**Easy Reading for ESL Students - Starter 2 is a comprehensive reader designed especially for beginning and intermediate students of English as a Second Language. **There are vocabulary, comprehension, speaking, and writing exercises following each story. The stories are entertaining and have plot twists and surprise endings. Teachers of English as a Second Language will enjoy using them to engage students on a wide range of topics and interests. A man is in the middle of a forest. Suddenly the earth opens and three figures come out of the opening. He is terrified. He thinks they are ghosts. Are they? A policeman is going to arrest a man. The policeman looks at the man's face and can't believe his eyes. The man looks exactly like him. Is it a coincidence? A man builds a hang-glider and tries to escape on it to another country. The border is guarded by armed soldiers. The soldiers see him. Are they going to shoot him down? And much more. The stories are short (300 - 400 words). Each story and its exercises can be completed in 60 minutes. This book is for everybody who wants to improve their English. It's fun to learn English by reading interesting stories. This book is the essential companion to Counting (2nd Edition) (World Scientific, 2013), an introduction to combinatorics for secondary to undergraduate students. The book gives solutions to the exercises in Counting (2nd Edition). There is often more than one method to solve a particular problem and the authors have included alternative solutions whenever they are of interest. The rigorous and clear solutions will aid the reader in further understanding the concepts and applications in Counting (2nd Edition). An introductory section on problem solving as described by George Pólya will be useful in helping the lay person understand how mathematicians think and solve problems.

***Inhaltsangabe: Introduction: I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device. When I was a student at a lower and upper secondary school, listening to songs in English classes was my favourite activity. I have always wanted to be able to understand the lyrics of songs I listened to. Later, I realized that I have learned a lot from listening to pop songs and analyzing their lyrics. Therefore, in my diploma project, I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value, and that students enjoy working with pop songs. The theoretical part of this diploma project is based on relevant sources of background literature. In the first two chapters, the use of songs is described with regard to motivation and the Multiple Intelligences Theory. The third and fourth chapter deal with the reasons for using songs and their classification. In the last two chapters of the theoretical part, pedagogical principles of using pop songs in class, as well as the pros and cons of teaching through pop songs are presented. The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom. In the first part of the research, I present an analysis of questionnaires which I distributed among English teachers at***

*lower and upper secondary schools and grammar schools. In the second part of the research, I describe students' attitudes to pop song based lessons which I taught during my teaching practice at grammar schools. In the third part of the research, I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools. In addition, I present a self-developed teaching material containing a list of pop songs suitable for the EFL classroom. In the last part of the practical part, I answer the research questions and provide some implications for my own teaching.*
