This is a story which will make your heart sing - a story for all the family to read together. Young Judy discovers an unexpected package in her grandfather's old study. She has never met her grandfather (Poppy) as he died before she was born, but Judy is the one to unearth the puzzle which Poppy left for his family. To find the treasure which Poppy left, the family must first solve every riddle which he wrote on a beautiful scroll, and carefully wrapped in a rich purple velvet bag. Unless they solve the puzzles, they won't find the treasure. See if you can solve the puzzles before the family does. What has Poppy left them as an inheritance? Have fun with the story and enjoy the Omega Prize at the end.

On the occasion of the 80th anniversary of Pininfarina, a marque synonymous with style and elegance applied to car design, Pininfarina is a book that surveys, for the first time, the entire output of the Turin coachbuilder, model by model. Produced in close collaboration with the company, it draws on invaluable photographic material accompanying brief contextualising texts. Tracing the history of Pininfarina from its origins to the present day entails reviewing some of the most iconic models in automotive history: from the numerous Ferraris bodied by the historic partner of the Mareanello firm to cars such as the Cisitalia 202, the Lancia Aurelia, the Alfa Romeo Duoeto and 164, the Maserati GranTurismo through to the current models born under the aegis of the Indian firm Mahindra. The book also covers the numerous Pininfarina concept cars that have written glorious pages in the history of design, raising the bar every time in terms of the excellence of the car product.

Featuring art and writing from the students of the Parkland tragedy, this is a raw look at the events of February 14, and a poignant representation of grief, healing, and hope. The students of Marjory Stoneman Douglas High School share their emotional journeys that began on February 14, 2018, and continue today. This revealing and unfiltered look at teens living in the wake of tragedy is a poignant representation of grief, anger, determination, healing, and hope. The intimate collection includes poetry, eyewitness accounts, letters, speeches, journal entries, drawings, and photographs from the events of February 14 and its aftermath. Full of heartbreaking loss, a rally cry for change, and hope for a safe future, these artistic pieces will inspire readers to reflect on their own lives and the importance of valuing and protecting the ones you love.

In October 1939, Albert Einstein warns President Franklin D. Roosevelt that Nazi Germany is actively pursuing an atomic bomb and urges him to make sure that the United States develops the bomb first. Roosevelt heeds the warning and launches the “Manhattan Project” in June 1942.

This annual report documents human rights abuses by governments and armed opposition groups in 150 countries across the world. It provides an invaluable reference guide to international human rights developments.

Known for its unique “Special Topic” chapters and emphasis on everyday health concerns, theFifth Edition of Biology of Humans: Concepts, Applications, and Issuescontinues to personalize the study of human biology with a conversational writing style, stunning art, abundant applications, and tools to help you develop critical-thinking skills. The authors give you a practical and friendly introduction for understanding how their bodies work and for preparing them to navigate today’s world of rapidly expanding—and shifting—health information. Each chapter now opens with new “Did You Know?” questions that pique your interest with intriguing and little-known facts about the topic that follows. The Fifth Edition also features a new “Special Topic” chapter (1a) titled “Becoming a Patient: A Major Decision,” which discusses how to select a doctor and/or a hospital, how to research health conditions, and more.

Not just an accountant is an incisive, no-holds-barred account of Indias eleventh comptroller and auditor general and a symbol of the anti-corruption movement, Vinod Rai. Through a narrative, rich in anecdote and inside information, Rai sheds light on the major scams that shook the country. Among the case studies—chosen for the diversity of failures they highlight are – the procedural irregularities in the issuance of licenses for second generation spectrum allotment, the last minute quick-fixes in the conduct of the XIX commonwealth games, the loss of national resources while allocating coal blocks, the flouting of systems and the clear display of crony capitalism in the exploration of hydrocarbon and the tragic tale of civil aviation in India. Through these illustrations, Rai wishes to not only expose government malfeasance, but also probe the mandate of the CAG as a watchdog. Equally, he hopes to push for long-term solutions to corruption and bring home the urgent need for ethics—for the pursuit of excellence, accountability, probity and transparency within governments, the bureaucracy, corporate enterprises and public life. Interesting facts A blow-by-blow, explosive, yet thoughtful account that sheds new light on the scams that shook India – 2G, coalgate, civil aviation, the conduct of the XIX commonwealth games and hydrocarbon contracts. Explodes the myth of accountability in contemporary Indian governance. Written by the eleventh CAG of India and a symbol of the anti-corruption movement, Vinod Rai. Presents long-term solutions for the future, so as to contain procedural irregularities within the government and corporate enterprises. Provides a roadmap for good governance, important for the growth of the nation. Exhorts younger professionals / administrators to strive for excellence.

