

Maya Cosmogenesis 2012 The True Meaning Of The Maya Calendar End Date

Explores the central role played by the galaxy in both ancient and modern times in the transformation of the human spirit. • Extends Jenkins' groundbreaking research in Maya Cosmogenesis 2012. • Reveals how the coming Galactic Alignment of era-2012 promises a renewal of human consciousness. • Uncovers the galactic vision of Mayan, Egyptian, Greek, and Vedic cosmologies. The Galactic Alignment is a rare astronomical event that brings the solstice sun into alignment with the center of the Milky Way galaxy every 12,960 years. Building on the discoveries of his book Maya Cosmogenesis 2012, Jenkins demonstrates that the end-date of 2012 does not signal the end of time but rather the beginning of a new stage in the development of human consciousness. He recovers a striking common thread that connects the ancient cosmological insights of the Maya not only to Egyptian thought and Vedic philosophy but also to the diversity of humankind's metaphysical traditions ranging from Celtic sacred topography and Medieval alchemy to the Kabbalah and Islamic astrology. His work presents us with a groundbreaking synthesis of lost wisdom once common to ancient cosmologies that will help us understand the significance of this transformative cosmic milestone.

A guide to the science of prophecy, why so many predictions never come to pass, and the Golden Age ahead • Presents a mathematical means of divining the future, revealed in the Oahspe Bible, using the Egyptian Tables of Destiny, a 12,000-year-old system so exact it can foretell every day of the year • Reveals that we are not headed for Rapture and the Apocalypse but for "the Quickening," the embryonic stage of a Utopian Age • Examines the cycles of history and explains why many prophecies have not come true

Reviewing the cycles of history from biblical times to the present and prophecies of the future from Nostradamus to Edgar Cayce and Jeane Dixon, Susan B. Martinez reveals that our current "time of troubles" is not the beginning of Rapture, the Apocalypse, or Armageddon, but of the embryonic stage of a Utopian Age--the "Quickening" of the human race. Reviving the lost science of prophecy, Martinez explains why so many "great prophecies" have failed and presents the 12,000-year-old Egyptian system of prediction so exact it can foretell

every day of the year, a method based not on the planets, astrology, or intuition but on Earth's magnetic rhythms. Using Earth science, historical research, religious texts, spiritualism, and patterns within the cycles of war and political milestones, she demonstrates that the past is the hidden key to the future and uncovers the prophetic numbers of Earth's cycles--11, 33, 99, and 363--as set forth in the Egyptian Tables of Destiny, ancient texts brought to light by the 19th-century Oahspe Bible. Explaining how readers can use the Tables of Destiny to make their own predictions of the future, she presents her own forecasts of the risks and costs of technological progress, the destiny of America, the up-and-coming global religion, the truth behind climate change and the cause of earthquakes, and the true life expectancy of planet Earth as well as offering a preview of the Paradigm Shift and Golden Age ahead, a time of global unity and awakening of the soul of the world.

Draws on the latest scientific research and theories, as well as writings of a variety of ancient civilizations, to explore the belief that the year 2012 has been pinpointed as a cataclysmic year in human history, offering an authoritative study that assesses how close the planet and humankind are to extinction. Reprint. 40,000 first printing. The attack on the World Trade Center in 2001, followed by similarly dreadful acts of terror, prompted a new interest in the field of the apocalyptic. There is a steady output of literature on the subject (also referred to as "the End Times.") This book analyzes this continuously published literature and opens up a new perspective on these views of the apocalypse. The thirteen essays in this volume focus on the dimensions, consequences and transformations of Apocalypticism. The authors explore the everyday relevance of the apocalyptic in contemporary society, culture, and politics, side by side with the various histories of apocalyptic ideas and movements. In particular, they seek to better understand the ways in which perceptions of the apocalypse diverge in the American, European, and Arab worlds. Leading experts in the field re-evaluate some of the traditional views on the apocalypse in light of recent political and cultural events, and, go beyond empirical facts to reconsider the potential of the apocalyptic. This last point is the focal point of the book.

