A schoolteacher who killed multiple paramours with cyanide; a mother who trained her daughters to kill children; a thug from the 1800s who slaughtered more than 900 people, a manservant who killed girls and devoured their body parts. If you thought serial killers was a Western phenomenon, think again! These bone-chilling stories in The Deadly Dozen will take you into the hearts and heads of India's most devious murderers and schemers, exploring what made them kill and why?

New York Times Bestseller: From the journalists who covered the story, the shocking crimes of Gary Ridgway, America ' s most prolific serial murderer. In the 1980s and 1990s, forty-nine women in the Seattle area were brutally murdered, their bodies dumped along the Green River and Pacific Highway South in Washington State. Despite an exhaustive investigation—even serial killer Ted Bundy was consulted to assist with psychological profiling—the sadistic killer continued to elude authorities for nearly twenty years. Then, in 2001, after mounting suspicion and with DNA evidence finally in hand, King County police charged a fifty-two-year-old truck painter, Gary Ridgway, with the murders. His confession and the horrific details of his crimes only added fuel to the notoriety of the Green River Killer. Journalists Carlton Smith and Tomas Guillen covered the murders for the Seattle Times from day one, receiving a Pulitzer Prize nomination for their work. They wrote the first edition of this book before the police had their man. Revised after Ridgway ' s conviction and featuring chilling photographs from the case, The Search for the Green River Killer is the ultimate authoritative account of the Pacific Northwest killing spree that held a nation spellbound—and continues to horrify and fascinate, spawning dramatizations and documentaries of a demented killer who seemed unstoppable for decades. Now a Netflix original series Discover the classic, behind-the-scenes chronicle of John E. Douglas ' twenty-five-year career in the FBI Investigative Support Unit, where he used psychological profiling to delve into the minds of the country ' s most notorious serial killers and criminals. In chilling detail, the legendary Mindhunter takes us behind the scenes of some of his most gruesome, fascinating, and challenging cases—and into the darkest recesses of our worst nightmares. During his twenty-five year career with the Investigative Support Unit, Special Agent John Douglas became a legendary figure in law enforcement, pursuing some of the most notorious and sadistic serial killers of our time: the man who hunted prostitutes for sport in the woods of Alaska, the Atlanta child murderer, and Seattle's Green River killer, the case that nearly cost Douglas his life. As the model for Jack Crawford in The Silence of the Lambs, Douglas has confronted, interviewed, and studied scores of serial killers and assassins, including Charles Manson, Ted Bundy, and Ed Gein, who dressed himself in his victims' peeled skin. Using his uncanny ability to become both predator and prey, Douglas examines each crime scene, reliving both the killer's and the victim's actions in his mind, creating their profiles, describing their habits, and predicting their next moves.

When his former boss, the director of the FBI, turns up dead, former profiler John Chase comes out of retirement to investigate and finds himself facing off against a ruthless and clever opponent.

*The Evil That Men Do* introduced readers to the lifework and the techniques of FBI profiler Roy Hazelwood. Now, in *Dark Dreams*, Hazelwood-- writing with bestselling author Stephen G. Michaud-- will take them deep into the minds of his prey, the world's most dangerous sexual criminals, and reveal the extent to which these individuals permeate our society. Profiler Roy Hazelwood is one of the world's leading experts on the strangest and most dangerous of all aberrant offenders-- the sexual criminal. In *Dark Dreams* he reveals the twisted motive and thinking that go into the most reprehensible crimes. He also catalogs the innovative and remarkably effective techniques-- investigative approaches that he helped pioneer at the FBI's Behavioral Science Unit-- that allow law enforcement agents to construct psychological profiles of the offenders who commit these crimes. Hazelwood has helped track down some of the most violent and well-known criminals in modern history; in *Dark Dreams* he takes readers into his world-- a sinister world inhabited by scores of dangerous offenders for every Roy Hazelwood who would put them behind bars: \* A young woman disappears from the convenience store where she works. Her skeletonized remains are found in a field, near a torture device. Who committed this heinous crime? And why? \* A teenager's body is found hanging in a storm sewer. His clothes are neatly folded by the entrance and a stopwatch is found in his mouth. They kidnap her and for seven years keep her as a sexual slave. The wife agreed to this inhuman arrangement in exchange for having a second child. Who was to blame? ### *Crime.*

