In the first meeting of the Relief Society, Sister Emma Smith said, "We are going to do something extraordinary." She was right. The history of Relief Society is filled with examples of ordinary women who have accomplished extraordinary things as they have exercised faith in Heavenly Father and Jesus Christ. Relief Society was established to help prepare daughters of God for the blessings of eternal life. The purposes of Relief Society are to increase faith and personal righteousness, strengthen families and homes, and provide relief by seeking out and helping those in need. Women fulfill these purposes as they seek, receive, and act on personal revelation in their callings and in their personal lives. This book is not a chronological history, nor is it an attempt to provide a comprehensive view of all that the Relief Society has accomplished. Instead, it provides a historical view of the grand scope of the work of the Relief Society. Through historical accounts, personal experiences, scriptures, and words of latter-day prophets and Relief Society leaders, this book teaches about the responsibilities and opportunities Latter-day Saint women are given in Heavenly Father's plan of happiness.

A funny, transporting, surprising, and poignant novel that was one of the highest-selling debuts of recent years in Korea, *Love in the Big City* tells the story of a young gay man searching for happiness in the lonely city of Seoul. *Love in the Big City* is the English-language debut of Sang Young Park, one of Korea's most exciting young writers. A runaway bestseller, the novel hit the top five lists of all the major bookstores, went into twenty-six printings, and was praised for its unique literary voice and perspective. It is now poised to capture a worldwide readership. Young is a cynical yet fun-loving Korean student who pinballs from home to class to the beds of recent Tinder matches. He and Jaehee, his female best friend and roommate, frequent nearby bars where they push away their anxieties about their love lives, families, and money with rounds of soju and ice-cold Marlboro Reds that they keep in their freezer. Yet over time, even Jaehee leaves Young to settle down, leaving him alone to care for his ailing mother and to find companionship in his relationships with a series of men, including one whose handsomeness is matched by his coldness, and another who might end up being the great love of his life. A brilliantly written novel that takes us into the glittering nighttime of Seoul and the bleary-eyed morning after with both humor and emotion, *Love in the Big City* is a wry portrait of millennial loneliness as well as the abundant joys of queer life.

This volume of specially commissioned essays explores the world of Anton Chekhov - one of the most important dramatists in the repertoire - and the creation, performance and interpretation of his works. *The Companion*, first published in 2000, begins with an examination of Chekhov's life, his Russia, and the original productions of his plays at

the Moscow Art Theatre. Later film versions and adaptations of Chekhov's works are analysed, with valuable insights also offered on acting Chekhov, by Ian McKellen, and directing Chekhov, by Trevor Nunn and Leonid Heifetz. The volume also provides essays on 'special topics' such as Chekhov as writer, Chekhov and women, and the Chekhov comedies and stories. Key plays, such as *The Cherry Orchard* and *The Seagull*, receive dedicated chapters while lesser-known works and genres are also brought to light. The volume concludes with appendices of primary sources, lists of works, and a select bibliography.

During the oppressive reign of Louis XIV, Gabrielle Suchon (1632–1703) was the most forceful female voice in France, advocating women's freedom and self-determination, access to knowledge, and assertion of authority. This volume collects Suchon's writing from two works—*Treatise on Ethics and Politics* (1693) and *On the Celibate Life Freely Chosen; or, Life without Commitments* (1700)—and demonstrates her to be an original philosophical and moral thinker and writer. Suchon argues that both women and men have inherently similar intellectual, corporeal, and spiritual capacities, which entitle them equally to essentially human prerogatives, and she displays her breadth of knowledge as she harnesses evidence from biblical, classical, patristic, and contemporary secular sources to bolster her claim. Forgotten over the centuries, these writings have been gaining increasing attention from feminist historians, students of philosophy, and scholars of seventeenth-century French literature and culture. This translation, from Domna C. Stanton and Rebecca M. Wilkin, marks the first time these works will appear in English.

