Powerful and embracing, *The Transformation of Black Music* explores the full spectrum of black musics over the past thousand years as Africans and their descendants have traveled around the globe making celebrated music both in their homelands and throughout the Diaspora. Authors Samuel A. Floyd, Melanie Zeck, and Guthrie Ramsey brilliantly discuss

how the music has blossomed, permeated present traditions, and created new practices. As a companion to the groundbreaking *The Power of Black Music*, this text brilliantly situates emerging, morphing, and influential black musics in a broader framework of cultural, political, and social histories. Grappling with subjects frequently omitted from traditional musical texts, *The Transformation of Black Music* is guided by more than just the ideals of inclusivity and representation. This work covers overlooked topics that include classical musicians of African descent, and builds upon the

contributions of esteemed predecessors in the field of black music study. Providing a sweeping list of figures rarely included in conventional music history and theory textbooks, the text elucidates the findings of ethnomusicologists, cultural historians, Americanists, Africanists, and anthropologists, and weaves these accounts into a powerful and informative narrative. Taking its readers on a journey - one that has never been attempted in a single volume alone - this book reflects the musical phenomena generated by forced African migration and collective memory, and

considers the kinds of powerful stories that these musics were meant to tell. Filling in critical musical and historical gaps previously ignored, authors Floyd, Zeck, and Ramsey infuse an engaging musical dialogue with a deeper understanding of the interrelationships between black musical genres and mainstream music. The Transformation of Black Music will solidify not only the inestimable value of black musics, but also the importance and relevance of black music research to all musical endeavors.

Perhaps the most iconic steam locomotive in the world, the legendary Flying Scotsman was the first train to achieve 100mph and in its glory days ran the only non-stop passenger service between London and Edinburgh. When it was withdrawn from regular service in 1963, after nearly 40 years in service, the locomotive had travelled an estimated two million miles. In January 2016, after a complete and expert restoration project lasting a decade, Flying Scotsman returned to the UK's mainline as one of the jewels in the National Railway Museum's collection.
