Voices from the Ancestors brings together the reflective writings and spiritual practices of Xicanx, Latinx, and Afro-Latinx womxn and male allies in the United States who seek to heal from the historical traumas of colonization by returning to ancestral traditions and knowledge. This wisdom is based on the authors' oral traditions, research, intuitions, and lived experiences—wisdom inspired by, and created from, personal trajectories on the path to spiritual concimiento, or inner spiritual inquiry. This concimiento has reemerged over the last fifty years as efforts to decolonize lives, minds, spirits, and bodies have advanced. Yet this knowledge goes back many generations to the time when the ancestors understood their interconnectedness with each other, with nature, and with the sacred cosmic forces—a time when the human body was a microcosm of the universe. Reclaiming and reconstructing spirituality based on non-Western epistemologies is central to the process of decolonization, particularly in these fraught times. The wisdom offered here appears in a variety of forms—in reflective essays, poetry, prayers, specific guidelines for healing practices, communal rituals, and visual art, all meant to address liffe transitions and how to live holistically and with a spiritual consciousness for the challenges of the twenty-first century.

Honoring relatives by tending graves, building altars, and cooking festive meals has been a major tradition among Latin Americans for centuries. The tribute, "El Día de los Muertos," has enjoyed renewed popularity since the 1970s when Latinx activists and artists in the United States began expanding "Day of the Dead" north of the border with celebrations of performance art, Aztec danza, art exhibits, and other public expressions. Focusing on the power of public ritual to serve as a communication medium, this revised and updated edition combines a mix of ethnography, historical research, oral history, and critical cultural analysis to explore the manifold and unexpected transformations that occur when the tradition is embraced by the mainstream. A testament to the complex role of media and commercial forces in constructions of ethnic identity, Day of the Dead in the USA provides insight into the power of art and ritual to create community, transmit oppositional messages, and advance educational, political, and economic goals. Today Chicano-style Day of the Dead events take place in all fifty states. This revised edition provides new information about: The increase in events across the US, incorporating media coverage and financial aspects, Recent political movements expressed in contemporary Day of the Dead celebrations, including #BlackLivesMatter and #MeToo Greater media coverage and online presence of the celebration in blogs, websites, and streaming video Día de los Muertos themes and iconography in video games and films The proliferation of commercialized merchandise such as home goods, apparel, face paints and jewelry at mainstream big box and web retailers, as well as the widespread proliferation of calavera-themed decorations and costumes for Halloween 24 new full color illustrations

Mexico 1980-1950 offers an unprecedented survey of Mexican art from the turn of the century through the Revolution (1910-20) and until the early 1950s. It examines key works across different mediums by major Mexican artists, including Diego Rivera, Frida Kahlo, and José Clemente Orozco, as well as by lesser-known figures and women artists. The catalogue showcases Mexican modern art as its own distinct avant-garde, fundamentally different from that of Europe. Although many Mexican artists lived and practiced in Paris during the early decades of the 20th century, they eventually returned home and drew extensively from themes surrounding nationhood and Mexico's rich, mythical past, poignantly articulating their country's revolutionary ideals, traditions, and aspirations. Over 250 illustrations foreground this wholly original and sweeping study of Mexico as a hotbed for modernism and artistic achievement.