(Book Jacket Status: Jacketed) Anton Chekhov, widely hailed as the supreme master of the short story, also wrote

five works long enough to be called short novels—here brought together in one volume for the first time, in a masterly new translation by the award-winning translators Richard Pevear and Larissa Volokhonsky. The Steppe—the most lyrical of the five—is an account of a nine-year-old boy's frightening journey by wagon train across the steppe of southern Russia. The Duel sets two decadent figures—a fanatical rationalist and a man of literary sensibility—on a collision course that ends in a series of surprising reversals. In The Story of an Unknown Man, a political radical spying on an important official by serving as valet to his son gradually discovers that his own terminal illness has changed his long-held priorities in startling ways. Three Years recounts a complex series of ironies in the personal life of a rich but passive Moscow merchant. In My Life, a man renounces wealth and social position for a life of manual labor. The resulting conflict between the moral simplicity of his ideals and the complex realities of human nature culminates in a brief apocalyptic vision that is unique in Chekhov's work.

In 1068 the scholar Salomon ben Isaac returns home to Troyes, France to take over the family winemaking business and embark on a path that will indelibly influence the Jewish world, writing the first Talmud commentary and secretly teaching Talmud to his daughters.

Agafya is a short story by Anton Pavlovich Chekhov detailing a late night encounter between an intelligent but lazy village dropout and the peasant wife of a signalman. Anton Pavlovich Chekhov, (29 January 1860 - 15 July 1904) was a Russian physician, dramaturge and author who is considered to be among the greatest writers of short stories in history. His career as a dramatist produced four classics and his best short stories are held in high esteem by writers and critics. Chekhov practised as a medical doctor throughout most of his literary career: "Medicine is my lawful wife", he once said, "and literature is my mistress." Chekhov renounced the theatre after the disastrous reception of *The Seagull* in 1896, but the play was revived to acclaim in 1898 by Constantin Stanislavski's Moscow Art Theatre, which subsequently also produced Chekhov's *Uncle Vanya* and premiered his last two plays, *Three Sisters* and *The Cherry Orchard*. These four works present a challenge to the acting ensemble as well as to audiences, because in place of conventional action Chekhov offers a "theatre of mood" and a "submerged life in the text." Chekhov had at first written stories only for financial gain, but as his artistic ambition grew, he made formal innovations which have

influenced the evolution of the modern short story. His originality consists in an early use of the stream-of-consciousness technique, later adopted by James Joyce and other modernists, combined with a disavowal of the moral finality of traditional story structure. He made no apologies for the difficulties this posed to readers, insisting that the role of an artist was to ask questions, not to answer them. Always modest, Chekhov could hardly have imagined the extent of his posthumous reputation. The ovations for the play, *The Cherry Orchard*, in the year of his death showed him how high he had risen in the affection of the Russian public—by then he was second in literary celebrity only to Tolstoy, who outlived him by six years—but after his death, Chekhov's fame soon spread further afield. Constance Garnett's translations won him an English-language readership and the admiration of writers such as James Joyce, Virginia Woolf, and Katherine Mansfield. The issues surrounding the close similarities between Mansfield's 1910 story "The Child Who Was Tired" and Chekhov's "Sleepy" are summarised in William H. New's *Reading Mansfield and Metaphors of Reform*. The Russian critic D.S. Mirsky, who lived in England, explained Chekhov's popularity in that country by his "unusually complete rejection of what we may call the heroic values." In Russia itself, Chekhov's drama fell out of fashion after the revolution but was later adapted to the Soviet agenda, with the character Lopakhin, for example, reinvented as a hero of the new order, taking an axe to the cherry orchard. One of the first non-Russians to praise Chekhov's plays was George Bernard Shaw, who subtitled his *Heartbreak House* "A Fantasia in the Russian Manner on English Themes" and noted similarities between the predicament of the British landed class and that of their Russian counterparts as depicted by Chekhov: "the same nice people, the same utter futility." American women attain more professional success than most of their counterparts around the world, but they lag surprisingly far behind in the national political arena. Women held only 15 percent of U.S. congressional seats in 2006, a proportion that ranks America behind eighty-two other countries in terms of females elected to legislative office. A compelling exploration of this deficiency, *The Motherless State* reveals why the United States differs from comparable democracies that routinely elect far more women to their national governing bodies and chief executive positions. Explaining that equal rights alone do not ensure equal access to political office, Eileen McDonagh shows that electoral gender parity also requires public policies that represent maternal traits. Most other democracies, she demonstrates, view women as more suited to govern because their governments have taken on maternal roles through social welfare provisions, gender quotas, or the continuance of symbolic hereditary monarchies. The United States has not adopted such policies, and until it does, McDonagh insightfully warns, American women run for office with a troubling disadvantage.

