Unschooling means so much more than a hands-on, child-directed, and experience-based way of learning. It doesn't describe a specific alternative to schooling. It just gets schooling out of the way so various unique dynamic personal creative ways of growing up, living, participating, and contributing to communities can develop. When I say "unschooling," I really mean living cooperatively with children. What began as a way to approach my children's learning/education has evolved into a whole lifestyle characterized by unlimited creative possibilities for our whole family. In other words, we perceive our life as a creative adventure. We're all in it together. In "The Unschooling Happiness Project," I present my family life as a creative project, share my deeper motivations behind choosing the unschooling lifestyle, and include some practicalities of daily unschooling life.

Irv and Mary Reiss (aka Dad and Mom) wrote this book as two letters per day for fifteen months from late 1943 through March 1945. Friends and relatives added more letters to bring the total to nearly 1,000. Virtually all of their letters ended with "I love you very very much" and "I miss you very very much." It's easy to empathize with their frustrations and anxieties about being separated and worried, especially with the birth and nurturing of their first child Stephen (aka me) in June 1944. This book title of From

Burma With Love is an understatement. Irv Reiss served in the US Army from June 27, 1941 until September 17, 1945 for a total of 4 years, 2 months, and 20 days. Foreign service in India and Burma (Myanmar) was 1 year, 1 month, and 23 days. The foreign service in Burma was very intense and is the heart of this book -- hence the name, From Burma With Love. Irv was a labor officer along the Ledo Road from August 28, 1944 until December 11, 1944. His job was to hire and feed and pay several thousand native laborers (and a few elephants) to help build that road from Ledo, India to Mongyu, Burma. Read his letter of October 7, 1944.

Most Americans assume that shared genes or blood relationships provide the strongest basis for family. What can adoption tell us about this widespread belief and

American kinship in general? *Blue-Ribbon Babies and Labors of Love* examines the ways class, gender, and race shape public and private adoption in the United States. Christine Ward Gailey analyzes the controversies surrounding international, public, and transracial adoption, and how the political and economic dynamics that shape adoption policies and practices affect the lives of people in the adoption nexus: adopters, adoptees, birth parents, and agents within and across borders. Interviews with white and African-American adopters, adoption social workers, and adoption lawyers, combined with her long-term participant-observation in adoptive communities, inform her analysis of how adopters' beliefs parallel or diverge from the dominant assumptions about kinship and family. Gailey demonstrates that the ways adoptive parents speak about their children vary across hierarchies of race, class, and gender. She shows that adopters' notions about their children's backgrounds and early experiences, as well as their own "family values," influence child rearing practices. Her extensive interviews with 131 adopters reveal profoundly different practices of kinship in the United States today. Moving beyond the ideology of "blood is thicker than water," Gailey presents a new way of viewing kinship and family formation, suitable to times of rapid social and cultural change.

***How Babies Are Made***

From the renowned author of *Possession*, *The Children's Book* is the absorbing story of the close of what has been called the Edwardian summer: the deceptively languid and blissful period that ended with the cataclysmic destruction of World War I. In this compelling novel, A.S. Byatt summons up a whole era, revealing that beneath its golden surface lay tensions that would explode into war, revolution and unbelievable change — for the generation that came of age before 1914 and, most of all, for its children. The novel centres around Olive Wellwood, a fairy tale writer, and her circle, which includes the brilliant, erratic craftsman Benedict Fludd and his apprentice Phillip Warren, a runaway from the poverty of the Potteries; Prosper Cain, the socialist who directs what will become the Victoria and Albert Museum; Olive's brother-in-law Basil Wellwood, an officer of the Bank of England; and many others from every layer of society. A.S. Byatt traces their lives in intimate detail and moves between generations, following the children who must choose whether to follow the role expected of them or stand up to their parents' "porcelain socialism." Olive's daughter Dorothy wishes to become a doctor, while her other daughter, Hedda, wants to

votes for women. Her son Tom, sent to an upper-class school, wants nothing more than to spend time in the woods, tracking birds and foxes. Her nephew Charles becomes embroiled with German-influenced revolutionaries. Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas, interlacing until *The Children's Book* becomes a perfect depiction of an entire world. Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame's *The Wind In the Willows*, not long after Alice's Adventures in Wonderland. At a time when children in England suffered deprivation by the mill, the concept of childhood was being refined and elaborated in ways that still influence us today. For each of her children, Olive writes a special, private book, bound in a different colour and placed on a shelf; when these same children are ferried off to the unremitting destruction of the Great War, the reader is left to wonder who the children in this novel are. *The Children's Book* is an astonishing novel. It is an historical feat that brings to life an era that helped shape our own as well as a personal novel about parents and children, life's most painful struggles and its richest pleasures. No other writer could have imagined it or created it. Parents will love cuddling up with their little ones and reading this interactive book, featuring plush cat ears that make every page even more fun. This book is a "purrfect" way to celebrate Halloween, and has a loving message that lasts the
