Men On Strike Why Are Boycotting Marriage Fatherhood And The American Dream It Matters Helen Smith

On June 2, 1916, forty mostly immigrant mineworkers at the St. James Mine in Aurora, Minnesota, walked off the job. This seemingly small labor disturbance would mushroom into one of the region's, if not the nation's, most contentious and significant battles between organized labor and management in the early twentieth century. Flames of Discontent tells the story of this pivotal moment and what it meant for workers and immigrants, mining and labor relations in Minnesota and beyond. Drawing on previously untapped accounts from immigrant press newspapers, company letters, personal journals, and oral histories, historian Gary Kaunonen gives voice to the strike's organizers and working-class participants. In depth and in dramatic detail, his book describes the events leading up to the strike, and the violence that made it one of the most contentious in Minnesota history. Against the background of the physical and cultural landscape of Minnesota's Iron Range, Kaunonen's history brings the lives of working-class Finnish immigrants into sharp relief, documenting the conditions and circumstances behind the emergence of leftist politics and union organization in their ranks. At the same time, it shows how the region's South Slavic immigrants went from "scabs" during a 1907 strike to full-fledged striking members of the labor revolt of 1916. A look at the media of the time reveals how the three main contenders for working-class allegiances-mine owners, Progressive reformers, and a revolutionary union-communicated with their mostly immigrant audience. Meanwhile, documents from mining company officials provide a strong argument for corruption reaching as far as the state's then governor, Joseph A. A. Burnquist, whose strike-busting was undertaken in the interests of billion dollar corporations. Ultimately, anti-syndicalist laws were put in place to thwart the growing influence of organizations that sought to represent immigrant workers. Flames of Discontent raises the voices of those workers, and of history, against an injustice that reverberates to this day.

An unsettling cold case investigation ensuares Cormoran Strike and his partner in a web of dangerous secrets in this #1 New York Times bestseller, the inspiration for HBO Max's acclaimed series C.B. Strike. When a troubled young man named Billy asks Cormoran Strike to help him investigate a crime he witnessed as a child, the private eye is left deeply troubled. While Billy is obviously mentally distressed and cannot remember many concrete details, there is something sincere about him and his story. But before Strike can question him further, Billy bolts from his office in a panic. Trying to get to the bottom of Billy's story, Strike and Robin Ellacott -- once his assistant, now a partner in the agency -- set off on a twisting trail that leads them through the backstreets of London, into a secretive inner sanctum within Parliament, and to a beautiful but sinister manor house deep in the countryside. And during this labyrinthine investigation, Strike's own life is far from straightforward. His newfound fame as a private eye means he can no longer operate behind the scenes as he once did. Plus, his relationship with his former assistant is more fraught than it ever has been; Robin is now invaluable to Strike in the business, but their personal relationship is much, much trickier than that. The most epic Robert Galbraith novel yet, Lethal White is "addictive, murderous fun" for British mystery lovers and crime fiction fans alike (Vox).

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

In the epic fifth installment in this "compulsively readable" (People) series, Galbraith's "irresistible hero and heroine" (USA Today) take on the decades-old cold case of a missing doctor, one which may be their grisliest yet. Private Detective Cormoran Strike is visiting his family in Cornwall when he is approached by a woman asking for help finding her mother, Margot Bamborough-who went missing in mysterious circumstances in 1974. Strike has never tackled a cold case before, let alone one forty years old. But despite the slim chance of success, he is intrigued and takes it on; adding to the long list of cases that he and his partner in the agency, Robin Ellacott, are currently working on. And Robin herself is also juggling a messy divorce and unwanted male attention, as well as battling her own feelings about Strike. As Strike and Robin investigate Margot's disappearance, they come up against a fiendishly complex case with leads that include tarot cards, a psychopathic serial killer and witnesses who cannot all be trusted. And they learn that even cases decades old can prove to be deadly . . .

Can a Dead Man Strike Out?