Anton Chekhov is revered as a boldly innovative playwright and short story writer—but he wrote more than just plays and stories. In *Alive in the*

Writing—an intriguing hybrid of writing guide, biography, and literary analysis—anthropologist and novelist Kirin Narayan introduces readers to some other sides of Chekhov: his pithy, witty observations on the writing process, his life as a writer through accounts by his friends, family, and lovers, and his venture into nonfiction through his book *Sakhalin Island*. By closely attending to the people who lived under the appalling conditions of the Russian penal colony on Sakhalin, Chekhov showed how empirical details combined with a literary flair can bring readers face to face with distant, different lives, enlarging a sense of human responsibility. Highlighting this balance of the empirical and the literary, Narayan calls on Chekhov to bring new energy to the writing of ethnography and creative nonfiction alike. Weaving together selections from writing by and about him with examples from other talented ethnographers and memoirists, she offers practical exercises and advice on topics such as story, theory, place, person, voice, and self. A new and lively exploration of ethnography, *Alive in the Writing* shows how the genre's attentive, sustained connection with the lives of others can become a powerful tool for any writer.

Over four years, Andrea Press and Elizabeth Cole watched television with women, visiting city houses, suburban subdivisions, modern condominiums, and public housing projects. They found that television depicts abortion as a problem for the poor and the working classes, and that viewers invariably referred to and abided by class when discussing abortion. *Speaking of Abortion* is an invaluable resource that allows us to hear how ordinary women discuss one of America's most volatile issues.

Alcohol use disorder (AUD) is a major public health problem in the United States. The estimated 12-month and lifetime prevalence values for AUD are 13.9% and 29.1%, respectively, with approximately half of individuals with lifetime AUD having a severe disorder. AUD and its sequelae also account for significant excess mortality and cost the United States more than \$200 billion annually. Despite its high prevalence and numerous negative consequences, AUD remains undertreated. In fact, fewer than 1 in 10 individuals in the United States with a 12-month diagnosis of AUD receive any treatment. Nevertheless, effective and evidence-based interventions are available, and treatment is associated with reductions in the risk of relapse and AUD-associated mortality. The American Psychiatric Association Practice Guideline for the Pharmacological Treatment of Patients With Alcohol Use Disorder seeks to reduce these substantial psychosocial and public health consequences of AUD for millions of affected individuals. The guideline focuses specifically on evidence-based pharmacological treatments for AUD in outpatient settings and includes additional information on assessment and treatment planning, which are an integral part of using pharmacotherapy to treat AUD. In addition to reviewing the available evidence on the use of AUD pharmacotherapy, the guideline offers clear, concise, and actionable recommendation statements, each of which is given a rating that reflects the level of confidence that potential benefits of an intervention outweigh potential harms. The guideline provides guidance on implementing these recommendations into clinical practice, with the goal of improving quality of care and treatment outcomes of AUD.

Debunking conventional wisdom that women had little impact on politics after gaining the vote, Kristi Andersen gives a compelling account of both the accomplishments and disappointments experienced by women in the decade after suffrage. This revisionist history traces how, despite male resistance to women's progress, the entrance of women and of their concerns into the public sphere transformed both the political system and women themselves. Andersen shows how women's participation was based on a conception of women's citizenship as indirect and disinterested. Gaining the right to vote, campaign, and run for office transformed women's citizenship; at the same time, women's independent partisan stance, their focus on social welfare concerns, and their use of new political techniques such as lobbying all helped to redefine politics. This fresh, nuanced analysis of women voters, activists, candidates, and officeholders will interest scholars in political science and women's studies. "In this rich and engaging book, Kristi Anderson presents a convincing argument that woman suffrage deserves greater scrutiny as a social, cultural, and political force in the development of American electoral and party politics."—Jane Junn, Political Science Quarterly "Anderson's innovation in this book is to change the dominant question asked about American women's suffrage. . . . This book offers a much-needed corrective to the conventional conception that the enfranchisement of women had no significant effect on American society."—Inderjeet Parmar, Political Studies "Anderson's book is an excellent treatment . . . and a sterling example of the value of using multiple research methods—also steeped within a deep understanding of context, culture, and historic trends—to explain something as complicated and nuanced as the impact of women's votes after suffrage."—Laura R. Woliver, Journal of Politics

In this innovative exploration of the interaction between economic processes and social relations, Lourdes Benería and Martha Roldán examine the effect of homework on gender and family dynamics. Their fieldwork in Mexico City during 1981-82 has enabled them to provide important new empirical data on industrial piecework performed by women as well as intimate glimpses of these women's lives which place that piecework in context. Tracing the stages of production from home to jobber, workshop, and manufacturer (often a multinational corporation), the authors demonstrate the way in which the work and lives of these women are connected through subcontracting to the national and often international system of production.

