A Study Guide and a Teacher's Manual Gospel Principles was written both as a personal study guide and as a teacher's manual. As you study it, seeking the Spirit of the Lord, you can grow in your understanding and testimony of God the Father, Jesus Christ and His Atonement, and the Restoration of the gospel. You can find answers to life's questions, gain an assurance of your purpose and self-worth, and face personal and family challenges with faith.

Some people aren't sure what their sexual orientation is: gay, straight, or bisexual. Various people may tell you what they think your sexual orientation is. But who really decides whether you are gay, straight, or bisexual? More importantly, who decides what you will do? Who decides whether you will date a male or female? Who decides whether you will marry a man or woman? Do these people decide? Or do you decide? When he was a teenager in the late 1960s, David A. Robinson found himself sexually excited looking at muscular, athletic boys. Some people told him he's gay. He had to choose: date girls or boys. He chose girls. His sexual orientation somewhat limited his choice of females, but not to zero. He eventually married a woman and is very happy with her. He tells us how he got there. It wasn't always easy, but it was his choice. Religion had nothing to do with it. Some people say you have no choice about your sexual orientation. But if you want a date, you have to choose: male or female. This is the lively, riveting, true memoir of a man who had to choose: Be who I want to be (straight), or be who some people tell me I am (gay).

The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. INSTANT NEW YORK TIMES BESTSELLER An urgent primer on race and racism, from the host of the viral hit video series "Uncomfortable Conversations with a Black Man" "You cannot fix a problem you do not know you have." So begins Emmanuel Acho in his essential guide to the truths Americans need to know to address the systemic racism that has recently electrified protests in all fifty states. "There is a fix," Acho says. "But in order to access it, we're going to have to have some uncomfortable conversations." In Uncomfortable Conversations With a Black Man, Acho takes on all the questions, large and small, insensitive and taboo, many white Americans are afraid to ask—yet which all Americans need the answers to, now more than ever. With the same open-hearted generosity that has made his video series a phenomenon, Acho explains the vital core of such fraught concepts as white privilege, cultural appropriation, and "reverse racism." In his own words, he provides a space of compassion and understanding in a discussion that can lack both. He asks only for the reader's curiosity—but along the way, he will galvanize all of us to join the antiracist fight.

Stagnate as a 'creepy caterpillar' or transform into a 'beauteous butterfly'-this path-breaking book of a rare genre suggests-is the seminal choice before mankind, and every one of us. In this setting, the book raises some fundamental questions: What is man's rightful place in the cosmos and his manifest destiny on earth? Why are we so self-righteously self-destructive? Are we a doomed species? Or 'divine' beings struggling to overcome the hubris of the human intellect? Is God getting weary of mankind? How should we synergize human effort and Divine Grace? The book posits that any betterment in human behavior needs a cathartic change at the deepest levels. That requires diluting the dominance of the mind and reawakening the long-dormant intelligence of the human heart. To meet that challenge, we need minimum numbers, a 'critical mass' to create self-sustained momentum for transformation through consciousness change. And every single human of this generation should behave in such a way that he or she is that single person whose transformation could make the decisive species-scale difference. The book offers a menu of ideas and an agenda of action. This book could be itself become an input to mobilize that very 'critical mass' it advocates for human transformation. Well-planned and cohesively written, the book is noteworthy for its delightful blend of information and arguments, and reveals the depth of the author's understanding of the human predicament... This is a closely argued and thought-provoking book... The Hindu, 13 Sept 2011 [This book] is a gripping exposition on human nature and self-transformation without preference to religion... Challa has critically provided a foundational argument for a deeper discussion of philosophical and practical ideals concerning self-transformation... harmonizing the head and the heart is the way for humans to function as spiritual beings. Recommended by the USSR. The US Review of Books [The author] reflects upon the crisis of contemporary civilizations and outlines a blueprint for a new world order based on progressive spiritual values and change of human consciousness. The strength of this treatise is the sweep of Challa's

reach and his treatment of a vastly complex set of issues that bedevil humankind today... India International Center Quarterly, Summer 2012 As a thinker and erudite scholar, [the author] has made a profound study of the world situation and the moral decadence of man... [This book] deserves to be on the shelves of university, college and public libraries... Triveni Magazine, July–Sept 2011 It is difficult to pigeon-hole this book as... a 'prophetic discourse', a 'journey into the human mind', a 'guide for human survival', a 'spiritual treatise'. It is an amalgam of all these and more... the volume reaches out to those who are already uneasy about the way we on this earth are progressing. The Book Review, India, June 2013