Men on Strike

An Untold Story of the H-block Hunger Strike

An updated and revised edition of the controversial classic-now more relevant than ever--argues that boys are the ones languishing socially and academically, resulting in staggering social and economic costs. Girls and women were once second-class citizens in the nation's schools. Americans responded with concerted efforts to give girls and women the attention and assistance that was long overdue. Now, after two major waves of feminism and decades of policy reform, women have made massive strides in education. Today they outperform men in nearly every measure of social, academic, and vocational well-being. Christina Hoff Sommers contends that it's time to take a hard look at present-day realities and recognize that boys need help. Called "provocative and controversial . . . impassioned and articulate" ("The Christian Science M"onitor), this edition of "The War Against Boys" offers a new preface and six radically revised chapters, plus updates on the current status of boys throughout the book. Sommers argues that the problem of male underachievement is persistent and worsening. Among the new topics Sommers tackles: how the war against boys is harming our economic future, and how boy-averse trends such as the decline of recess and zero-tolerance disciplinary policies have turned our schools into hostile environments for boys. As our schools become more feelings-centered, risk-averse, competition-free, and sedentary, they move further and further from the characteristic needs of boys. She offers realistic, achievable solutions to these problems that include boy-friendly pedagogy, character and vocational education, and the choice of single-sex classrooms. "The War Against Boys" is an incisive, rigorous, and heartfelt argument in favor of recognizing and confronting a new reality: boys are languishing in education and the price of continued neglect is economically and socially prohibitive.

Since its original landmark publication in 1980, A People's History of the United States has been chronicling American history taught in schools -- with its emphasis on great men in high places -- to focus on the street, the home, and the, workplace. Known for its lively, clear prose as well as its scholarly research, A People's History is the only volume to tell America's women, factory workers, African-Americans, Native Americans, the working poor, and immigrant laborers. As historian Howard Zinn shows, many of our country's greatest battles -- the fights for a fair wage, an eight-hour workday, child-labor laws, health and safety standards, universal suffrage, women's rights, racial equality -- were carried out at the grassroots level, against bloody resistance. Covering Christopher Columbus's arrival through President Clinton's first term, A People's History of the United States, which was nominated for the American Book Award in 1981, features insightful analysis of the most important events in our history. Revised, updated, and featuring a new after, word by the author, this special twentieth anniversary edition continues Zinn's important contribution to a complete and balanced understanding of American history.

American society has become anti-male. Men are sensing the backlash and are consciously and unconsciously going "on strike." They are dropping out of college, leaving the workforce and avoiding marriage and fatherhood at alarming rates. The trend is so pronounced that a number of books have been written about this "manchild" phenomenon, concluding that men have taken a vacation from responsibility simply because they can. But why should men participate in a system that seems to be increasingly stacked against them? As Men on Strike demonstrates, men aren't dropping out because they are stuck in arrested development. They are instead acting rationally in response to the lack of incentives society offers them to be responsible fathers, husbands and providers. In addition, men are going on strike, either consciously, because they do not want to be injured by the myriad of laws, attitudes and hostility against them for the crime of happening to be male in the twenty-first century. Men are starting to fight back against the backlash. Men on Strike explains their battle cry.

"A scorching memoir of a love affair with an addict, weaving personal reckoning with psychology and history to understand the nature of addiction," Nina Renata Aron writes of her boyfriend, K. "The disease I have is loving him." Their love affair is dramatic, urgent, overwhelming-an intoxicating antidote to the long, lonely days of early motherhood. Soon after they get together, K starts using again, and years of relapses and broken promises follow. Even as his addiction deepens, she stays, convinced she is the one who can get him sober. After an adolescence marred by family trauma and addiction, Nina can't help but feel responsible for those suffering around her. How can she break this pattern? If she leaves K, has she failed him? Writing in prose at once unflinching and acrobatic, Aron delivers a piercing memoir of romance and addiction, drawing on intimate anecdotes as well as academic research to crack open the long-feminized and overlooked phenomenon of codependency. She shifts between visceral, ferocious accounts of the part she plays in his addictions, as well as defining moments in the history of codependency, from the temperance movement to the formation of Al-Anon to more recent research in the psychology of addiction. Good Morning, Destroyer of Men's Souls is a blazing, bighearted book that illuminates and adds nuance to the messy tethers between femininity, enabling, and love"--Why Men Are Boycotting Marriage, Fatherhood, and the American Dream - and Why It Matters