"I'm going to make a pinkie-swear with you right here and now, Tom Walton; when, not if, you return from Afghanistan, you must come up here and I will have a mad passionate affair with you..." With this proposal, Thomas Walton, an infantry soldier in Alpha Company, Second Platoon, arrives at the threshold of events that will change his life forever. Breakfast with the Dirt Cult chronicles the days of love and war in the life of Tom Walton. Torn between a beautiful, bibliophilic, Canadian ex-stripper and the hunt for Al-Qaeda in the mountains of Afghanistan, Walton finds himself forced to grapple with being a young man in the days of modernity. While Breakfast with the Dirt Cult has been written as a novel, it is based on a true story. The names have been changed and the chronology has been condensed for the sake of editing.

In this informative and lively volume, Margaret L. King synthesizes a large body of literature on the condition of western European women in the Renaissance centuries (1350-1650), crafting a much-needed and unified overview of women's experience in Renaissance society. Utilizing the perspectives of social, church, and intellectual history, King looks at women of all classes, in both usual and unusual settings. She first describes the familial roles filled by most women of the day—as mothers, daughters, wives, widows, and workers. She turns then to that significant fraction of women in, and acted upon, by the church: nuns, uncloistered holy women, saints, heretics, reformers, and witches, devoting special attention to the social and economic independence monastic life afforded them. The lives of exceptional women, those warriors, queens, patronesses, scholars, and visionaries who found some other place in society for their energies and strivings, are explored, with consideration given to the works and writings of those first protesting female subordination: the French Christine de Pizan, the Italian Modesta da Pozzo, the English Mary Astell. Of interest to students of European history and women's studies, King's volume will also appeal to general readers seeking an informative, engaging entrance into the Renaissance period.

"I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be—their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." -Lydia Davis A MANUAL FOR CLEANING WOMEN compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.

Drawing on personal experiences and interviews with others, Roy explores the frustrations and rewards in the lives of Hindu Bengali women in upper and upper-middle class families in India. Roy traces the psychological dimensions of these women as they play their specific roles, including daughter, wife, mother, and sister-in-law. In a new Afterword, Roy discusses changes in Bengali society and culture over the last two decades which have direct bearings on women's lives: divorce and the breakup of the joint family, education, increasing Westernization via television and women's magazines, and the erosion of traditional religious practices.

Third International Edition (March, 2014) In this concise and provocative guide to owning a woman, author Logan Alexander details the vital elements of possessing a female in the most extreme ways. The formal manual covers the aspects of introducing a woman to ownership, daily rituals, mental ownership, breaking in a woman, discipline, body modification, oral training and sexual gratification training. Author's Note: "The spirit of this manual is guided by the intense urge of a man to possess a woman in the deepest of ways. For some individuals, a normal relationship devoid of the extreme polarities of emotional, psychological and sexual experience that merge in dominance and submission play is akin to a death sentence of mediocrity. He wants her and her body so fully that he wants to make her his actual physical property. She wants to be craved and desired so badly that she wants to be made his real human possession. In a post-feminist world, women chose to be owned and self-made men want to own their women in fresh new ways. They reject traditional relationships and long for a kind of cosmic completeness that transforms daily life into rituals of kinetic connection and deviant eroticism. The manual is written primarily as a concise guide for men seeking to own a woman and women seeking to be owned by a man within a certain creative space of the BDSM realm. It is not a general relationship guide for every Dominant-submissive couple in the scene. It is inspired by the same masculine creative energies that gave rise to confrontational works of art and ancient traditions of phallic worship. It is but one subjective vision of living a life of creative control with a woman. It includes both broad strokes and extremely particular ideas. Yet, it also serves as a source of inspiration for