A fusion of ecological restoration and sustainable development, restorative redevelopment represents an emerging paradigm for remediating landscapes. Rather than merely fixing the broken bits and pieces of nature, restorative development advocates the reuse of devastated landscapes to improve the value and livability of a location for humans at the same time as effectively reinstating natural processes and functions. Restorative Redevelopment of Devastated Ecocultural Landscapes explores the use of this approach to address the long-term, sustainable reparation of the fabled marshlands of southern Iraq destroyed by Saddam Hussein, as well as numerous examples of other ecologically sensitive regions. Case studies presented include: Southern marshlands Iraq Hula swamp, Israel Azraq Oasis, Jordan Las Vegas Wash, USA Xochimilco, Mexico Pantanal, Brazil Clark County Wetlands Park, USA Tonle Sap, Cambodia Lake Titicaca, Peru Nature Reserves, Jordan The book reviews successfully-implemented and celebrated case studies from more than 15 countries around the world which, either in whole or in part, can offer valuable insight into the restorative development of the Iraqi marshlands as well as other devastated ecocultural landscapes. It presents practical approaches for sustaining the process of restoration efforts, both during and after the reparation work has been accomplished. The editor suggests solutions targeted for Iraq but that also have resonance in other regions devastated by conflict and natural disasters. He takes a synoptic or cross-system approach to problem solving when repairing large-scale landscapes that have been devastated by conflict or natural disasters such as tsunami-damaged Indonesia and earthquake-ravaged Haiti.

Can dreams be portals to different realities? Could they link the world of ancient Mayas to current times? Two women-a Maya priestess and modern spiritual seeker-are drawn together across centuries by Jana's recurrent dream. Risking everything she holds dear and putting her marriage in jeopardy, Jana is compelled to journey to jungle-shrouded Maya ruins where she encounters mysterious forces linking her to Maya priestess Yalucha, who was mandated centuries before to hide her people's mystical knowledge from the Conquistadors, to be revealed at a critical time. Jana's reluctant husband Robert is swept along into unsettling experiences with his own Maya roots. What secret bond weaves their lives together with the ancient Maya through events during the height of Tikal, Uxmal and Chichen Itza? In the countdown to the Maya calendar ending in 2012, Jana is called

to re-enact a ritual at Chichen Itza to revive hidden knowledge. Could her choice to fulfill this ancient Maya prophecy make a difference for the world? In this provocative book, The Cydonia Codex authors George J. Haas and William R. Saunders use archaeological research discoveries and photographs from NASA and other space programs to document the uncanny similarities between Martian and now-extinct Earth cultures. The Martian Codex begins with a review of the thirty-year history of documenting the famous “Face on Mars” landform from NASA’s first photographs in 1976 to the Mars Reconnaissance Orbiter’s HiRISE shots in 2007. Detailed analysis shows it as a split-faced structure that precisely resembles a set of masks from a temple in Cerros, Mexico. Part two provides additional examples of two-faced and composite structures all over the red planet. Haas and Saunders explore a series of recurring motifs by providing side-

by-side views of the Martian geoglyphs with their terrestrial pre-Columbian counterparts. The results substantiate a commonality between two worlds in that both depict specific gods and characters from the creation mythology of the Mayan people, as recorded in the sacred Popol Vuh. This fact-based book represents the most persuasive argument yet that extraterrestrials may indeed have appeared on Earth during an earlier era.

In 2012, the Bible, and the End of the World, bestselling prophecy expert Mark Hitchcock explores a fascinating last-days controversy that is gaining the attention of millions all over the globe. What should Christians make of the rapidly spreading speculations that the world will end on December 21, 2012? The ancient Mayans were expert astronomers and their advanced calendar cycles predict 12/21/2012 as a catastrophic day of apocalypse. This prophecy has spawned a growing number of fringe-element books, Web sites, and even a major movie—complete with all-star cast—scheduled to release in July 2009. Missing in the furor is a biblical perspective. Bible teacher Mark Hitchcock—whose books have sold more than 300,000 copies—examines the following questions: Why December 21, 2012? Can we trust the Mayan alarm clock? Does the Bible say anything about 2012? What signs will tell us that Armageddon is near? This book provides a fascinating survey of both the historical past and the prophetic future. Readers will discover how to effectively counter baseless speculation with biblical fact.