*A dramatic and compelling true-crime psychological thriller This incredible story shows how John Douglas tracked and participated in the hunt for one of the most notorious serial killers in U.S. history. For 31 years a man who called himself BTK (Bind, Torture, Kill) terrorized the city of Wichita, Kansas, sexually assaulting and strangling a series of women, taunting the police with frequent communications, and bragging about his crimes to local newspapers and TV stations. After disappearing for nine years, he suddenly reappeared, complaining that no one was paying enough attention to him and claiming that he had committed other crimes for which he had not been given credit. When he was ultimately captured, BTK was shockingly revealed to be Dennis Rader, a 61-year-old married man with two children.*

*The FBI's pioneer of criminal profiling reflects on his forty-year career during which he pursued and studied such criminals as Charles Manson and David Berkowitz and devoted his time to helping the wrongfully convicted.*

*In the #1 New York Times bestseller Mindhunter, John Douglas, who headed the FBI's elite Investigative Support Unit, told the story of his brilliant and terrifying career tracking down some of the most heinous criminals in history. Now, in Journey into Darkness, Douglas profiles vicious serial killers, rapists, and child molesters. He is straightforward, blunt, often irreverent, and outspoken, but takes pains not to glorify any of these murderers. Some of the unique cases Douglas discusses include: -The Clairemont killer -The schoolgirl murders -Richmond's First Serial Murderer -The brutal and sadistic murder of Suzanne Marie Collins -Polly Klaas' abduction and murder by Richard Allen Davis, -The tragedy that led to the creation of Megan's Law With Journey into Darkness, Douglas provides more than a glimpse into the minds of serial killers; he demonstrates what a powerful weapon behavioral science has become. Profiling criminals helps not only to capture them, but also helps society understand how these predators work and what can be done to prevent them from striking again. Douglas focuses especially on pedophiles and child abductors, fully explaining what drives them, and how to keep children away from them. As he points out, "The best way to protect your children is to know your enemy." He includes eight rules for safety, a list of steps parents can take to prevent child abduction and exploitation, tips on how to detect sexual exploitation, basic rules of safety for children, and a chart, based on age, which details the safety skills children should have to protect themselves. In his review for Mindhunter in The New York Times Book Review, Dean Koontz said, "Because of his insights and the power of the material, he leaves us shaken, gripped by a quiet grief for the innocent victims and anguished by the human condition." Journey into Darkness continues this perilous trip into the psyche of the serial killer, but also offers a glimmer of hope that profiling may enable law enforcement to see the indicators of a serial killer's mind and intervene before he kills, or kills again. *Obsession*

In Obsession, John Douglas once again takes us fascinatingly behind the scenes, focusing his expertise on predatory crimes, primarily against women. With a deep sense of compassion for the victims and an uncanny understanding of the perpetrators, Douglas looks at the obsessions that lead to rape, stalking, and sexual murder through such cases as Ronnie Shelton, the serial rapist who terrorized Cleveland; and New York's notorious "Preppie Murder." But Douglas also looks at obsession on the other side of the moral spectrum: his own career-long obsession with hunting these predators. Douglas shows us how we can all fight back and protect ourselves, our families, and loved ones against the scourge of the violent predators in our midst. The first step is insight and understanding, and no one is better qualified to penetrate Obsession than John Douglas.

An argument that we have a moral duty to colonize other planets and solar systems, and a plan for doing so. Inevitably, life on Earth will come to an end, whether by climate disaster, or by cataclysmic war, or when the sun runs out of fuel in a few billion years. To avoid extinction, will we have to find a new home planet, perhaps even a new solar system, to inhabit? In this provocative and fascinating book, Christopher Mason argues that we have a moral duty to do just that. Because we are the only species aware that life on Earth has an expiration date, we have a responsibility to act as the shepherd of lifeforms--not only for our species but for all species on which we depend and for those still to come (by accidental or designed evolution). Mason argues that the same capacity for ingenuity that has enabled us to build rockets and land

on other planets can be applied to redesigning biology so that we can sustainably inhabit those planets. And he lays out a 500-year plan for undertaking the massively ambitious project of reengineering human genetics for life in other worlds.

Most of us think we know ourselves, and some of us actually do. Clive Mason was neither—he didn't care. Our protagonist, for he could hardly be called a hero, was one of the fortunate people; he loved what he did, did it well, and was successful. For him, it wasn't the money—though that helped—but the buzz he felt when he'd completed what he'd set out to do. Many experience a "Road to Damascus" moment in their lives, and Mason is one of those. Though those of us who have experienced it know it can come in many different forms.