men and women in any relationship as the desire to possess and be possessed is universal, even if it is only a small force within the complex dynamics of a normal relationship. Regular people have always fed on the excessive proclivities of those on the fringe of society and reality. The style of this work is formal for it is meant as a thought-provoking source from which to draw ideas and inspire fresh deviance. It is not, though, a how-to-guide on sophisticated rope tying techniques, ways of spanking, types of bondage or other technical BDSM skills. Real world experiences are included from first-hand experiences and direct conversations with men who own women and women who are owned by men. The practices are meant as ideal extremes of ownership to be used as one desires in the dynamic reality of an individual relationship."

A gifted poet, a women's rights activist, and an expert on moral and natural philosophy, Lucrezia Marinella (1571-1653) was known throughout Italy as the leading female intellectual of her age. Born into a family of Venetian physicians, she was encouraged to study, and, fortunately, she did not share the fate of many of her female contemporaries, who were forced to join convents or were pressured to marry early. Marinella enjoyed a long literary career, writing mainly religious, epic, and pastoral poetry, and biographies of famous women in both verse and prose. Marinella's masterpiece, *The Nobility and Excellence of Women, and the Defects and Vices of Men* was first published in 1600, composed at a furious pace in answer to Giuseppe Passi's diatribe about women's alleged defects. This polemic displays Marinella's vast knowledge of the Italian poetic tradition and demonstrates her ability to argue against authors of the misogynist tradition from Boccaccio to Torquato Tasso. Trying to effect real social change, Marinella argued that morally, intellectually, and in many other ways, women are superior to men.

*Throughout the 1970s and '80s, women argued that unless they gained access to information about their own bodies, there would be no equality. In *Bodies of Knowledge*, Wendy Kline considers the ways in which ordinary women worked to position the female body at the center of women's liberation. As Kline shows, the struggle to attain this knowledge unified women but also divided them—according to race, class, sexuality, or level of professionalization. Each of the five*

chapters of Bodies of Knowledge examines a distinct moment or setting of the women's movement in order to give life to the ideas, expectations, and pitfalls encountered by the advocates of women's health: the making of Our Bodies, Ourselves (1973); the conflicts surrounding the training and practice of women's pelvic exams; the emergence of abortion as a feminist issue; the battles over contraceptive regulation at the 1983 Depo-Provera FDA hearings; and the rise of the profession of midwifery. Including an epilogue that considers the experiences of the daughters of 1970s feminists, Bodies of Knowledge is an important contribution to the study of the bodies—that marked the lives—of feminism's second wave.

Describes what women seek in a man and the steps a man needs to take to win women over.

By juxtaposing the voices of women and men from all walks of life, Sigel finds that women's perceptions of gender relations are complex and often contradictory. Although most women see gender discrimination pervading nearly all social interactions - private as well as public - they do not invariably feel that they personally have been its victims.

Includes 40 new chapters incorporating a shorter, more focused format with a

summary for each chapter that provides a quick access to key information – ideal for consultation situations as well as daily practice. Some of these chapters are organized in new sections dedicated to open operative exposure and vessel dissection techniques, diabetic foot, Pediatric Vascular Disease, and practice management issues; areas in the specialty that clinicians frequently face but seldom detailed in other vascular texts nor in earlier Rutherford editions. Covers hot topics such as endovascular therapy of aortic arch and thoracoabdominal aortic aneurysm disease, including the evolving management of aortic dissections.

Please note: This is a companion version & not the original book. **Sample Book Insights:** #1 Attraction is one of the primal emotions that has helped humanity survive and reproduce. It is triggered in our bodies in the same way as other primal emotions, such as hunger, fatigue, and fear. We feel it in specific circumstances, and we are powerless to convince ourselves not to feel it. #2 The two major forces that shape males and females differently are nature and nurture. Nature is the obvious biological difference between the sexes, and nurture is the more elusive difference in socialization that starts to affect us from the moment we leave the womb. #3 The words beautiful and attractive can only be used as synonyms when discussing the physical traits that show suitability for motherhood. They are not universal synonyms and cannot be used interchangeably when discussing the attractiveness of males. #4 The way attraction works is different between males and females. Males are attracted to traits in females that females do not care about, and females are attracted to traits in males that males don't care about.
