Ken Jennings's Trivia Almanac is the ingeniously organized book where, for a change, the all-time Jeopardy! champ gets to ask the questions–and where every day of the year will give you the chance to test your trivia mettle. For example–February 21: In 1912, on this day, Teddy Roosevelt coined the political phrase "hat in the ring," so Ken Jennings fires off a series of "ring" questions. What two NFL quarterbacks have four Super Bowl rings each?* What rings are divided by the Cassini Division?** Also on this date, in 1981, the "goth" music scene was born in London, so here's a quiz on black-clad icons like Darth Vader, Johnny Cash, and Zorro. Do you know the secret identities of Ivanhoe's Black Knight*** or Men in Black's Agent M****? In this ultimate book for trivia buffs and other assorted know-it-alls, the 365 entries feature "This Day in History" factoids, trivia quizzes, and questions categorized by Jennings as "Easy," "Hard," and "Yeah, Good Luck." Topics cover every subject under the sun, from paleontology to mixology, sports feats to Bach suites, medieval popes to daytime soaps. This addictive gathering of facts, oddities, devilishly clever quizzes, and other flights of fancy will make each day a fun and intriguing new challenge.

The New York Times bestselling guide to thinking like literature's greatest detective. "Steven Pinker meets Sir Arthur Conan Doyle" (Boston Globe), by the author of The Confidence Game. No fictional character is more renowned for his powers of thought and observation than Sherlock Holmes. But is his extraordinary intellect merely a gift of fiction, or can we learn to cultivate these abilities ourselves, to improve our lives at work and at home? We can, says psychologist and journalist Maria Konnikova, and in Mastermind she shows us how. Beginning with the "brain attic"—Holmes's metaphor for how we store information and organize knowledge—Konnikova unpacks the mental strategies that lead to clearer thinking and deeper insights. Drawing on twenty-first-century neuroscience and psychology, Mastermind explores Holmes's unique methods of ever-present mindfulness, astute observation, and logical deduction. In doing so, it shows how each of us, with some self-awareness and a little practice, can employ these same methods to sharpen our perceptions, solve difficult problems, and enhance our creative powers. For Holmes aficionados and casual readers alike, Konnikova reveals how the world's most keen-eyed detective can serve as an unparalleled guide to upgrading the mind.

This book is about improving intelligence and learning in students from Class V to Post-graduation. It uses constructivism as the idea to improve learning and intelligence. Constructivism has existed on earth since the beginning of civilization. The Bhagavad Gita is based on questions and answers. Lord Krishna did not spoon-feed Arjuna with solutions. He could have stopped the war if he wanted, but he inspired Arjuna to think and then choose what he considered was right. Constructivism is about constructing new and better knowledge at every step of learning from what is available in textbooks. We cannot solve today's problems with yesterday's ideas and we cannot survive until we learn to use our minds creatively to create intelligent solutions to solve the problems of life. This should be the sole concern of education. India can become a superpower within a few years if it does. Twenty-five percent of India's population is in the classroom. This population is young and vibrant. It can be upgraded endlessly if education inspires students to construct new knowledge as per their objectives. Education did not use constructivism because it did not till now have a technique to use it, though our national documents wanted it to be used in the classroom. The technique is now available. It has already benefitted six million students. It improves learning, results, admissions and attendance. It also reduces learning and teaching time. I request teachers and parents to spread this divine technique. It will prove to be the revolution that this nation and the world so badly needs and deserves.

As Matt struggles to understand his existence and what that existence truly means, he is threatened by a host of sinister and manipulating characters, from El Patron's power-hungry family to the brain-deadened eejits and mindless slaves that toil Opium's poppy fields. Surrounded by a dangerous army of bodyguards, escape is the only chance Matt has to survive. But even escape is no guarantee of freedom... because Matt is marked by his difference in ways that he doesn't even suspect.
Ever wondered how life would be if we could condition our minds to Think and Grow Rich? Author Napoleon Hill claims to have based this book on twenty years of rigorous research on the lives of those who had amassed great wealth and made a fortune. The narrative is rich with stories and anecdotes, which not only inspire, but also show a way forward to take action. After all, riches are not just material, but also pertaining to the mind, body and spirit. Having sold more than fifteen million copies across the world, this book remains the most read self-improvement book of all times!
It is Enniscorthy in the southeast of Ireland in the early 1950s. Eilis Lacey is one among many of her generation who cannot find work at home. Thus when a job is offered in America, it is clear to everyone that she must go. Leaving her family and country, Eilis heads for unfamiliar Brooklyn, and to a crowded boarding house where the landlady's intense scrutiny and the small jealousies of her fellow residents only deepen her isolation. Slowly, however, the pain of parting is buried beneath the rhythms of her new life — until she begins to realize that she has found a sort of happiness. As she falls in love, news comes from home that forces her back to Enniscorthy, not to the constrictions of her old life, but to new possibilities which conflict deeply with the life she has left behind in Brooklyn. In the quiet character of Eilis Lacey, Colm Tóibín has created one of fiction's most memorable heroines and in Brooklyn, a luminous novel of devastating power. Tóibín demonstrates once again his astonishing range and that he is a true master of nuanced prose, emotional depth, and narrative virtuosity.