On December 21, 2012, the Mesoamerican Long Count calendar, a 5,125-year cycle calendar system pioneered by the Maya, will come to an end. At the same time, the earth, the sun, and the center of the galaxy will come together in an extremely rare cosmic alignment. More and more people believe that the world as we know it will experience a transformation in 2012, but few are aware of the complete history or significance of the date. John Major Jenkins, among the most authoritative voices of the 2012 movement, has written a definitive explanation of one of the most thought-provoking phenomena of our time. Drawing from his own groundbreaking research (including his involvement in the modern reconstruction of Mayan 2012 cosmology) and more than two decades of extensive study of Mayan culture, Jenkins has created the crucial guide to understanding the story of 2012—an essential overview of the history, theory, cultures, and personalities that have brought this extraordinary idea into modern awareness. Jenkins provides illuminating answers to some of the most-asked questions about 2012, including: - How did the early Maya devise the calendar that gives us the cycle ending in 2012, and how does it work? - How did the calendar come to be rediscovered and reconstructed in our era? - What controversies and intrigues surround the topic, and what do scholars and researchers have to say about them? - How can we cut through all the noise about 2012 and gain true wisdom from the Mayan teachings about this moment? The first translation of a previously unknown Aztec codex and its initiatory teachings for 2012 • Discloses the potential for great spiritual awakening offered at the end of the Aztec calendar cycle • Presents the only existing English-language transcription of the Aztec codex, with line-by-line commentary • Contains the epic poetry and metaphysical insights of Beat poet Marty Matz (1934-2001 In 1961 an unknown Aztec codex was revealed to Beat poet and explorer Marty Matz by a Mazatec shaman in the mountains of Oaxaca, Mexico. Originally intended for dramatic performance, this codex presents a profound metaphysical teaching describing how the end of time will bring about a visionary

ascent. At the behest of his Mazatec teacher, Matz transcribed this pictorial codex into a literary form that would preserve its initiatory teachings and reveal its secret meanings to a wider audience. Pyramid of Fire is an epic poem that provides a vehicle to transport the initiate into the higher realms of consciousness. It represents a barely surviving thread of teachings that have been passed down in secret since the time of the Spanish Conquest. Revealed are the techniques by which man is transported to the stellar realm after death via the solar energy within what the ancients called the "serpent of consciousness." Line-by-line commentary by Matz and John Major Jenkins provides insights into the perennial philosophy contained in the codex and its relevance to our times.

Tranceformers: Shamans of the 21st Century - Second Edition Revised and Updated for 2012

Do you desire the truth about God, our foremost religions, the purpose of life and the future of our planet? If so, Illuminating the Narrow Gate will guide and empower you to fulfill your destiny of transcending the darkness and embracing an enlightened spirituality. Blessed with astonishing insights and revelations, this revolutionary book heralds a global awakening and the inevitable doom of institutional religion. Volume II contains 15 appendixes that substantiate and enhance the revelations of Volume I. Appendixes A (Reincarnation) and B (Spirit Possession) present scientific and clinical evidence that demonstrates the reality of those phenomena. The next three appendixes are primarily dedicated to dating the Book of Daniel. Leveraging the breakthrough of Illuminating the Narrow Gate's paradigm shift, Appendix D (Redirecting the Debate About Daniel) decimates the prevailing scholarly conclusion that Daniel's prophecies were a hoax written in the 2nd century BCE. Instead, this book within a book proves they were penned as advertised in the 6th century BCE while debunking the fundamentalist view that the biblical book is inerrant. The next six appendixes primarily present ancient history that demonstrates the fulfillment of prophetic passages from Daniel. Four of them Appendix F (The Beast With Ten Horns), Appendix G (Constantine the Great), Appendix J (The King of the End Times) and Appendix K (Understanding the 69 Sevens) deliver the spine-tingling details of how the future was foretold with stunning accuracy and precision for five centuries after the date when all scholars agree Daniel was on the historical record (160s BCE). Appendix L (The Catholic Church in the 20th Century) shows that although the Church no longer champions crusades, sequesters Jews in ghettos, or tortures and kills those who believe differently, its underlying darkness has continued unabated. The majority of this other book within a book details how the Vatican helped Benito Mussolini and Adolf Hitler gain dictatorial power and then made strategic alliances with them, ignored their pre-war crimes and assaults upon the Jews, sanctioned their predatory aggression upon other nations, and turned a blind eye to the Holocaust. After illuminating the essence of the papal choices before and during World War II, the appendix exposes the criminal nature of the Vatican's subsequent financial

