spend his mornings in the NPC
village and trade his wheat for

emeralds, armor, books, swords, and food. One morning, he finds that Zombies have attacked the villagers. The Zombies have also turned the village blacksmith into a Zombie, leaving Steve without a place to get swords. To protect himself and the few villagers that remain, Steve goes on a quest to mine for forty diamonds, which are the most powerful mineral in the Overworld. He wants to craft these diamonds into a diamond sword to shield him and the villagers from the Zombies. Far from his home, with night about to set in, Steve fears for his life.

Nighttime is when users are most vulnerable in Minecraft. As he looks for shelter in a temple, he meets a trio of treasure hunters, Max, Lucy, and Henry, who are trying to unearth the treasure under the temple. Steve tells them of his master plan to mine for the most powerful mineral in the Overworld—the diamond. The treasure hunters are eager to join him. Gameknight999 reenters Minecraft to find it completely changed. There are new monsters that he's never seen before: giants and skeleton druids and pinch beetles and king spiders and mistwolves. Villages are larger than ever,

and more heavily fortified; Minecraft had become much more dangerous. Even the very trees had changed, with some of them reaching up taller than the User-that-is-not-a-user ever thought was imaginable.

There's a diamond block portal outside of Crafter's village, and rumors are spreading that a strange user was seen coming out of the portal with a young boy, before they disappeared into another portal, leaving behind a square hole one block deep with a ring of flowers around it. Gameknight recognizes it as the portal to reach the Twilight Forest mod.

But how can there be mods here in the vanilla Minecraft? The User-that-is-not-a-user follows the trail, and finds odd mentions of “303” and “White Castle.” But what do the clues mean? Just how dangerous is this new user to Minecraft, and where is he taking the young NPC? Only Gameknight999 will be able to find out.