This updated version of the 2000 original is still the only complete resource on the market for finding word parts needed to express a concept. Aside from catering to those who wish to expand their vocabulary, the purpose of this dictionary is to provide convenient word parts to those who may be interested in inventing or deciphering words bearing an established and embedded meaning. Like the first edition, this work is split into three parts presenting the prefixes, suffixes, combining forms, and roots that fit together to form words in English. Part I, the Dictionary proper, provides an alphabetical listing of nearly 4,700 word parts, each entry including a brief definition and two examples of words using that unit. This section benefits from several additions, the most notable of which are embedded etymologies for each entry. Part II, the Finder, is a reverse dictionary of word parts allowing users to start with a meaning or concept and then find word parts which express that meaning. Still the only reverse dictionary of its kind, Part II is updated with over 1,000 new search terms. Part III collects word parts in another reverse dictionary under 18 convenient categories. Each pre-existing category has been expanded when possible, and three entirely new categories have also been added (Eating, Experts, and Measurement Science).

#1 New York Times and internationally bestselling author Naomi Klein makes the case for a Green New Deal in this "keenly argued, well-researched, and impassioned" manifesto (The Washington Post). An instant bestseller, On Fire shows Klein at her most prophetic and philosophical, investigating the climate crisis not only as a profound political challenge but also as a spiritual and imaginative one. Delving into topics ranging from the clash between ecological time and our culture of "perpetual now," to the soaring history of humans changing and evolving rapidly in the face of grave threats, to rising white supremacy and fortressed borders as a form of "climate barbarism," this is a rousing call to action for a planet on the brink. An expansive, far-ranging exploration that sees the battle for a greener world as indistinguishable from the fight for our lives, On Fire captures the burning urgency of the climate crisis, as well as the fiery energy of a rising political movement demanding a catalytic Green New Deal. "Naomi Klein's work has always moved and guided me. She is the great chronicler of our age of climate emergency, an inspirer of generations." —Greta Thunberg, climate activist "If I were a rich man, I'd buy 245 million copies of Naomi Klein's 'On Fire' and hand-deliver them to every eligible voter in America...Klein is a skilled writer." —Jeff Goodell, The New York Times

A NEW YORK TIMES BESTSELLER WINNER OF THE 2019 NATIONAL BOOK AWARD FOR NONFICTION A brilliant, haunting and unforgettable memoir from a stunning new talent about the inexorable pull of home and family, set in a shotgun house in New Orleans East. In 1961, Sarah M. Broom's mother Ivory Mae bought a shotgun house in the then-promising neighborhood of New Orleans East and built her world inside of it. It was the height of the Space Race and the neighborhood was home to a major NASA plant—the postwar optimism seemed assured. Widowed, Ivory Mae remarried Sarah's father Simon Broom; their combined family would eventually number twelve children. But after Simon died, six months after Sarah's birth, the Yellow House would become Ivory Mae's thirteenth and most unruly child. A book of great ambition, Sarah M. Broom's The Yellow House tells a hundred years of her family and their relationship to home in a neglected area of one of America's most mythologized cities. This is the story of a mother's struggle against a house's entropy, and that of a prodigal daughter who left home only to reckon with the pull that home exerts, even after the Yellow House was wiped off the map after Hurricane Katrina. The Yellow House expands the map of New Orleans to include the stories of its lesser known natives, guided deftly by one of its native daughters, to demonstrate how enduring drives of clan, pride, and familial love resist and defy erasure. Located in the gap between the "Big Easy" of tourist guides and the New Orleans in which Broom was raised, The Yellow House is a brilliant memoir of place, class, race, the seeping rot of inequality, and the internalized shame that often follows. It is a transformative, deeply moving story from an unparalleled new voice of startling clarity, authority, and power.