Career of Evil

It Was Never about Equality The Sanitation Strike of 1968

Memphis, Martin, and the Mountaintop

Robert Koehler's The Strike

On Strike Against God

•We are undertaking the most tremendous move ever made by LABOR in this country, a move which will lead NO ONE KNOWS WHERE! With these words echoing throughout the city, on February 6, 1919, 65,000 Seattle workers began one of the most important general strikes in US history. For six tense yet nonviolent days, the Central Labor Council negotiated with federal and local authorities on behalf of the shippard workers whose grievances initiated the citywide walkout. Meanwhile, strikers organized to provide essential services such as delivering supplies to hospitals and markets, as well as feeding thousands at union-run dining facilities. Robert L. Friedheim scount of the dramatic events of 1919, first published in 1964 and now enhanced with a new introduction, afterword, and photo essay by James N. Gregory, vividly details what happened and why. Overturning conventional understandings of the American Federation of Labor as a conservative labor organization devoted to pure and simple unionism, Friedheim shows the influence of socialists and the IWW in the city slabor movement. While Seattless strike ended in disappointment, it led to massive strikes across the country that determined the direction of labor, capital, and government for decades. The Seattle General Strike is an exciting portrait of a Seattle long gone and of events that shaped the city s reputation for left-leaning activism into the twenty-first century.

Every work of art has a story behind it. In 1886 the German American artist Robert Koehler painted a dramatic wide-angle depiction of an imagined confrontation between factory workers and their employer. He called this oil painting The Strike. It has had a long and tumultuous international history as a symbol of class struggle and the cause of workers' rights. First exhibited just days before the tragic Chicago Haymarket riot, The Strike became an inspiration for the labor movement. In the midst of the campaign for an eight-hour workday, it gained international attention at expositions in Paris, Munich, and the 1893 Chicago World's Fair. Though the painting fell into obscurity for decades in the early twentieth century, The Strike lived on in wood-engraved reproductions in labor publications. Its purchase, restoration, and exhibition by New Left activist Lee Baxandall in the early 1970s launched it to international fame once more, and collectors and galleries around the world scrambled to acquire it. It is now housed in the Deutsches Historisches Museum in Berlin, Germany. Art historian James M. Dennis has crafted a compelling "biography" of Koehler's painting: its exhibitions, acclaim, neglect, and rediscovery. He introduces its German-born creator and politically diverse audiences and traces the painting's acceptance and rejection through the years, exploring how class and sociopolitical movements affected its reception. Dennis considers the significance of key figures in the painting, such as the woman asserting her presence in the center of action. He compellingly explains why The Strike has earned its identity as the iconic painting of the industrial labor movement.

Rare stories and offbeat scenarios from every period in the history of baseball can be found in this collection of fascinating vignettes and trivia that answers such question as "Can a pitcher have more shutouts than wins?" or "Who was the first outfielder to throw out three batters at home plate in one game?" Original.

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, THE COMMANDING HEIGHTS shows how a revolution in ideas is transforming the world economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as #1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. Peril is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with Fear and Rage. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days.

Work on the miners' Lock-Out of 1926 tends to focus on the perspective of the National Union of Mineworkers, while nothing has been written which attempts to examine, for example, how miner's wives coped for six months without pay. "The Women and Men of 1926" investigates the Lock-Out from the perspective of gender relations, offering a social history of the mining communities in south Wales during the Lock-Out. Sue Bruley aims to analyse how individual families and households coped with the Lock-Out and to assess how gender relations were affected, using hitherto unpublished oral testimony as well as other archive material. Individual chapters consider topics such as school canteens, miners' lodges, recreational activities, picketing and politics. A portrait of strife-torn Northern Ireland chronicles the events that occurred when jailed IRA members demanded to be recognized as political prisoners in 1981, events that saw ten men starve themselves