affairs. It shows how the sudden death of Pope John Paul I in 1978 was most likely a blackmail-enabled murder by the Vatican Bank's underworld partners. After two short appendixes explain passages from Revelation, the book concludes with Appendix O ("The Impact on Islam"). It shows how the book's insights are also inscribing the writing on the wall for Islam. * You don't need to purchase Volume II if you only want the book's core insights and revelations. A PDF document of the end matter published in Volume II (Endnotes, Bibliography, Index, et al.) can be downloaded for free from the book's website to make Volume I a self-standing book.

Mayan daykeeper Hunbatz Men reveals the multi-calendar system of the Maya that guided the lives of his ancestors and how it can guide us today - The first book to reveal the secrets of the Mayan Pleiades calendar: the Tzek'eb - Explains how the Maya used their astronomical knowledge to guide their lives on Earth The Mayan Calendar has taken on special prominence with the imminent arrival of 2012, a date that many claim is the end of that calendar. However, as Mayan elder and daykeeper Hunbatz Men shows, the cosmological understanding of his ancestors was so sophisticated that they had not one, but many calendars, each based on the cycles of different systems in the cosmos. In this book he reveals for the first time the Tzek'eb, or Pleiades, Calendar of 26,000 years, which charts the revolution of our solar system around Alcyone, the central star of the Pleiades system. He also discusses the K'uuk'ulcan Calendar of the 4 seasons of the solar year and the wheel of the K'altunes Calendar, which is composed of 13 cycles of 20 years each that form a calendar of 260 years. In traditional Mayan culture the computation of time was not determined by simple economic or social motives. The calendars served the higher purpose of synchronizing the lives of human beings and their societies to the great cosmic pulsation, to the rhythm of the annual seasons, and to the other cycles that dictate changes upon Earth. Mayan understanding of the cosmic cycles was so exact that this knowledge could be used to influence all stages of life--from planning when to conceive (parents could choose not only the sex of their child but its vocation and future destiny) to plotting out the course of the entire society. Pyramids played a crucial role in applying this wisdom because, as Hunbatz Men shows, they were able to produce and transform energy in accordance with the cosmic cycles charted by the calendars. This book reveals for the first time the wisdom of the multi-calendar Mayan system and how it can help guide our modern world.

Tranceformers: Shamans of the 21st Century is the true story of this author's contact with a "dead" optics physicist colleague and the telepathic communication that sent him searching for scientific answers to his spiritual questions. Harper draws from this deep well of wisdom: astrology, biology, near-death experiences, paranormal psychology, quantum physics as well as Egyptian and Mayan cosmology overall. He does an excellent job of synthesizing massive amounts of information, making this shift of the ages comprehensible to the general reader. Clearly this is a necessary primer to understand the coming apocalypse of biblical proportions in consciousness, climate, culture, and civilization. However, the theme of this book is that by learning to use trance- the techniques employed by mystics, prophets, and shamans- one can unlock the mysteries of existence for themselves. Indeed this is the big idea behind the Eternal Return of the Sun of God in 2012: Self-Empowerment.

- **Bestselling author Barbara Hand Clow examines legendary cataclysms and shows how we are about to overcome the collective fear they have instilled in us.**
- **The long-awaited follow-up that continues the revelations begun in The Pleiadian Agenda, which has sold more than 60,000 copies.**
- **Explains why, contrary to many prophets of doom, we are actually on the cusp of an era of incredible creative growth. The recent discovery of the remains of ancient villages buried beneath the Black Sea is the latest instance of mounting evidence that many of the "mythic" catastrophes of history--the fall of Atlantis, the Biblical Flood--were actual events. In Catastrophobia Barbara Hand Clow shows that a series of cataclysmic disasters, caused by a massive disturbance in the Earth's crust 11,500 years ago, rocked the world and left humanity's collective psyche permanently scarred. We are a wounded species, and this unprocessed fear, passed from generation to generation, is responsible for our constant expectations of apocalypse, from Y2K to the famed end of the Mayan calendar in 2012. Catastrophobia reveals the insidious global forces that have used these collective fears to control humanity for**

thousands of years. But we are in the midst of a tremendous shift in the Earth's 26,000-year precessional cycle, and there is every indication that the changes in consciousness over the last 30 years are the beginnings of a collective healing from these deep fears, heralding a new age where we will see that the era of cataclysms is ending and a time of extraordinary creative activity is at hand.

