler Frankie will be strong enough to impress his friends, and maybe even win the favour of the gorgeous, golden-haired girl who has them all in a spin. Full of vitality, verve and chutzpah, Joe Speedboatells the fast-paced story of an unlikely friendship between two boys, and of their lightning dash towards adulthood.

We're Going on a Bear Hunt

"Despite labour history’s flourishing since the 1960s an essential aspect of workers’ lives has been virtually overlooked: their constant struggle for protection from threats to their way of life, such as illness, unemployment, disability and old age. Mutual benefit societies have been a major means of social self-defence in this area. The present collection of essays covers new ground by exploring the development of mutual benefit societies in 26 countries across five continents. A number of comparative and international analyses has also been included."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

How does human language work? How do we put ideas into words that others can understand? Can linguistics shed light on the way the brain operates? Foundations of Language puts linguistics back at the centre of the search to understand human consciousness. Ray Jackendoff begins by surveying the developments in linguistics over the years since Noam Chomsky’s Aspects of the Theory of Syntax. He goes on to propose a radical re-conception of how the brain processes language. This opens up vivid new perspectives on every major aspect of language and communication, including grammar, vocabulary, learning, the origins of human language, and how language relates to the real world. Foundations of Language makes important connections with other disciplines which have been isolated from linguistics for many years. It sets a new agenda for close cooperation between the study of language, mind, the brain, behaviour, and evolution.

Letters, To The Men I Have Loved

The new novel by the internationally acclaimed author- "a farce of nuclear proportions"(Vanity Fair) Arnon Grunberg is one of the most subtly outrageous provocateurs in world literature. The Jewish Messiah, which chronicles the evolution of one Xavier Radek from malcontent grandson of a former SS officer, to Jewish convert, to co- translator of Hitler's Mein Kampf into Yiddish, to Israeli politician and Israel's most unlikely prime minister, is his most outrageous work yet. Taking on the most well-guarded pieties and taboos of our age, The Jewish Messiah is both a great love story and a grotesque farce that forces a profound reckoning with the limits of human guilt, cruelty, and suffering. It is without question Arnon Grunberg's masterpiece.

Andy Carter was happy. He had a solid job. He ran 5Ks for charity. He was living a nice, safe Midwestern existence. And then his wife left him for a handsome paramedic down the street. "We re All Damaged" begins after Andy has lost his job, ruined his best friend s wedding, and moved to New York City, where he lives in a tiny apartment with an angry cat named Jeter that isn t technically his. But before long he needs to go back to Omaha to say good-bye to his dying grandfather. Back home, Andy is confronted with his past, which includes his ex, his ex s new boyfriend, his right-wing talk-radio-host mother, his parents crumbling marriage, and his still-angry best friend. As if these old problems weren t enough, Andy encounters an entirely new complication: Daisy. She has fifteen tattoos, no job, and her own difficult past. But she claims she is the only person who can help Andy be happy again, if only she weren t hiding a huge secret that will mess things up even more. Andy Carter needs a second chance at life, and Daisy and the person Daisy pushes Andy to become may be his last chance to set things right. "