The National Book Critics Circle Award-winning author delivers a collection of essays that serve as the perfect "antidote to mansplaining" (The Stranger). In her comic, scathing essay "Men Explain Things to Me," Rebecca Solnit took on what often goes wrong in conversations bet men who wrongly assume they know things and wrongly assume women don't, about why this arises, and how this aspect of the gender wars works, airing some of her own hilariously awful encounters. She ends on a serious note—because the ultimate problem is the silencing including those saying things like, "He's trying to kill me!" This book features that now-classic essay with six perfect complements, including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not known and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not known and ambiguity, a highly original including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not known and ambiguity, a highly original writer Virginia Woolf's embrace of mystery, and ambiguity with the condition of the great feminist writer Virginia Woolf's embrace of mystery with the condition of the great writer Virginia Woolf's embrace of the condition of the great writer Virginia Woolf with the condition of the great writer Virginia Woo terrifying survey of the scope of contemporary violence against women. "In this series of personal but unsentimental essays, Solnit gives succinct shorthand to a familiar female experience that before had gone unarticulated, perhaps even unrecognized." —The New York Times "Es Republic "This slim book hums with power and wit." —Boston Globe "Solnit tackles big themes of gender and power in these accessible essays. Honest and full of wit, this is an integral read that furthers the conversation on feminism and contemporary society." —San Francisco C "Feminist, frequently funny, unflinchingly honest and often scathing in its conclusions." —Salon

A stirring account of the labor movement's action against child labor abuses chronicles strikes led by children from 1836 to 1912, offering authentic newspaper photographs and an absorbing discussion of the development of child labor laws.

When cowboys were workers and battled their bosses In the pantheon of American icons, the cowboy embodies the traits of "rugged individualism," independent, solitary, and stoical. In reality, cowboys were grossly exploited and underpaid seasonal workers, who responded to the militant strikes. Their resistance arose from the rise and demise of a "beef bonanza" that attracted international capital. Business interests approached the market with the expectation that it would have the same freedom to brutally impose its will as it had exercised on native process. Americans. These assumptions contributed to a series of bitter and violent "range wars," which broke out from Texas to Montana and framed the appearance of labor conflicts in the region. These social tensions stirred a series of political insurgencies that became virtually ender Age. Mark A. Lause explores the relationship between these neglected labor conflicts, the "range wars," and the third-party movements. The Great Cowboy Strike subverts American mythology to reveal the class abuses and inequalities that have blinded a nation to its true history #1 NEW YORK TIMES BESTSELLER • ONE OF TIME MAGAZINE'S 100 BEST YA BOOKS OF ALL TIME The extraordinary, beloved novel about the ability of books to feed the soul even in the darkest of times. Men Explain Things to Me

From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism. that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (The New Yorker), Bullshit Jobs gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).

"Kick bad mental habits and toughen yourself up."—Inc. Master your mental strength—revolutionary new strategies that work for everyone from homemakers to soldiers and teachers to CEOs. Everyone knows that regular exercise and weight training lead to physical strength. But how do we strengthen ourselves mentally for the truly tough times? And what should we do when we face these challenges? Or as psychotherapist Amy Morin asks, what should we avoid when we encounter adversity? Through her years counseling others and her own experiences navigating personal loss, Morin realized it is often the habits we cannot break that are holding us back from true success and happiness. Indulging in self-pity, agonizing over past events, resenting the achievements of others, or expecting immediate positive results holds us back. This list of things mentally strong people don't do resonated so much with readers that when it was picked up by Forbes.com it received ten million views. Now, for the first time, Morin expands upon the thirteen things from her viral post and shares her tried-and-true practices for increasing mental strength. Morin writes with searing honesty, incorporating anecdotes from her work as a college psychology instructor and psychotherapist as well as personal stories about how she bolstered her own mental strength when tragedy threatened to consume her. Increasing your mental strength can change your entire attitude. It takes practice and hard work, but with Morin's specific tips, exercises, and troubleshooting advice, it is possible to not only fortify your mental muscle but also drastically improve the quality of your life.