The Truth Agenda explores some of the most famous unexplained mysteries and global cover-ups of recent history. What is the truth about UFOs, pyramids, religious apparitions, psychic phenomena, visions of the future and ancient prophecies, and what is their connection to famous conspiracy theories concerning the Moon landings, 9/11, the New World Order, and claims that the planet is secretly run by a powerful ruling elite? Leading mysteries researcher Andy Thomas pulls the many threads together in an accessible, stimulating and credible overview which suggests that our world may be very different from the picture presented by the establishment. The Truth Agenda shows how we can avoid control manipulations and help to create a more positive future. Why do so many people believe in conspiracy theories, and what is the evidence to support them? What is the basis for the wide belief that we are now in a 'New Era' of massive change and consciousness shift? Why is there such huge but officially undeclared interest in paranormal phenomena from authorities and religions? How does all this tie together and explain the agendas of control and surveillance in the West, and what can we do?

Challenges the scientific theories on the establishment of civilization and technology • Contains 42 essays by 17 key thinkers in the fields of alternative science and history, including Christopher Dunn, Frank Joseph, Will Hart, Rand Flem-Ath, and Moira Timmes • Edited by Atlantis Rising publisher, J. Douglas Kenyon In Forbidden History writer and editor J. Douglas Kenyon has chosen 42 essays that have appeared in the bimonthly journal Atlantis Rising to provide readers with an overview of the core positions of key thinkers in the field of ancient mysteries and alternative history. The 17 contributors include among others, Rand Flem-Ath, Frank Joseph, Christopher Dunn, and Will Hart, all of whom challenge the scientific establishment to reexamine its underlying premises in understanding ancient civilizations and open up to the possibility of meaningful debate around alternative theories of humanity's true past. Each of the essays builds upon the work of the other contributors. Kenyon has carefully crafted his vision and selected writings in six areas: Darwinism Under Fire, Earth Changes--Sudden or Gradual, Civilization's Greater Antiquity, Ancestors from Space, Ancient High Tech, and The Search

for Lost Origins. He explores the most current ideas in the Atlantis debate, the origins of the Pyramids, and many other controversial themes. The book serves as an excellent introduction to hitherto suppressed and alternative accounts of history as contributors raise questions about the origins of civilization and humanity, catastrophism, and ancient technology. The collection also includes several articles that introduce, compare, contrast, and complement the theories of other notable authors in these fields, such as Zecharia Sitchin, Paul LaViolette, John Michell, and John Anthony West.

A guide to the expansion of consciousness possible during the Galactic Alignment of 2012 • Reveals the new era that will be ushered in as the current perception of time collapses and spiritual perception expands • Explains the psycho-spiritual preparations necessary to transition into this new era • Shows how the alignment of the sun with the Galactic Center will allow humans to experience awareness normally reserved for shamans, pharaohs, and sages This is an extraordinary time in the planet's history. In 2012, for the first time in almost 26,000 years, our sun will be most closely aligned to the Galactic Center. This Galactic Alignment, which began with the Harmonic Convergence in 1987 and will conclude in 2023, presents a thirty-six-year window of opportunity for humanity to participate in the creation of a new era of expanded consciousness. Christine Page explains that, as the source of all creation, our galaxy is the Great Mother and its center, her heart. Auspiciously aligning Earth with the heart of the Great Mother, the Galactic Alignment heralds a rebirth of the divine feminine qualities of the Triple Goddess--intuition, emotional creativity, and renewal. Drawing on alchemy and mythology, Page details how to connect with and use the sacred spiritual tools unlocked during the alignment to merge with the Great Mother, a spiritual transformation that allows us to expand our awareness and experience ourselves as eternal beings.