THE #1 TRUE CRIME BESTSELLER. Serial killings, child abductions, organised crime hits and domestic murders. This is the memoir of a homicide detective.

WINNER OF 2021 DANGER PRIZE FOR NON-FICTION Here I am: tall and broad, shaved head, had my nose broken three times fighting. Black suit, white shirt, the big city homicide detective. I've led investigations into serial killings, child abductions, organised crime hits and domestic murders. But beneath the suit, I've got an Om symbol in the shape of a Buddha tattooed on my right bicep. It balances the tattoo on my left ribs: Better to die on your feet than live on your knees. That's how I choose to live my life. As a cop, I got paid to catch killers and I learned what doing it can cost you. It cost me marriages and friendships. It cost me my reputation. They tell you not to let a case get personal, but I think it has to. Each one has taken a piece out of me and added a piece, until there's only pieces. I catch killers - it's what I do. It's who I am. Gary Jubelin was one of Australia's most celebrated detectives, leading investigations into the disappearance of preschooler William Tyrrell, the serial killing of three Aboriginal children in Bowraville and the brutal gangland murder of Terry Falconer. During his 34-year career, Detective Chief Inspector Jubelin also ran the crime scene following the Lindt Cafe siege, investigated the death of Caroline Byrne and recovered the body of Matthew Leveson. Jubelin retired from the force in 2019. This is his story.

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

The Silence of the Lambs

The legendary FBI criminal profiler and international bestselling author of *Mindhunter* and *The Killer Across the Table* returns with this timely, relevant book that goes to the heart of extremism and domestic terrorism, examining in-depth his chilling pursuit of, and eventual prison confrontation with Joseph Paul Franklin, a White Nationalist serial killer and one of the most disturbing psychopaths he has ever encountered. Worshippers stream out of an Midwestern synagogue after sabbath services, unaware that only a hundred yards away, an expert marksman and avowed racist, antisemite and member of the Ku Klux Klan, patiently awaits, his hunting rifle at the ready. The October 8, 1977 shooting was a forerunner to the tragedies and divisiveness that plague us today. John Douglas, the FBI's pioneering, first full-time criminal profiler, hunted the shooter—a white supremacist named Joseph Paul Franklin, whose Nazi-inspired beliefs propelled a three-year reign of terror across the United States, targeting African Americans, Jews, and interracial couples. In addition, Franklin bombed the home of Jewish leader Morris Amitay, shot and paralyzed *Hustler* magazine publisher Larry Flynt, and seriously wounded civil rights leader Vernon Jordan. The fugitive supported his murderous spree robbing banks in five states, from Georgia to Ohio. Douglas and his writing partner Mark Olshaker return to this disturbing case that reached the highest levels of the Bureau, which was fearful Franklin would become a presidential assassin—and haunted him for years to come as the threat of copycat domestic terrorist killers increasingly became a reality. Detailing the dogged pursuit of Franklin that employed profiling, psychology and meticulous detective work, Douglas and Olshaker relate how the case was a make-or-break test for the still-experimental behavioral science unit and revealed a new type of, determined, mission-driven serial killer whose only motivation was hate. A riveting, cautionary tale rooted in history that continues to echo today, *The Killer's Shadow* is a terrifying and essential exploration of the criminal personality in the vile grip of extremism and what happens when rage-filled speech evolves into deadly action and hatred of the “other” is allowed full reign. *The Killer's Shadow* includes an 8-page color photo insert.

The legendary FBI criminal profiler, number-one New York Times bestselling author, and inspiration for the hit Netflix show *Mindhunter* delves deep into the lives and crimes of four of the most disturbing and complex predatory killers, offering never-before-revealed details about his profiling process, and divulging the strategies used to crack some of America's most challenging cases. The FBI's pioneer of criminal profiling, former special agent John Douglas, has studied and interviewed many of America's most notorious killers—including Charles Manson, “Son of Sam Killer” David Berkowitz and “BTK Strangler” Dennis Rader—trained FBI agents and investigators around and the world, and helped educate the country about these deadly predators and how they operate, and has become a legend in popular culture, fictionalized in *The Silence of the Lambs* and the hit television shows *Criminal Minds* and *Mindhunter*. Twenty years after his famous memoir, the man who literally wrote the book on FBI criminal profiling opens his case files once again. In this riveting work of true crime, he spotlights four of the most diabolical criminals he's confronted, interviewed and learned from. Going deep into each man's life and crimes, he outlines the factors that led them to murder and how he used his interrogation skills to expose their means, motives, and true evil. Like the hit Netflix show, *The Killer Across the Table* is centered around Douglas' unique interrogation and profiling process. With his longtime collaborator Mark Olshaker, Douglas recounts the chilling encounters with these four killers as he experienced them—revealing for the first time his profile methods in detail. Going step by step through his interviews, Douglas explains how he connects each killer's crimes to the specific conversation, and contrasts these encounters with those of other deadly criminals to show what he learns from each one. In the process, he returns to other famous cases, killers and interviews that have shaped his career, describing how the knowledge he gained from those exchanges helped prepare him for these. A glimpse into the mind of a man who has pierced the heart of human darkness, *The Killer Across the Table* unlocks the ultimate mystery of depravity and the techniques and approaches that have countered evil in the name of justice.