On Friday, August 13, 2010, just as St. Martin's Press was readying its initial shipment of this book, the Department of Defense contacted us to express its concern that our publication of Operation Dark Heart could cause damage to U.S. national security. After consulting with our author, we agreed to incorporate some of the government's changes into a revised edition of his book while redacting other text he was told was classified. The newly revised book keeps our national interests secure, but this highly qualified warrior's story is still intact. Shaffer's assessment of successes and failures in Afghanistan remains dramatic, shocking, and crucial reading for anyone concerned about the outcome of the war. "While I do not agree with the edits in many ways, the DoD redactions enhance the reader's understanding by drawing attention to the flawed results created by a disorganized and heavy handed military intelligence bureaucracy." –Lt. Col. Anthony Shaffer Lieutenant Colonel Anthony Shaffer had run intelligence operations for years before he arrived in Afghanistan. He was part of the "dark side of the force"—the shadowy elements of the U.S. government that function outside the bounds of the normal system. His group called themselves the Jedi Knights and pledged to use the dark arts of espionage to protect the country from its enemies. Shaffer's mission to Afghanistan, however, was unlike any he had ever experienced before. There, he led a black-ops team on the forefront of the military efforts to block the Taliban's resurgence. They not only planned complex intelligence operations to beat back the insurgents, but also played a key role in executing those operations—outside the wire. They succeeded in striking at the core of the Taliban and their safe havens across the border in Pakistan. For a moment Shaffer saw us winning the war. Then the military brass got involved. The policies that top officials relied on were hopelessly flawed. Shaffer and his team were forced to sit and watch as the insurgency grew—just across the border in Pakistan. This wasn't the first time he had seen bureaucracy stand in the way of national security. He had participated in Able Danger, the aborted intelligence operation that identified many of the future 9/11 terrorists but failed to pursue them. His attempt to reveal the truth to the 9/11 Commission would not go over well with his higher-ups. Operation Dark Heart tells the story of what really went on—and what went wrong—in Afghanistan. Shaffer witnessed firsthand the tipping point, when what seemed like certain victory turned into failure. Now, in this book, he maps out a way that could put us on the path to winning the war.

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. Stand Firm: Apologetics and the Brilliance of the Gospel argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

Based on Mr Hudson's identity, the book is featuring destinations for gays, but not necessarily gay destinations. It is about travelling in style for everyone who is looking for something different and special - no matter if men or women, travelling solo or as a couple. Mr Hudson Explores shows that every part of a trip is an incredible experience. The core content of the book will consist of 20 cities in the Northern Hemisphere and showcases the very best the destination has to offer. Each guide will give a general introduction to the city and, if applicable, its relevance for the gay community. It showcases various locations on culture and art, the most inspiring museum to visit, traditional and upcoming food places, best shopping experiences, music and nightlife: Where to go out, which bars do have the best drinks, and clubs you can have the most fun at the city's best parties and concerts. Depending on the location, day trips and activities can be included. Luxury accommodations and places to stay complete the range. The book will not just give descriptions of the places but also background information, telling the story of the owner, history or anecdotes.

