Druckerman talks to psychologists, sex researchers, marriage counselors, and most of all, cheaters and the people they've cheated on, and concludes that Americans are the least adept at having affairs, have the most trouble enjoying them, and suffer the most in their aftermath. ?A voyeuristic, statistics-packed, sometimes shocking, often funny glimpse into the endlessly intriguing world of extramarital sex.? The media today is filled with powerful men in trouble for their sexual behaviors, and invariably, they are diagnosed as sexual addicts. Since Adam first hid his nakedness from God and pointed the finger at Eve, men have struggled to take responsibility for their sexuality. Over the past three decades, these behaviors have come to reflect not a moral failing, but instead, evidence of an ill-defined disease, that of "sexual addiction." The concept of sexual*

*addiction is a controversial one because it is based on questionable research and subjective moral judgments. Labeling these behaviors as sex addiction asserts a false, dangerous myth that undermines personal responsibility. Not only does this epidemic of sex addiction excuse mislabel male sexuality as dangerous and unhealthy, but it destroys our ability to hold people accountable for their behaviors. By labeling males as weak and powerless before the onslaught and churning tide of lust, we take away those things that men should live up to: personal responsibility; integrity; self-control; independence; accountability; self-motivation; honor; respect for self and others. In The Myth of Sex Addiction, Ley presents the history and questionable science underlying this alleged disorder, exposing the moral and cultural judgments that are embedded in the*

*concept, as well as the significant economic factors that drive the label of sex addiction in clinical practice and the popular media. Ley outlines how this label represents a social attack on many forms of sexuality—male sexuality in particular—as well as presenting the difficulty this label creates in holding people responsible for their sexual behaviors. Going against current assumptions and trends, Ley debunks the idea that sex addiction is real, or at least that it is as widespread as it appears to be. Instead, he suggests that the high-sex behaviors of some men is something that has been tacitly condoned for countless years and is only now labeled as a disorder as men are being held accountable to the same rules that have been applied to women. He suggests we should expect men to take responsibility for sexual choices, rather than supporting an approach that labels male sexual desire as a*

Today, they are a community in crisis, but they provide us with unparalleled access to a library of ancient Gnostic scriptures, as part of the living tradition that has sustained them across the centuries. Gnostic texts such as these have caught popular interest in recent times, as traditional assumptions about the original forms and cultural contexts of related religious traditions, such as Judaism, Christianity, and Islam, have been called into question. However, we can learn only so much from texts in isolation from their own contexts. Mandaean literature uniquely allows us not only to increase our knowledge about Gnosticism, and by extension all these

## ***The Mandaean Book of John***

This early work by James Oliver Curwood was originally published in 1908 and we are now republishing it with a brand new introductory biography. "The Wolf Hunters" sees an American boy who has become friends with a Native American boy, together they discover a mysterious cabin, and stumble upon a secret that has lain hidden for half a century. "The Wolf Hunters" is the prequel to "The Gold Hunters." James Oliver 'Jim' Curwood was an American action-adventure writer and conservationist. He was born on 12th June, 1878, in

Owosso, Michigan, USA. In 1900, Curwood sold his first story while working for the Detroit News-Tribune, and after this, his career in writing was made. By 1909 he had saved enough money to travel to the Canadian northwest, a trip that provided the inspiration for his wilderness adventure stories. The success of his novels afforded him the opportunity to return to the Yukon and Alaska for several months each year - allowing Curwood to write more than thirty such books. Curwood's adventure writing followed in the tradition of Jack London. Like London, Curwood set many of his works in the wilds

of the Great Northwest and often used animals as lead characters (Kazan, Baree; Son of Kazan, The Grizzly King and Nomads of the North). Many of Curwood's adventure novels also feature romance as primary or secondary plot consideration. This approach gave his work broad commercial appeal and helped drive his appearance on several best-seller lists in the early 1920s. His most successful work was his 1920 novel, *The River's End*. The book sold more than 100,000 copies and was the fourth best-selling title of the year in the United States, according to *Publisher's Weekly*. He contributed to

various literary and popular magazines throughout his career, and his bibliography includes more than 200 such articles, short stories and serializations. Curwood was an avid hunter in his youth; however, as he grew older, he became an advocate of environmentalism and was appointed to the 'Michigan Conservation Commission' in 1926. The change in his attitude toward wildlife can be best expressed by a quote he gave in *The Grizzly King*: that 'The greatest thrill is not to kill but to let live.' Despite this change in attitude, Curwood did not have an ultimately fruitful relationship with nature. In

1927, while on a fishing trip in Florida, Curwood was bitten on the thigh by what was believed to have been a spider and he had an immediate allergic reaction. Health problems related to the bite escalated over the next few months as an infection set in. He died soon after in his nearby home on Williams Street, on 13th August 1927.

into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves

Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends.