An illustrated, encyclopedic overview of the prophecies, calendars, and theories that indicate the year 2012 is a threshold of great change for humanity • Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 • Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end. Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed. What is certain, however, is that a rare galactic alignment will occur, one so unique that it is found at the core of many wisdom traditions from around the globe. Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982. Far from confining his research to the Maya, who provide the most prominent predictions indicating this date will herald significant changes for

humanity, he has studied the prophetic traditions of other cultures--including the Tibetan, Chinese, Jewish, Ethiopian, and tribal cultures from around the globe--to show the kind of convergence of cosmic purposes happening along a number of parallel tracks. This book offers an extensive study of many modern theories, including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles. Sifting through all the scientific research and speculation that the year 2012 has inspired, Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date. A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time. • Reveals September 11 as the signal of the end of artificial time according to the Law of Time. • Long awaited sequel to the author's bestselling book The Mayan Factor. • Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity. In Time and the Technosphere, José Argüelles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live. Argüelles defines the actual nature of time as the frequency of synchronization. Applying this Law of Time to an understanding of the entire system of life on Earth, he shows that in order to not destroy Earth's ability to sustain life, we must change our definition of time and adopt a natural harmonic calendar based on the 13-moon 28-day cycle. Until the creation of the Gregorian calendar and the 60-minute hour, most of humanity lived by the 28-day cycle of natural time. The adoption of artificial time has subjected us to a 12:60 time frequency that governs the entire global industrialized civilization--the technosphere. With the collapse of the Twin Towers on September 11, a fissure was created in this artificial technosphere, opening up the noosphere (Earth's mental envelope). Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that will repair the damages caused by the irregular tempo of technospheric time. Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004, a new discovery based on the author's mathematical research into the Mayan calendar first begun in his landmark work The Mayan Factor. In Time and the Technosphere, Argüelles reveals the clear distinction between third-dimensional astronomical time and the fourth-dimensional synchronic order of the Law of Time, which holds enormous potential for the future of humanity.

21 December 2012 was believed to mark the end of the thirteenth B'ak'tun cycle in the Long Count of the Mayan calendar. Many people believed this date to mark the end of the world or, at the very least, a shift to a new form of global consciousness. Examining how much of the phenomenon is based on the historical record and how much is contemporary fiction, the book explores the landscape of the modern apocalyptic imagination, the economics of the spiritual marketplace, the commodification of countercultural values, and the cult of celebrity.

companion book to the Xultun Tarot Classic Edition. It explores the archetypes and alchemy of the major arcana of the Xultun Tarot through indigenous teachings and the analytical psychology of C G Jung and casts new light on the meaning of 2012. The Xultun Tarot was created by Peter Balin in 1976 based on images from Maya history and culture. Taken from a single painting, it is the only tarot deck where the major arcana form a complete picture. This picture is a symbolic image of the alchemical marriage of spirit and matter and a map of what Jung called the individuation process. Only 500 copies of the original Xultun Tarot were ever printed. Now Kahurangi Press (xultun.com) has recreated this classic, long out-of-print deck true to its original large size and vibrant colours together with a book that explains the profound symbolism of the cards. December 21, 2012. The Internet, bookshelves, and movie theaters are full of prophecies, theories, and predictions that this date marks the end of the world, or at least the end of the world as we know it. Whether the end will result from the magnetic realignment of the north and south poles, bringing floods, earthquakes, death, and destruction; or from the return of alien caretakers to enlighten or enslave us; or from a global awakening, a sudden evolution of Homo sapiens into non-corporeal beings - theories of great, impending changes abound. In *The End of Time*, award-winning astronomer and Maya researcher Anthony Aveni explores these theories, explains their origins, and measures them objectively against evidence unearthed by Maya archaeologists, iconographers, and epigraphers. He probes the latest information astronomers and earth scientists have gathered on the likelihood of Armageddon and the oft-proposed link between the Maya Long Count cycle and the precession of the equinoxes. He then expands on these prophecies to include the broader context of how other cultures, ancient and modern, thought about the "end of things" and speculates on why cataclysmic events in human history have such a strong appeal within American pop culture.