It's Time came into existence before the year 2000, when a study of Genesis unveiled a truth that sin and losing a first love (God) caused man's spiritual blindness. The Holy Spirit revealed that man's choice cost him his priestly position and caused generations to spiritually lose sight and direction. This blindness would cause a separation from God—a penalty altering man's devotion and his perfect garden dwelling. Yet, despite man's error, the door remains open to regain his position, if he chooses to love and follow God! I love reading Scripture, but by no means am I an expert. However, through seeking God and writing this book, my confidence came through Scriptures that expressed the Holy Spirit would be my teacher and would lead me unto all truth—and it happened! He showed me where man lost his first love, a relationship with God—but his return isn't impossible. It's a choice to search for the divine, through a LOC-Love, Obedience, and Communion. During my financial career, my expertise and training were the focus of searching detail. But, no education, knowledge, or training could have ever unleashed the details disclosed in these Scriptures without the aid of the Holy Spirit guiding me to truth surrounding God and man. Man's position was to be an extension of God, a type of priesthood in his family and throughout the world. Everything assigned to man is aligned in the heavens and the earth, when he submits and is guided by our heavenly Father. It's only through man's love of God that directs him to purpose and destiny.

A Man Reflects on His Sexuality and the Choices He Made

It is a story of America. This modern-day odyssey is a tribute to family, friends, mentors, guides, and to brother fire-fighters here and throughout the international community. It takes us to the island of Culebra in the aftermath of Hurricane Hugo, to Oklahoma City, and to the World Trade Center on the morning of September 11th, 2001.

The twenty-four-hour news cycle brings the issues facing America to the forefront every single day. Author Blair Stevens sees parallels between many of these issues and his own life experiences. He offers his unique take on them in *I Made My Choice—Have You?* A husband, father, and businessman, Stevens discusses several of the most pressing concerns facing Americans today. He explains how working in Mexico City as part of his job shapes his observations on illegal immigration and reveals some possible solutions that America can take to stem the tide. When Stevens' unwed daughter became pregnant, another hot-button issue—abortion—landed right on Stevens' front doorstep. With warmth and honesty, he shares how the family navigated his daughter's decision to keep the baby and opens up about his views on the right to life. In addition, Stevens discusses other important topics including drug abuse, teen suicide, education, and racism, all within the prism of his experiences. Down-to-earth and engaging, *I Made My Choice—Have You?* seeks to help you look at today's current events in a different light.

The Biblical View of Man argues cogently that the Bible is more about human beings than about God and insists that, in the biblical view, what human beings need is not so

much wisdom or grace but rather their own free will to fulfill the obligations that a loving God has bestowed upon them in order to allow them to prove and improve themselves. According to Rabbi Leo Adler, the exercise of such free will, rather than implying a lack of need for God, actually requires a firm commitment to God. First published in German in 1965, this engaging interpretation of the Bible appears in English for the first time.

Man's Fate and God's Choice

In his critically acclaimed bestseller Shadow Divers, Robert Kurson explored the depths of history, friendship, and compulsion. Now Kurson returns with another thrilling adventure—the stunning true story of one man's heroic odyssey from blindness into sight. Mike May spent his life crashing through. Blinded at age three, he defied expectations by breaking world records in downhill speed skiing, joining the CIA, and becoming a successful inventor, entrepreneur, and family man. He had never yearned for vision. Then, in 1999, a chance encounter brought startling news: a revolutionary stem cell transplant surgery could restore May's vision. It would allow him to drive, to read, to see his children's faces. He began to contemplate an astonishing new world: Would music still sound the same? Would sex be different? Would he recognize himself in the mirror? Would his marriage survive? Would he still be Mike May? The procedure was filled with risks, some of them deadly, others beyond May's wildest dreams. Even if the surgery worked, history was against him. Fewer than twenty cases were known worldwide in which a person gained vision after a lifetime of blindness. Each of those people suffered desperate consequences we can scarcely imagine. There were countless reasons for May to pass on vision. He could think of only a single reason to go forward. Whatever his decision, he knew it would change his life. Beautifully written and thrillingly told, Crashing Through is a journey of suspense, daring, romance, and insight into the mysteries of vision and the brain. Robert Kurson gives us a fascinating account of one man's choice to explore what it means to see—and to truly live.

Viktor Frankl, bestselling author of Man's Search for Meaning, explains the psychological tools that enabled him to survive the Holocaust. Viktor Frankl is known to millions as the author of Man's Search for Meaning, his harrowing Holocaust memoir. In this book, he goes more deeply into the ways of thinking that enabled him to survive imprisonment in a concentration camp and to find meaning in life in spite of all the odds. He expands upon his groundbreaking ideas and searches for answers about life, death, faith and suffering. Believing that there is much more to our existence than meets the eye, he says: 'No one will be able to make us believe that man is a sublimated animal once we can show that within him there is a repressed angel.' In Man's Search for Ultimate Meaning, Frankl explores our sometimes unconscious desire for inspiration or

revelation. He explains how we can create meaning for ourselves and, ultimately, he reveals how life has more to offer us than we could ever imagine.

A masterpiece of Biblical scope, and the magnum opus of one of America's most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called East of Eden "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California's Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck's later years, East of Eden is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah's Book Club back, East of Eden has remained vitally present in American culture for over half a century.
