

Making America Berkin 5th Edition

The fifth edition of International Relations covers the subject from the historical perspective—from the eve of the First World War to the end of the Cold War and beyond. This book is divided into two sections—the first deals with the theoretical perspectives, while the second provides an historical overview of events. These include the two World Wars, problems faced in peace-making, system of alliances, search for security, Nazism and Fascism, rise of communism, the arms race and disarmament, the Cold War and its end, Non-Aligned Movement, and the emergence of regional organizations. The book is a useful resource for teachers and students of history and political science, those appearing for civil services examinations, as well as those interested in international relations. **KEY FEATURES** • Thoroughly revised and updated to cover the latest developments • Enlarged to cover theoretical aspects—realism, neo-realism, liberalism and neo-liberalism, dependency, and feminist approaches • Covers recent historical developments such as the Gulf War and the new international economic order

For more than one hundred years, people have come to the Ludlow Massacre Memorial site to remember the dead, to place themselves within a larger narrative of labor history, and to learn about what occurred there. Communities of Ludlow reveals the perseverance, memory, and work that has been done to enrich and share the narratives of the people of Ludlow and the experiences of those who commemorate it. The history of the Ludlow Massacre encompasses the stories of immigrant groups, women, the working-class, and people of color as much as the story of that tragedy, and the continued relevance of these issues creates a need for remembrance and discussion of how to make the events of the Ludlow Massacre available to contemporary society. The book outlines recent efforts to remember and commemorate this important historical event, documenting the unique collaborations in public scholarship and outreach among the diverse group of people involved in marking the 100-year anniversary of the Ludlow Massacre. The chapters relate the tales of the stewards of the Ludlow Massacre—the various communities that rallied together to keep this history alive and show its relevance, including lineal descendants, members of the United Mine Workers of America, historians, archaeologists, scholars, artists, interpreters, authors, playwrights, and politicians. The book also offers tips, strategies, and cautionary tales for practicing engaged public scholarship. The history of the Ludlow Massacre has been told as a tragedy of striking miners in the West that occurred during a turbulent time in US labor relations, but it is so much more than that. Communities of Ludlow explores the intersections of public scholarship, advocacy, and personal experience, weaving these perspectives together with models for practicing public scholarship to illustrate the power of creating spaces for sharing ideas and information in an environment that encourages creativity, open dialogue, public outreach, political action, and alternative narratives. Stories That Hide Our Patriotic Past

First published ten years ago, award-winning historian Ray Raphael's Founding Myths has since established itself as a landmark of historical myth-busting. With Raphael's trademark wit and flair, Founding Myths exposed the errors and inventions in America's most cherished tales, from Paul Revere's famous ride to Patrick Henry's "Liberty or Death" speech. For the thousands who have been captivated by Raphael's eye-opening accounts, history has never been the same. In this revised tenth-anniversary edition, Raphael is peeling back new layers of misinformation. This new edition also examines the highly politicized debates over America's past, as well as how our approach to history in school reinforces rather than corrects historical mistakes. A book that "explores the truth behind the stories of the making of our nation" (National Public Radio), this revised edition of Founding Myths will be a welcome resource for anyone seeking to separate historical fact from fiction.

Revised and updated, this 15th anniversary edition of the #1 New York Times bestseller salutes America ' s true and proud history. Fifteen years ago, Professors Larry Schweikart and Michael Allen set out to correct the doctrinaire biases that had distorted the way America ' s past is taught – and they succeeded. A Patriot ' s History of the United States is the definitive objective history of our country, presented honestly and fairly. Schweikart and Allen don ' t ignore America ' s mistakes through the years. Instead, they put them back in the proper perspective, celebrating the strengths of the men and women who cleared the wilderness, abolished slavery, and rid the world of fascism and communism. Now in this revised fifteenth-anniversary edition, a new generation of readers will learn the truth about America ' s discovery, founding, and advancement, from Columbus ' s voyage to Trump ' s promise to " Make America Great Again."

MAKING AMERICA: A HISTORY OF THE UNITED STATES, BRIEF SIXTH EDITION, presents history as a dynamic process shaped by human expectations, difficult choices, and often the surprising consequences. With this focus on history as a process, MAKING AMERICA encourages readers to think historically and to develop into citizens who value the past. The clear chronology, straightforward narrative, and strong thematic structure emphasize communication over intimidation and appeal to readers of varied learning levels. The Brief Sixth Edition retains a hallmark feature of the MAKING AMERICA program: pedagogical tools that allow readers to master complex material and enable them to develop analytical skills. From patriotic "God Bless America" to wistful "White Christmas," Irving Berlin's songs have long accompanied Americans as they fall in love, go to war, and come home for the holidays. Irving Berlin's American Musical Theater is the first book to fully consider this songwriter's immeasurable influence on the American stage. Award-winning music historian Jeffrey Magee chronicles Berlin's legendary theatrical career, providing a rich background to some of the great composer's most enduring songs, from "There's No Business Like Show Business" to "Puttin' on the Ritz." Magee shows how Berlin's early experience singing for pennies made an impression on the young man, who kept hold of that sensibility throughout his career and transformed it into one of the defining attributes of Broadway shows. Magee also looks at darker aspects of Berlin's life, examining the anti-Semitism that Berlin faced and his struggle with depression. Informative, provocative, and full of colorful details, this book will delight song and theater aficionados alike as well as anyone interested in the story of a man whose life and work expressed so well the American dream.

The American Revolution was a home-front war that brought scarcity, bloodshed, and danger into the life of every American. In this groundbreaking history, Carol Berkin shows us how women played a vital role throughout the conflict. The women of the Revolution were most active at home, organizing boycotts of British goods, raising funds for the fledgling nation, and managing the family business while struggling to maintain a modicum of normalcy as husbands, brothers and fathers died. Yet Berkin also reveals that it was not just the men who fought on the front lines, as in the story of Margaret Corbin, who was crippled for life when she took her husband ' s place beside a cannon at Fort Mifflinouth.

This incisive and comprehensive history illuminates a fascinating and unknown side of the struggle for American independence.

Focusing on the draft resistance movement in Boston in 1967-68, this study argues that these acts of mass civil disobedience turned the tide in the antiwar movement by drawing the Johnson administration into a confrontation with activists who were largely young, middle-class, liberal, and from suburban backgrounds--the core of Johnson's constituency.

Now in its fifth edition, this definitive history of the Russian land and people builds on its success as a fascinating survey of two thousand years of struggle to harness vast resources and talents into a powerful and cohesive nation. From its beginning as a savage and exotic land, Russia underwent a complex evolution of political, social, and religious forces--the barbarism of its internal conflicts in seeming contradiction with its goals to advance in the realms of technology, art, education, and high culture. From the conflicts of the fantastically wealthy ruling class to the poor and oppressed masses emerged the Communist party and the enigmatic figures whose charismatic manipulation of political power reflected the myriad rulers before them. Finally, as the modern world watched, this great entity collapsed in a devastatingly brief time, millennia of precarious conflict proving too much for the tenuous coalescence of twentieth-century politics. Written in an engaging and accessible style, this text presents students with a comprehensive look at the momentous events and legendary figures which helped shape Russia's turbulent history.