"One of the most important books to emerge from the Troubles, and definitely the most courageous."--The Sunday Times ***"Richard O'Rawe deserves praise for charging one of the most cynical leaderships anywhere in this island with manipulating the courage and determination of the hunger strikers."--The Guardian ***After the recent release of historical state and personal papers, Richard O'Rawe's courageous statements, ten years after Blanketmen's initial publication, stand vindicated. At the center of O'Rawe's book lies the disclosure that six of the ten H-Block hunger strikers starved themselves to death in vain, as an offer from the British Government was on the table that could have ended the strike after four of them had died. In this passionate and controversial book, O'Rawe reveals the rationale and motives behind the negotiations and strategy changes that eventually brought about the Peace Process. [Subject: Irish Studies, History, Politics]

If the American labor movement is to rise again, it will not be as a result of electing different politicians, the passage of legislation, or improved methods of union organizing. Rather, workers will need to rediscover the power of the strike. Not the ineffectual strike of today, where employees meekly sit on picket lines waiting for scabs to take their jobs, but the type of strike capable of grinding industries to a halt--the kind employed up until the 1960s. In Reviving the Strike, labor lawyer Joe Burns draws on economics, history and current analysis in arguing that the labor movement must redevelop an effective strike based on the now outlawed traditional labor tactics of stopping production and workplace-based solidarity. The book challenges the prevailing view that tactics such as organizing workers or amending labor law can save trade unionism in this country. Instead, Reviving the Strike offers a fundamentally different solution to the current labor crisis, showing how collective bargaining backed by a strike capable of inflicting economic harm upon an employer is the only way for workers to break free of the repressive system of labor control that has been imposed upon them by corporations and the government for the past seventy-five years

Data Bias in a World Designed for Men

"Kelly unearths the stories of the people-farm laborers, domestic workers, factory employees-behind some of labor movement's biggest successes." -The New York Times A revelatory and inclusive history of the American labor movement, from independent journalist and Teen Voque labor columnist Kim Kelly. Freed Black women organizing for protection in the Reconstruction-era South. Jewish immigrant garment workers braving deadly conditions for a sliver of independence. Asian American fieldworkers rejecting government-sanctioned indentured servitude across the Pacific. Incarcerated workers advocating for basic human rights and fair wages. The gueer Black labor leader who helped orchestrate America's civil rights movement. These are only some of the working-class heroes who propelled American labor's relentless push for fairness and equal protection under the law. The names and faces of countless silenced, misrepresented, or forgotten leaders have been erased by time as a privileged few decide which stories get cut from the final copy: those of women, people of color, LGBTQIA people, disabled people, sex workers, prisoners, and the poor. In this definitive and assiduously researched work of journalism, Teen Voque columnists and independent labor reporter Kim Kelly excavates that untold history and shows how the rights the American worker has today-the forty-hour workweek, workplace-safety standards, restrictions on child labor, protection from harassment and discrimination on the job-were earned with literal blood, sweat, and tears. Fight Like Hell comes at a time of economic reckoning in America. From Amazon's warehouses to Starbucks cafes, Appalachian coal mines to the sex workers of Portland's Stripper Strike, interest in organized labor is at a fever pitch not seen since the early 1960s. Inspirational, intersectional, and full of crucial lessons from the past, Fight Like Hell shows what is possible when the working class demands the dignity it has always deserved.

A disturbing package leads Detective Cormoran Strike and his assistant Robin Ellacott to investigate four dangerous murder suspects in this "magnetic" British mystery (Michiko Kakutani, New York Times) that inspired the acclaimed HBO Max series C.B. Strike. When Robin Ellacott opens an unexpected delivery, she is horrified to discover that it contains a woman's severed leg. Her boss, private detective Cormoran Strike, is less surprised but just as alarmed. He suspects that four people from his past could be responsible -- and any one of them is capable of sustained and unspeakable brutality. With the police focusing on the one suspect Strike has essentially ruled out, he and Robin take matters into their own hands and delve into the dark and twisted worlds of the other three men. But as more horrendous acts occur, time is running out for the two of them . . . Career of Evil is the third in J. K. Rowling's highly acclaimed series featuring private detective Cormoran Strike and his assistant Robin Ellacott. A fiendishly clever mystery with unexpected twists around every corner, Career of Evil is also a gripping story of a man and a woman at a crossroads in their personal and professional lives.