Will life on earth really come crashing to a halt on December 21, 2012? Will solar storms trigger devastating

earthquakes and volcanoes that obliterate humankind? Will a large-scale science experiment go awry, destroying our civilization? Is Earth on a collision course with an obscure planet? Will any of these events herald the end of the world? Dr. Raymond C. Hundley analyzes the predictions of the ten most prominent apocalyptic theories in the 2012 doomsday movement. He investigates the claims of scientists, theologians, mathematicians, technologists, and ancient prophets along with the credibility and probability of each theory. The 2012 predictions of the Mayan calendar are considered alongside the parallel calculations of 16th century astrologer Nostradamus. Dr. Hundley takes a close look at the speculation originating everywhere, from evangelical Christianity to secular academia. Will the World End in 2012? Dr. Hundley's conclusion may be what you least expect. He challenges Christians to respond to these predictions not with fear, but with hope and joy. For believers and nonbelievers alike, Hundley's logical evaluation of Earth's potential demise provides a fascinating road map of where our civilization could be heading and how we can prepare our hearts and minds for what lies ahead.

The expanded companion book to the #1 documentary film about 2012! The 2012 meme has evolved beyond any debates about the relevance of the Maya Long Count calendar to the lives of contemporary human beings. 2012 is about us on planet Earth at this time. December 21, 2012: will the world really change forever on this date, the end of a 5,125-year calendar last used over a thousand years ago? Certainly Hollywood would like you to think so. Indeed, a not-so-small industry has arisen around the date, hawking everything from t-shirts to teleseminars. Clearing a path between fantasy and reality, Alexandra Bruce surveys the entire 2012 landscape, asking questions such as: Is the Earth losing its Mojo? How did 2012 come to mean "The End of Time"? Did psychedelics facilitate the Maya "Cosmvision"? Should we worry about Earth Crustal Displacement? What the hell is "Planet X"? Uniquely amongst a vast array of 2012 literature, this book features interviews with the leading experts—including Graham Hancock, John Major Jenkins, Daniel Pinchbeck and many others—and insightful, detailed analysis of the broad spectrum of opinion, debate, research and myth regarding the most compelling "end times" prediction of the

This is a stimulating and controversial book about the many signs that extra-terrestrial gods have intervened in the evolution and civilization of man. Contrary to the monotheistic and other-worldly theologies prevailing in the Judeo-Christian-Moslem traditions, the author develops his radical theology based on historical records about gods from many ancient cultures, including the Hebrews, Sumerians, Egyptians and Mayans. Pervasive historical records say that many ancient gods from the sky have descended to earth to bring divine kingship and civilization to man. They taught humans about bronze, the wheel and writing. Anu, a high god of the Sumerians, lives on Nibiru, a planet that approaches earth every 3600 years. Enki, the oldest son of Anu, taught the Sumerians an advanced numerical system based on 60. Ahura-Mazda, the high god of Zoroaster said he would return in 3000 years. The most prophetic of Native American cultures is the Mayan, which predicted that the fifth age of Man started on 3114 BC and will end on 2012 AD. Their high god Kukulcan/Quetzalcoatl left a sign on the famous Kukulcan Pyramid and Chichen-Itza, where the serpent gods descends to earth twice a year.

This book is about the possibilities of transforming life from doing to being; the shift of fear to courage, sadness to joy, anger to love, illness to wellness. The basics require you to BE authentic to self, while learning that each person you meet is a mirror reflecting an answer necessary to live life. A symptom can be simple, such as a cold, or as complex as cancer. It is brought on as a message to self that you are no longer living your life. Each symptom is related to a trapped emotional feeling stored in an organ or gland. Low worth enables the emotional feeling to stay in the body, which affects the Energy Field that surrounds us and thus no longer protects us. The Soul has sent a message; first intuitively, second as an illness and finally as a disease. You have the ability to heal naturally as you connect, resolve, forgive and clear the past to become present. Let the Spirit (mind) be the wind beneath your wings, and choose the Soul (heart) as your internal mapping system.

