**Preparation for the Next-
Generation MCAS Tests for
2016-2017! This extensive skill-
building quiz book contains over
200 pages of quizzes targeting over
50 mathematics skills! Each quiz
focuses on one specific skill, with
questions progressing from simple
to more complex. Students will
develop a thorough understanding
of each skill, while also gaining
experience with all the types of
tasks found on the new Next-Gen
MCAS tests. Divided into
Convenient Topics - Covers every**

Success for All

pt. 1. Notes

This unique comprehensive curriculum encourages students to learn mathematics by doing mathematics, by using and connecting mathematical ideas, and by actively increasing their understanding. "MathScape: Seeing and Thinking Mathematically" was developed by Education Development Center, Inc. with funding from the National Science Foundation. It is one of four middle school mathematics programs to receive

a satisfactory rating from the American Association for the Advancement of Science (AAAS). Handy notebook with 64 pages of ruled paper for notes, phone numbers, addresses, more. On the cover: full-color reproduction of Renoir's delightful "Young Girls at the Piano" (1892).

of your own, this book helps you introduce your children to the "Aha!" factor--the thrill of conquering a tough challenge. True mathematical thinking involves the same creative reasoning that children use to solve puzzles. Your children will build a stronger foundation of understanding when you approach math as a family game, playing with ideas.

ideas fit together, and can be used to identify the strengths and weaknesses of your students' thought processes. Our graphic organizers are essential learning tools that will help your students construct meaning and understand what they are reading. They will help you observe your students' thinking process on what you read as a class, as a group, or independently, and can be used for assessment. They include: Story Maps, Plot Development, Character Webs, Predicting Outcomes, Inferencing, Foreshadowing, Characterization, Sequencing Maps, Cause-Effect Timelines, Themes, Story Summaries and Venn Diagrams.
