Stunning, cerebral Isla Duncan is the Montreal-based author of celebrated erotic romance novels. Isla knows a lot about sex, but though she gives her readers the "they lived happily ever after" ending they crave, she herself has never experienced love. Jonas Koertig is a billionaire whose diversified companies are headquartered in Munich. Jonas possesses the masculine good looks and superior intelligence of the main male characters in Isla's books, but is far more resourceful, exceedingly more powerful and a lot more egocentric. With a penchant for young, compliant, leggy and well-endowed women that party for a living, the thought of a committed relationship with a woman who thinks for herself makes Jonas break out in hives. Isla, with

her deep copper hair and turquoise eyes, resembles an aunt she never met, but from whom she inherited a vintage Claddagh ring. Her namesake swore that the Gaelic wedding ring was a talisman that would attract one's soul mate. Though Isla gives little credence to her aunt's superstitious belief, she has used it as inspiration for her latest book, The Claddagh Ring. The novel is on the verge of becoming her most successful to date, and Isla's publicist convinces her to wear her aunt's ring when making promotional appearances. On her way to a promotional event, Isla is trapped in the close confines of a malfunctioning elevator with a virile looking man that could easily have been the alpha-male in her latest book. While they wait, the stranger asks about the book in her

bag. Not revealing that she is the author, Isla explains the genre and that love is the predominant theme. The mention of love has him curling his lip in disdain and insulting her work. The petite redhead with the unusual eyes gives it right back to him, and Jonas finds himself doing the unimaginable: He invites her to have dinner with him. Isla smiles sweetly and tells him she'd rather stick a fork in her eye. Why had he invited the woman to dinner? Stranger yet: why had she not accepted? Women didn't refuse him anything ... At least, not the ones he knew. There was something so familiar about this redhead. Their paths would cross again in a story more fantastical than the ones on the pages of an Isla Duncan erotic romance novel. Public relations is a big and rapidly growing industry, with

From the founder of the Climate Outreach and Information Network, a groundbreaking take on the most urgent question of our time: Why, despite overwhelming scientific evidence, do we still ignore climate change? "Please read this book, and think about it." --Bill Nye Most of us recognize that climate change is real, and yet we do nothing to stop it. What is this psychological mechanism that allows us to know something is true but act as if it is not? George Marshall's search for the answers brings him face to face with Nobel Prize-winning psychologists and the

activists of the Texas Tea Party; the world's leading climate scientists and the people who denounce them; liberal environmentalists and conservative evangelicals. What he discovered is that our values, assumptions, and prejudices can take on lives of their own, gaining authority as they are shared, dividing people in their wake. With engaging stories and drawing on years of his own research, Marshall argues that the answers do not lie in the things that make us different and drive us apart, but rather in what we all share: how our human brains are wired-our evolutionary origins, our perceptions of threats, our cognitive blindspots, our love of storytelling, our fear of death, and our deepest instincts to defend our family and tribe. Once we understand what excites, threatens, and motivates us,

we can rethink and reimagine climate change, for it is not an impossible problem. Rather, it is one we can halt if we can make it our common purpose and common ground. Silence and inaction are the most persuasive of narratives, so we need to change the story. In the end, Don't Even Think About It is both about climate change and about the qualities that make us human and how we can grow as we deal with the greatest challenge we have ever faced. This book draws on recent deconstructions around the idea of 'femininity' as a social, racial and class construct and explores the diversity of spaces that may be defined as educational that range from institutional contexts to family, to professional outlooks, to racial identity, to defining community and religious groupings. It explores how notions of femininity change across time and place, and within individual lives. Such changes take place at the interface of external forces and individual agency.