It's the year 2011. According to the Mayan calendar, December 21, 2012, is the date for the end of civilization on Earth. And with the world in political and environmental crisis due to terrorism, war, and natural catastrophes, that date of doom seems more and more plausible. Trend analyst Tyler Moore has already had a taste of earthly devastation from the Southern California earthquake of 2010 that forced him to relocate his company to Arizona. But when his old college roommate, the current U.S. vice president, asks for his help in analyzing the credibility of the Mayan date, Tyler begins to realize just how fragile a grip humanity has on the world. With the help of ancient-civilizations enthusiast Kate Ryan, Tyler plunges into a terrifying reality involving cataclysmic prophecies and international panic—a reality that could quite literally mean the end of the human race. www.authorjkscott.com

prophesy and New Age higher consciousness. • Selected by the Independent Publisher's Book Awards as one of the top two New Age books of the year. • Explores ancient prophecies and their relevance in the contemporary world. The Incan and Mayan cultures saw themselves as "children of light"--descended from celestial realms--and their prophecies foretell a time of great spiritual awakening. They prophesied a time when the gateways to higher consciousness would open once again. That time is now. Award-winning author Judith Bluestone Polich draws on her extensive research in quantum physics, archeoastronomy, holography, cosmology, and pioneering studies of human consciousness to show how science and contemporary thought are consistent with this ancient knowledge. As the ancients predicted, the human god-seed is beginning to awaken, and modern civilization is finally beginning to perceive human potential in ways that the ancient cultures accepted as truth. Polich introduces techniques for awakening our own human potential through dreaming, meditations, and the power of sacred sites.

Presents an analysis of doomsday prophecies about 2012 while refuting common myths and explaining what hysteria-based interpretations of the end of the Mayan calendar reveal about today's world.

While researching the 2012 end-date of the Maya Calendar, John Major Jenkins decoded the Maya's galactic cosmology. The Maya discovered that the periodic alignment of the Sun with the center of the Milky Way galaxy is the formative influence on human evolution. These alignments also define a series of World Ages. The fourth age ends on December 21, 2012, when an epoch chapter in human history will come to an end. Maya Cosmogenesis 2012 reveals the Maya's insight into the cyclic nature of time, and prepares us for our own cosmogenesis--the birth of a new world.

For the Earth to move to the next vibration, says Richard Grossinger, consciousness must change in profound ways, and these involve core elements of humanity: evil, grief, bliss, and compassion. 2013 locates these elements in often unlikely places and seeks their nature and capacity for change. With playfulness and precision, 2013 tackles the questions of creation and existence in their twenty-first-century incarnation. In these intellectual field notes, the author's absorbing style combines memoir with scientific deconstruction, metaphysical ontology, and experimental prose that recalls the Black Mountain school to draw transcendental insight from the ephemeral space-time we call daily life. Moving with equal ease between matters cosmic and earthly, Grossinger details existence as an exhilarating adventure always pushing us toward a higher state in this wide-ranging, humorous, and heartfelt book. Including an informal course in psychic development, 2013 sheds light on the ephemera of planets and iPods, politics and Zen, Buddy Holly and road trips in

its study of the elements of psychic development that could transform humankind and the Earth.

Identifying the Mayan World Tree with the central axis of the cosmos, the author shows how evolution is not random • Shows how the evolution of the universe emanates from the cosmic Tree of Life • Explains the origin and evolution of biological life and consciousness and how this is directed Using recent findings within cosmology, coupled with his broad understanding of the Mayan Calendar, biologist Carl Johan Calleman offers a revolutionary and fully developed alternative to Darwin ' s theory of biological evolution--and the theory of randomness that holds sway over modern science. He shows how the recently discovered central axis of the universe correlates with the Tree of Life of the ancients. This provides an entirely new context for physics in general and especially for the origin and evolution of life and suggests that we look upon ourselves as parts of a hierarchy of systems that are all interrelated and evolve in a synchronized way. Calleman ' s research demonstrates that life did not just accidentally “ pop up ” on our planet, but that Earth was a place specifically tagged for this. He demonstrates how the Mayan Calendar describes different quantum states of the Tree of Life and presents a new explanation for the origin and evolution of consciousness. Calleman uses his scientific background in biology and cosmology to show that the idea of the Purposeful Universe is real. He explains not only how DNA but also entire organisms have emerged in the image of the Tree of Life, a theory that has wide-ranging consequences not only for medicine but also for the origin of sacred geometry and the human soul. With this new theory of biological evolution the divide between science and religion disappears.

This work explains how Plains Indians used handsigns as symbols for communication, and that the graphic signs derived from hand gestures played an important role in the development of writing. The author deciphers Maya inscriptions to reveal their hidden messages.