"George, a Dublin lawyer, opens his eyes. It's 7am. There's blood, thick dark blood, in his bed. What's happened? It's not his blood, so whose is it? George wants to know. And so does Inspector Sean Murphy of the Dublin police."--Cover

This book is dedicated to Istid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been used to refer to as L systems. Lindenmayer's work is one of the most beautiful examples of interdisciplinary sciences: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles in this book, the in interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major topographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero," and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

20 transformative stories and sexual healing practices from international pioneers in the sexual shamanism movement • Reveals intimate details about how each sex shaman overcame personal struggles with heartache, jealousy, mental illness, or social shame to realize their calling as a sacred sexual healer • Includes 20 in-depth embodiment exercises such as soul gazing, contacting your spirit guides, sexual divination, energetic sex, self-pleasuring, moon blood rituals, and sacred sexual storytelling • Includes contributions from 20 diverse voices in the sexual shamanism community, all part of the mystery school ISTA: International School of Temple Arts Drawing on traditional and modern practices, a sex shaman uses the power of erotic energy as a healing medicine. They channel divine love and embrace sexuality freely, practicing polyamory, sexual healing, and even sex magic. They teach tantra, trance dance, kundalini yoga, and other techniques for healing shame, guilt, fear, and sexual trauma. Designed to guide the reader on a journey into their own sacred sexual awakening, this book shares true stories from 20 visionary pioneers in the sexual shamanism movement, all of them associated with the International School of Temple Arts (ISTA), a mystery school that works to illuminate the path of sexual shamanism and heal the split between sex and spirit, release the shame surrounding sexual awakening, and inspire more sexual liberation around the world. The teachers reveal intimate details of their life stories and sexual awakening journeys, showing how, by surrendering to the wisdom of the erotic current of the universe, transformation occurs. Each story is accompanied by an in-depth embodiment exercise with step-by-step instructions, including soul gazing, contacting your spirit guides, sexual divination, energetic sex, self-pleasuring, moon blood rituals, and sacred sexual storytelling. Underlying these exercises is the belief that the body is a temple that opens with pleasurable worship so spirit may dwell more fully within. The 20 contributors include Baba Dez Nichols, Bruce Lyon, Crystal Dawn Morris, Dawn Cherie, Deborah Taj Anapol, Ellie Wilde, Janine Ma-Ree, KamalDevi McClure, Komala Lyra, Laurie Handlers, Lin Holmquist, Matooka Moonbear, Mia Mohr, Ohad Pele Ezrahi, Patrik Olterman, Raffaello Manacorda, Ria Bloom, Sean O' Faoilan, Stephanie Phillips, and Stephen SouLove.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a Free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." —an excerpt

For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

What is Music? Music is rhythm. Music is melody. Music is feeling... and oh, so much more. In this richly layered compendium, Aliki shares her keen insight about music and all its themes and variations. Ah, Music! is about composers and instruments. It's about artists and performers. It's about history -- from the earliest music through classical, modern, jazz, and popular times. It's about diversity and pleasure. If you have a love of music in your bones, or if you are just learning, or if you are about to play in your first recital, it's about you. Ah, music!

How to Casually Pick Up Girls During the Day

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an “eye opener” to the horrors of addiction. It’s a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher’s mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That’s where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carroll...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laughed-out-loud funny, Kasher’s first literary endeavor finds humor in even the most horrifying situations.

Laura Berk’s Development Through the Lifespan is relied upon in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, cutting-edge consideration of the interrelationships between heredity and environment, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. This new edition continues to offer students research-based practical applications that they can relate to their personal and professional lives. Laura Berk, renowned professor and researcher, has revised the text with new pedagogy, a heightened emphasis on the interplay between heredity and environment, and an enhanced focus on many social policy issues, while emphasizing the lifespan perspective throughout. The latest theories and findings in the field are made accessible to students in a manageable and relevant way. Berk’s signature storytelling style invites students to actively learn beside the text’s “characters.” Students are provided with an especially clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains-physical, cognitive, emotional, social-throughout the text narrative and in special features. Berk also helps students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. While carefully considering the complexities of human development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, cross-cultural, and multicultural examples. Strengthening the connections among developmental domains and of theory and research with applications, this edition’s extensive revision brings forth the most recent scholarship, representing the changing field of human development.
