The canon of French literature has been the subject of much debate and now increasingly

francophone literatures are demanding more attention in student French literature courses. The first study in English of francophone literatures, this book introduces the diverse bodies

of texts in French from the numerous French-speaking areas around the world, with separate sections covering Africa, French Canada, the Creole Islands, and Europe, and will provide students at

Download Free Ma Plus Belle Victoire Belinda Bornsmith

both undergraduate and 'A' level with a comprehensive introductory survey of the subject. Francophone literatures emerge from rich bi- and multi-lingual cultures in part as colonial legacies.

They also challenge the monopoly of the French literary tradition. This introductory survey celebrates the linguistic difference of such texts and the creative possibilities offered by

deviance from an established tradition, demanding new critical approaches. The texts studied here cast a new light upon French literature in terms of their diverse perspectives upon writing,

their violent rewritings,
subversive versions and
parodies sometimes forming
an elaborate pastiche of
celebrated France texts.
Guides to further reading, a