A young man has inherited a ranch-and a whole lot of trouble-in this Western in the New York Times bestselling series. In Colorado Territory, Smoke Jensen is trying to live at peace with the big, beautiful world around him. Then a tinhorn named Puddle enters his valley-and unleashes a hellstorm of a range war. Then the shooting started Malcolm Theodore Puddle is a twenty-one-year-old shipping clerk-from way back East. What is he doing out here? The Mountain Man's former neighbor, Humbolt Puddle, has died and left his crumbling six-hundred-acre ranch to his only living heir, just as a greedy and ruthless cattle baron is circling the Humbolt ranch like a ravenous vulture. Poor, unsuspecting Puddle is walking into a death trap. Smoke is the not the pitying kind. But any enemy of Smoke's neighbor is his enemy, too: Kill-crazy hired gunmen are threatening the whole valley and good men are dying. Puddle may not be much, but he's all Smoke has-as a take-no-prisoners mountain man and a timid tinhorn make for an army of two . . . in one hell of a fight.

Feminist ideology has seeped into every aspect of our society. This book is a sobering true story of tragedy, suicide, and murder directly caused by feminism. It not only chronicles true stories that show feminism's discrimination against men, it's backed by peer-reviewed research. Additionally, it includes investigative journalism was never about equality. The reality is that feminism doesn't just victimize men.

It also victimizes women, children, families, and communities.

Strike of the Mountain Man

How Working People Can Regain Power and Transform America

The Untold History of American Labor Chairs on Strike

An electrifying biography of one of the most extraordinary scientists of the twentieth century and the world he made. The smartphones in our pockets and computers like brains. The vagaries of game theory and evolutionary biology. Nuclear weapons and self-replicating spacecrafts. All bear the fingerprints of one remarkable, yet largely overlooked, man: John von Neumann. Born in Budapest at the turn of the century, von Neumann is one of the most influential scientists to have ever lived. A child prodigy, he mastered calculus by the age of eight, and in high school made lasting contributions to mathematics. In Germany, where he helped lay the foundations of quantum mechanics, and later at Princeton, von Neumann's colleagues believed he had the fastest brain on the planet—bar none. He was instrumental in the Manhattan Project and the design of the atom bomb; he helped formulate the bedrock of Cold War geopolitics and modern economic theory; he created the first ever programmable digital computer; he prophesized the potential of nanotechnology; and, from his deathbed, he expounded on the limits of brains and computers—and how they might be overcome. Taking us on an astonishing journey, Ananyo Bhattacharya explores how a combination of genius and unique historical circumstance allowed a single man to sweep through a stunningly diverse array of fields, sparking revolutions wherever he went. The Man from the Future is an insightful and thrilling intellectual biography of the visionary thinker who shaped our century.

An instant New York Times bestseller, this prequel to the acclaimed Cork O' Connor series is "a pitch perfect, richly imagined story that is both an edge-of-your-seat thriller and an evocative, emotionally charged coming-of-age tale" (Kristin Hannah, #1 New York Times bestselling author) about fathers and sons, small-town conflicts, and the events that shape our lives forever. Aurora is a small town nestled in the ancient forest alongside the shores of Minnesota 's Iron Lake. In the summer of 1963, it is the whole world to twelve-year-old Cork O' Connor, its rhythms as familiar as his own heartbeat. But when Cork stumbles upon the body of a man he revered hanging from a tree in an abandoned logging camp, it is the first in a series of events that will cause him to question everything he took for granted about his hometown, his family, and himself. Cork 's father, Liam O' Connor, is Aurora's sheriff and it is his job to confirm that the man 's death was the result of suicide, as all the evidence suggests. In the shadow of his father 's official investigation, Cork begins to look for answers on his own. Together, father and son face the ultimate test of choosing between what their heads tell them is true and what their hearts know is right. In this "brilliant achievement, and one every crime reader and writer needs to celebrate" (Louise Penny, #1 New York Times bestselling author), beloved novelist William Kent Krueger shows that some mysteries can be solved even as others surpass our

Demonstrates that society has become anti-male, and reveals why men are either consciously or unconsciously going on strike due to the laws, attitudes, and hostility against them for being male in the twenty-first century.

Data is fundamental to the modern world. From economic development, to healthcare, to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this bias, in time, money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates shocking root cause of gender inequality and research in Invisible Women † <, diving into women 's lives at home, the workplace, the public square, the doctor 's office, and more. Built on hundreds of studies in the US, the UK, and sparkling intelligence, this is a groundbreaking, unforgettable exposé that will change the way you look at

the world. **Bullshit Jobs**
