Annotated in his wry, inimitable voice, Juergen Teller presents over three decades of fashion and editorial work in a groundbreaking volume that combines photography, collage, and candid (and often humorous) autobiography. One of the most influential photographers working today, Juergen Teller creates images that are instantly recognizable. Raw, often overexposed and displaying a spontaneity and candor, Teller's visual language reflects a measured yet uncompromising sense of rebellion. This book includes landmark editorials with nearly every important fashion label of the era and celebrities from Kate Moss to Charlotte Rampling and Kurt Cobain to Yves Saint Laurent. Outtakes of iconic shoots (including infamous ones with Courtney Love, Cindy Sherman, Marc Jacobs, Victoria Beckham, and Björk) that have never been published will be included in this volume. Teller first broke into fashion in 1996 with a magazine cover of a naked Kristen McMenamy with the word Versace scrawled across her chest. Since then, his fashion photography has been featured in all the international Vogues, AnOther Magazine, Index, Self-Service, W, Details, Purple, i-D, and 032c, among others. A highly sought-after cult hero and the author of many iconic campaigns, Teller has collaborated with the likes of Helmut Lang, Raf Simons, Hedi Slimane, Nicolas Ghesquière, Phoebe Philo, Vivienne Westwood, Miuccia Prada, and Isabel Marant, and shot every season of Marc Jacobs's ready-to-wear collections from 1998 to 2014. Cinema and science fiction were made for each other. Science fiction has been at the cutting edge of film technology and the genre has produced some of the most ambitious, imaginative and visually spectacular films ever made. Yet science fiction cinema is about more than just state-of-the-art special effects. It has also provided a vehicle for film-makers and writers to comment on their own societies and cultures. In this new study of the genre, James Chapman and Nicholas Cull examine a series of landmark science fiction films from the 1930s to the present. They include genre classics, including 'Things to Come', 'Forbidden Planet', 'Planet of the Apes' and '2001: A Space Odyssey', alongside modern blockbusters 'Star Wars' and 'Avatar'. They consider both screen originals and adaptations of the work of major science fiction authors such as H.G. Wells and Arthur C.

Clarke. They range widely across the genre from pulp adventure and space opera to political allegory and speculative documentary- there is even a science fiction musical. Chapman and Cull explore the contexts and document the production histories of each film to show how they made their way to the screen- and why they turned out the way they did. Informed throughout by extensive original research in US and British archives, Projecting Tomorrow will be essential reading for all students and fans of science fiction cinema.

In 1978 the films Snake in the Eagle's Shadow and Drunken Master, both starring a young Jackie Chan, caused a stir in the Hong Kong cinema industry and changed the landscape of martial arts cinema. Mixing virtuoso displays of acrobatic kung fu with knockabout humor to huge box office success, they broke the mold of the tragic and heroic martial arts film and sparked not only a wave of imitations, but also a much longer trend for kung fu comedies that continues to the present day. Legacies of the Drunken Master—the first book-length analysis of kung fu comedy—interrogates the politics of the films and their representations of the performing body. It draws on an interdisciplinary engagement with popular culture and an interrogation of the critical literature on Hong Kong and martial arts cinema to offer original readings of key films. These readings pursue the genre in terms of its carnival aesthetic, the utopias of the body it envisions, its highly stylized depictions of violence, its images of masculinity, and the registers of its “hysterical” laughter. The book's analyses are carried out amidst kung fu comedy's shifting historical contexts, including the aftermath of the 1960s radical youth movements, the rapidly globalizing colonial enclave of Hong Kong and the emerging consciousness of its 1997 handover to China, and the transnationalization of cinema audiences. It argues that through kung fu comedy's images of the body, the genre articulated in complex and often contradictory ways political realities relevant to late twentieth-century Hong Kong and the wider conditions of globalized capitalism. The kung fu comedy entwines us in a popular cultural history that stretches into the folk past and forward into utopian and dystopian possibilities. Theoretically rich and critical, Legacies of the Drunken Master aims to be at the forefront of scholarship on martial arts cinema. It also addresses readers with a broader interest in Hong Kong culture and politics during the 1970s and 1980s, postcolonialism in East Asia, and action and comedy films in a global context—as well as those fascinated with the performing body in the martial arts.

For anyone who has ever felt like they don't belong, Sigh, Gone shares an irreverent, funny, and moving tale of displacement and assimilation woven together with poignant themes from beloved works of classic literature. In 1975, during the fall of Saigon, Phuc Tran immigrates to America along with his family. By sheer chance they land in Carlisle, Pennsylvania, a small town where the Trans struggle to assimilate into their new life. In this coming-of-age memoir told through the themes of great books such as The Metamorphosis, The Scarlet Letter, The Iliad, and more, Tran navigates the push and pull of finding and accepting himself despite the challenges of immigration, feelings of isolation, and teenage rebellion, all while attempting to meet the rigid expectations set by his immigrant parents. Appealing to fans of coming-of-age memoirs such as Fresh Off the Boat, Running with Scissors, or tales of assimilation like Viet Thanh Nguyen's The Displaced and The Refugees, Sigh, Gone explores one man's bewildering experiences of abuse, racism, and tragedy and reveals redemption and connection in books and punk rock. Against the hairspray-and-synthesizer backdrop of the '80s, he finds solace and kinship in the wisdom of classic literature, and in the subculture of punk rock, he finds affirmation and echoes of his disaffection. In his journey for self-discovery Tran ultimately finds refuge and inspiration in the art that shapes—and ultimately saves—him.

Mark Sturdy traces the unlikely saga of Jarvis Cocker and his ever-changing band in meticulous detail, from schoolboy promise to semi-retirement. If Cocker's career was launched by a precocious session on John Peel's show, his stated ambition was always to be on Top Of The Pops... and despite his edgy lyrics and dour manner, he has often seemed more at home as media jester than serious pop performer. The "Encyclopedia" covers the genre from 1920 to 1994. The genre, however, can be very confusing: films often have several titles, and many of the stars have more than one pseudonym. In an effort to clarify some of the confusion, the authors have included all the information available to them on almost 3,300 films. Each entry includes a listing of the production company, the cast and crew, distributors, running times, reviews with star ratings whenever possible, and alternate film titles. A list of film series and one of the stars' pseudonyms, in addition to a 7,900 name index, are also included. Illustrated.

But Captain Aubrey is a brave and gifted seaman, his thirst for adventure and victory immense. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. This book analyzes narcissism and politics and systematically explores the psychology of narcissism - the entitlement, the grandiosity and arrogance overlying insecurity, the sensitivity to criticism, and the hunger for acclaim - illustrating different narcissistic personality features through a spectrum of international and national politicians.
