One of the world's leading scholars of Jewish thought examines the long tradition of Jewish messianism and mystical experience.

Between the year 1000 and the mid-14th century, several remarkable events unfolded as Europeans made contact with a very substantial part of the inhabited world, much of it never previously known or suspected to exist by them. Leif Ericsson and other

Vikings discovered North America; European crusading armies established themselves in Syria and Palestine; Marco Polo and other Italian merchants, and missionaries such as John of Monte Corvino, penetrated the dominions of Mongolia and China; the Vivaldi brothers sought to open a sea route to India; Jaime Ferrer was lured by dreams of locating the source of West African gold; and the Atlantic island groups, the Canaries, Madeira, and the Azores, were all discovered. In this

detailed survey, Phillips describes these exciting quests while also exploring their closely related myths and legends, all the while setting the stage for the even greater exploits of Christopher Columbus, Vasco da Gama, and their successors. For this new Clarendon Paperback edition, Phillips has added both an introduction and a bibliographical essay, the latter of which surveys recent work in what is becoming a thriving area of new research.

Now the subject of the hit documentary *Scotty and the Secret History of Hollywood*, praised by *Vanity Fair* as “full of revelations” and *Entertainment Weekly* as “deliciously salacious,” *Full Service* is the remarkable true story of Scotty Bowers, the “gentleman hustler,” during the heyday of classic Hollywood. Newly discharged from the Marines after World War II, Bowers arrived in Hollywood in 1946. Young, charismatic, and strikingly handsome, he quickly caught the eye of

many of the town's stars and starlets. He began sleeping with some himself, and connecting others with his coterie of young, attractive, and sexually free-spirited friends. His own lovers included Edith Piaf, Spencer Tracy, Vivien Leigh, Cary Grant, and the abdicated King of England Edward VIII, and he arranged tricks or otherwise crossed paths with Tennessee Williams, Charles Laughton, Vincent Price, Katharine Hepburn, Rita Hayworth, Errol Flynn, Gloria Swanson, Noël Coward, Mae West, James Dean, Rock Hudson and J. Edgar Hoover, to name but a few. Full Service is not only a fascinating chronicle of Hollywood's sexual underground, but also exposes the hypocrisy of the major studios, who used actors to propagate a myth of a conformist, sexually innocent America knowing full well that their stars' personal lives differed dramatically from this family-

friendly mold. As revelation-filled as Hollywood Babylon, Full Service provides a lost chapter in the history of the sexual revolution and is a testament to a man who provided sex, support, and affection to countless people.

Throughout her career as a medieval historian, Eileen Power was engaged on a book on women in the Middle Ages. She did not live to write the book but some of the material she collected found its way into her popular lectures on medieval women. These lectures were brought together and edited by M. M. Postan. They reveal the world in which women lived, were educated, worked, and worshipped. Power gives a vivid account of the worlds of the lady, the peasant, the townswoman, and the nun. The result is a historical yet intimate picture of a period gone by yet with resonances for today. An intimate portrait of the writer and social historian,

The introduction of the continuing bonds model of grief near the end of the 20th century revolutionized the way researchers and practitioners understand bereavement. *Continuing Bonds in Bereavement* is the most comprehensive, state-of-the-art collection of developments in this field since the inception of the model. As a multi-perspectival, nuanced, and

forward-looking anthology, it combines innovations in clinical practice with theoretical and empirical advancements. The text traces grief in different cultural settings, asking questions about the truth in our interactions with the dead and showing how new cultural developments like social media change the ways we relate to those who have died.

Together, the book 's four sections encourage practitioners and scholars in both bereavement studies and in other fields to broaden their understanding of the concept of continuing bonds.

This central text of Jewish mysticism was written in thirteenth-century Spain, where Kabbalah flourished. Considered to be the most articulate work on the mystical Kabbalah, Gates of Light provides a systematic and

comprehensive explanation of the Names of God and their mystical applications. The Kabbalah presents a unique strategy for intimacy with the Creator and new insights into the Hebrew Scriptures. In the Kabbalah, aspects of God emanate from a hierarchy of Ten Spheres interconnected by channels that may be disrupted or repaired through human activity.

Berthe Turiansky always seemed artistically gifted. A young violinist caught in the upheavals of 1917, she

fled Russia with her new husband, Alexander Bisk, a poet from a wealthy Belgian family. For years the couple and their young son - the narrator of this book - are buffeted from country to country. As Berthe's absorption in the arts gradually shifts to her only child, she becomes the object of his rage and contempt, his love and attraction, and not even the physical remove afforded by the young man's departure for war, not even his marriage and success as a writer, can relieve the tension between them. A gripping story of geographical and psychological displacement emerges as mother and son are tantalized and tormented - in each other's company, in letters, and

in their dreams. In this unforgettable novel the dissonance between Berthe and her son gradually intensifies to reveal a relationship so disturbing and complex, so brutally and delicately delineated, as to seem wholly familiar and enigmatic at the same time. At the core of *A Russian Mother* lies the profound ambivalence of two people who are chillingly remote yet obsessively attached. This painful symbiosis between a mother and son takes shape in fragments, as the narrative jumps back and forth in time until the late 1970s. The narrator provides the psychological threads that unify the haphazard chronology, the chaotic uprootings, and the

conflicting emotions as he tries to come to terms with his mother - as blood relative and fictional character.

Alberto Savinio is the pseudonym of Andrea de Chirico, brother of the surrealist painter Giorgio de Chirico, and this work, written in 1945, exemplifies the word surrealist. With the perspective of a child, Savinio recalls incidents that are on the border between reality and fantasy. Moments of illness, of trying to elicit satisfying answers from grownups, the joy of caring for an injured bird matched by the frustration of having it fly away, the desolation of being ignored by grownup friends, and the absurdities he saw at the theater--all

are lyrically portrayed but juxtaposed against elements of the grotesque.

practices are well-documented: millions remain far from optimal health due to a variety of psychological and social factors; large numbers of patients do not fully cooperate with medical advice; errors in medical decision-making -- some stemming from flaws in interpersonal relations -- regularly lead to needless suffering and death.

Further, the effects of emotions, personality, and motivation on healing are not well incorporated into traditional medical care. The Oxford Handbook of

Health Psychology compiles the most relevant scholarship from psychology, medicine, and public health to offer a thorough and authoritative model of the biopsychosocial approach to health. A collection of international contributors addresses all relevant concepts in this model, including its applications to health promotion, health behavior change, and treatment.

A winter snowfall can be

beautiful. But if conditions call for dense snow, freezing temperatures, and bone-chilling wind, you are in for a dangerous blizzard. These blinding, swirling storms can shut down roads and damage buildings. Violent winds can thrash vehicles driving on icy roads. Snowdrifts can pile up to block streets or even cover houses. Blizzards can knock out power and threaten the lives of people stranded inside for days—or worse, those caught outside in the storm. With dramatic images and first-hand survivor stories—plus the latest facts and figures—this book shows you blizzard

disasters up close.

During the Renaissance, different conceptions of knowledge were debated. Dominant among these was encyclopaedism, which treated knowledge as an ordered and unified circle of learning in which branches were logically related to each other. By contrast, writers like Montaigne saw human knowledge as an inherently unsystematic and subjective flux. This study explores the tension between these two views, examining the theories of knowledge, uses of genre, and the role of fiction in philosophical texts. Drawing

on examples from sixteenth and seventeenth-century texts, and particularly focusing on the polymath Béroalde de Verville, Kenny provides an in-depth study of the two competing conceptions of knowledge.
