Sethe, an escaped slave living in post-Civil War Ohio with her daughter and mother-in-law, is haunted persistently by the ghost of the dead baby girl whom she sacrificed, in a new edition of the Nobel Laureate's Pulitzer Prize-winning novel. 25,000 first printing.

A fun kids craft book all about the creative adventures you can have with cardboard boxes.

Help children draw and think more creatively by inspiring them with interesting and challenging art prompts and questions. Invitation to Draw offers 99 open-ended drawing prompts, each one proposing a question to investigate that encourages children to free associate and problem solve. The perforated pages make it easy to tear out prompts for on-the-go activities or allowing multiple kids to draw at the same time. A blank cake provides the chance to decorate a dream confection, an empty house inspires stories about who lives there, and a grid of triangles supplies the chance to explore abstract art. What might be hiding in that tree? What sort of robot can you design? The possibilities are endless! Drawing prompts inspire and encourage kids to think and draw differently, and sometimes more creatively, than they might when faced with a blank page. By offering constraints such as a pair of eyes or an empty car and asking a question, children begin thinking about the possibilities and answering the question in their heads even before they put pen (or marker or crayon!) to paper. And through the act of drawing and observing the drawing unfold, the brain continues to think and problem solve, opening up all kinds of creative possibilities around that specific idea.

Art Workshops for Children

Too Much Glue

Lots of little, everyday frustrations make Nina mad, and she is very good at expressing her feelings. In graphic novel format.

Art Workshop for Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies, and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children, and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult, collaborative art, and thoughts on the Reggio Emilia method, a self-guided teaching philosophy. These pieces underscore the value of art-making with children, and support the parent/teacher/care-giver on how to successfully lead, question, and navigate their children through the workshops to result in the fullest experiences.

Classic and innovative hands-on projects for kids ages 3 and up designed to teach both heritage skills and how to think creatively. Handcraft is part of human nature: we build, we create, we innovate. The 20+ projects in this book from an experienced art educator weave a story of human innovation and creativity, from the very beginnings of building shelters in the woods to tinkering with recycled materials. Heritage skills teach children how to be independent and capable makers; fiber and wood projects offer rewarding crafts that also teach planning, preparation, and safe risk taking; and tinkering activities connect the low-tech process of making and doing with innovation. From soap carving and knot tying to building toy cars and junk robots, this book brings the fun of making things with your hands to young kids and links skills of the past with the present. The book also explores how to set up a maker space and teaches foundational workshop practices that can easily be applied to the home studio. Each project offers extensions for different ages and abilities and provides guiding questions to enrich the experience for both the maker (teacher/parent) and the apprentice (child) to encourage and celebrate creative, practical play.

Each book presents an everyday theme, which is then creatively explored and unravelled with the help of real-life examples.

From the New York Times bestselling author of Adulthood comes a story about how to make something when you're capable of nothing. Kelly Williams Brown had 700 Bad Days. Her marriage collapsed, she broke three limbs in separate and unrelated incidents, her father was diagnosed with cancer, and she fell into a deep depression that ended in what could delicately be referred to as a "rest cure" at an inpatient facility. Before that, she had several very good years: she wrote a bestselling book, spoke at NASA, had a beautiful wedding, and inspired hundreds of thousands of readers to live as grown-ups in an often-screwed-up world, though these accomplishments mostly just made her feel fraudulent. One of the few things that kept her moving forward was, improbably, crafting. Not Martha Stewart—perfect crafting, either—what could be called "simple," "accessible" or, perhaps, "rustic" creations were the joy and accomplishments she found in her worst days. To craft is to set things right in the littlest of ways; no matter how disconnected you feel, you can still fold a tiny paper star, and that's not nothing. In Easy Crafts for the Insane, crafting tutorials serve as the backdrop of a life dissolved, then glued back together. Surprising, humane, and utterly unforgettable, this is a poignant and hysterical look at the unexpected, messy coping mechanisms we use to find ourselves again.

Discover a feminist pop history that looks beyond the Ton and Jane Austen to highlight the Regency women who succeeded on their own terms and were largely lost to history -- until now. Regency England is a world immortalized by Jane Austen and Lord Byron in their beloved novels and poems. The popular image of the Regency continues to be mythologized by the hundreds of romance novels set in the period, which focus almost exclusively on wealthy, white, Christian members of the upper classes. But there are hundreds of fascinating women who don't fit history books limited perception of what was historically accurate for early 19th century England. Women like Dido Elizabeth Belle, whose mother was a slave but was raised by her white father's family in England, Caroline Herschel, who acted as her brother's assistant as he hunted the heavens for comets, and ended up discovering eight on her own, Anne Lister, who lived on her own terms with her common-law wife at Shibden Hall, and Judith Montefiore, a Jewish woman who wrote the first English language Kosher cookbook. As one of the owners of the successful romance-only bookstore The Ripped Bodice, Bea Koch has had a front row seat to controversies surrounding what is accepted as "historically accurate" for the wildly popular Regency period. Following in the popular footsteps of books like Ann Shen's *Bad Girls Throughout History*, Koch takes the Regency, one of the most loved and idealized historical time periods and a huge inspiration for American pop culture, and reveals the independent-minded, standard-breaking real historical women who lived life on their terms. She also examines broader questions of culture in chapters that focus on the LGBTQ and Jewish communities, the lives of women of color in the Regency, and women who broke barriers in fields like astronomy and paleontology. In *Mad and Bad*, we look beyond popular perception of the Regency into the even more vibrant, diverse, and fascinating historical truth.

A fascinating biography of Drukpa Kunley, a Tibetan Buddhist master and crazy yogi. The fifteenth-century Himalayan saint Drukpa Kunley is a beloved figure throughout Tibet, Bhutan, and Nepal, known both for his profound mastery of Buddhist practice as well as his highly unconventional and often humorous behavior. Ever the proverbial trickster and “crazy wisdom” yogi, his outward appearance and conduct of carousing, philandering, and breaking social norms is understood to be a means to rouse ordinary people out of habitual ways of thinking and lead them toward spiritual awakening. Elizabeth L. Monson has spent decades traveling throughout the Himalayas, retracing Drukpa Kunley’s steps and translating his works. In this creative telling, direct translations of his teachings are woven into a life story based on historical accounts, autobiographical sketches, folktales, and first-hand ethnographic research. The result, with flourishes of magical encounters and references to his superhuman capacities, is a poignant narrative of Kunley’s life, revealing to the reader the quintessential example of the capacity of Buddhism to skillfully bring people to liberation.

Discover New York Times bestseller Samira Ahmed's romantic, sweeping adventure through the streets of Paris told in alternating narratives that bridge centuries, continents, and the lives of two young Muslim women fighting to write their own stories. Smash the patriarchy. Eat all the pastries. It's August in Paris and 17-year-old Khayyam Maquet—American, French, Indian, Muslim—is at a crossroads. This holiday with her parents should be a dream trip for the budding art historian. But her maybe-ex-boyfriend is ghosting her, she might have just blown her chance at getting into her dream college, and now all she really wants is to be back home in Chicago figuring out her messy life instead of brooding in the City of Light. Two hundred years before Khayyam's summer of discontent, Leila is struggling to survive and keep her true love hidden from the Pasha who has "gifted" her with favored status in his harem. In the present day—and with the company of Alex, a très charmant teen descendant of Alexandre Dumas—Khayyam searches for a rumored lost painting, uncovering a connection between Leila and Alexandre Dumas, Eugène Delacroix, and Lord Byron that may have been erased from history. Echoing across centuries, Leila and Khayyam's lives intertwine, and as one woman's long-forgotten life is uncovered, another's is transformed.
