**In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The Complete Beginner to Expert Guide to Maximizing your 2020 MacBook Air.Are you looking for a comprehensive user manual that will help you SETUP and MASTER your MacBook Air? Are you looking for a manual that will expose you to all the amazing features of your device and 2020 MacOS Catalina 10.15? Then get your hands on this book and have an amazing time using your device.Apple updated the MacBook Air in a major way in mid-March 2020. While it may look like the previous version on the surface, dig a little deeper and you'll see it's the most significant upgrade since the 2018 redesign, offering buyers much more interesting customization options.The third iteration of the 'new' MacBook Air design finally nails every area well enough to make this the best MacBook for most people. The keyboard is the star of the show here. Yep, that's right. Apple ditched the disastrous butterfly keyboard for its Magic Keyboard and all I can say is: thank goodness. Even with all these new features, Apple still managed to keep the starting price at a relatively affordable \$999. The MacBook Air (2020) comes with all the right improvements without sacrificing the best features of the previous version.Apple didn't reinvent the MacBook Air on the outside. But the 2020 model does have some exciting improvements under the hood. There's a 10th-generation processor, and double the base storage. There is0a lot to love in Apple's latest MacBook Air. This book is written in simple and clear terms, with a step-by-step approach that will help you to master your MacBook Air with 2020 MacOS Catalina 10.15 within the shortest period of time. The first ever successful computer with a GUI, ability to allow users to preview a document before printing, and a mouse was the Mac. The following are the reasons why it has remained relevant all these years. Turned Icons into Art Since Mac was the first computer with a GUI, it was the first to have icons. Susan Kare designed those first icons for Mac. Macs Beg Networked Back when the Mac was launched, computer networking was exotic and pricey; but even then, Macs could be easily connected to each other. HyperCard Partly Inspired the Web The HyperCard was created by Bill Atkinson in 1987. Through this app, anyone could create on-screen cards with hyperlinks, images, or texts. The Mac laptop is advanced right out the box, it comes with many basic tools such as calendar management, email, etc. However, there is another world of powerful software for Apple Mac that will make complicated tasks easier. Although most of them are not free, they only cost a few bucks and they are well worth it. Here are some of the best.