Legendary FBI profiler and New York Times bestselling author John Douglas explores the shocking case of John Robinson a harmless, unassuming family man whose criminal history began with embezzlement and fraud - and ended with his arrest for the savage murders of six women and his suspected involvement in at least five disappearances. Most disturbing was the hunting ground in which Robinson seduced his prey: the world of cyberspace. Haunting chat rooms, targeting vulnerable women, and exploiting the anonymity of the Internet, his bloody spree was finally halted by a relentless parole officer who spent ten years trying to nail Robinson as a cold-blooded killer. A cautionary tale set in a virtual world where relationships are established without the benefit of physical contact, *ANYONE YOU WANT ME TO BE* is a contemporary real-life drama of high-tech crime and punishment.

Now updated with a new chapter, the #1 “New York Times”-bestselling true crime writer tells the chilling tale of how she came to learn that Ted Bundy, her close friend and colleague at a Seattle crisis hotline, was in fact a savage serial killer.

John Wayne Gacy. Jeffrey Dahmer. The names of notorious serial killers are usually well-known; they echo in the news and in public consciousness. But most people have never heard of Israel Keyes, one of the most ambitious and terrifying serial killers in modern history. The FBI considered his behavior unprecedented. Described by a prosecutor as “a force of pure evil,” Keyes was a predator who struck all over the United States. He buried “kill kits”—cash, weapons, and body-disposal tools—in remote locations across the country. Over the course of fourteen years, Keyes would fly to a city, rent a car, and drive thousands of miles in order to use his kits. He would break into a stranger's house, abduct his victims in broad daylight, and

kill and dispose of them in mere hours. And then he would return home to Alaska, resuming life as a quiet, reliable construction worker devoted to his only daughter. When journalist Maureen Callahan first heard about Israel Keyes in 2012, she was captivated by how a killer of this magnitude could go undetected by law enforcement for over a decade. And so began a project that consumed her for the next several years--uncovering the true story behind how the FBI ultimately caught Israel Keyes, and trying to understand what it means for a killer like Keyes to exist. A killer who left a path of monstrous, randomly committed crimes in his wake--many of which remain unsolved to this day. American Predator is the ambitious culmination of years of interviews with key figures in law enforcement and in Keyes's life, and research uncovered from classified FBI files. Callahan takes us on a journey into the chilling, nightmarish mind of a relentless killer, and to the limitations of traditional law enforcement.

In *The Mikado to Matilda: British Musicals on the New York Stage*, Thomas Hirschak provides an overview of British musicals that made their way to Broadway, covering their entire history up to the present day. This is the first book to look at the British musical theatre with reference to those London musicals that were also produced in New York City. The book covers 110 British musicals, ranging from 1750 to the present day, including the popular Gilbert and Sullivan comic operettas during the Victorian era, the Andrew Lloyd Webber mega-musicals of the late twentieth century, and today's biggest hits such as *Matilda*. Each London musical is discussed first as a success in England and then how it fared in America. The plots, songs, songwriters, performers, and producers for both the West End and the Broadway (or Off Broadway) production are identified and described. The discussion is sometimes critical, evaluating the musicals and why they were or were not a success in New York.

LEARN THE TRUE STORY OF ONE OF THE FBI PROFILERS WHO COINED THE PHRASE "SERIAL KILLER" Face-to-face with some of America's most terrifying killers, FBI veteran Robert K. Ressler learned how to identify the unknown monsters who walk among us -- and put them behind bars. In *Whoever Fights Monsters*, Ressler--the inspiration for the character Agent Bill Tench in David Fincher's hit TV show *Mindhunter*--shows how he was able to track down some of the country's most brutal murderers. Ressler, the FBI Agent and ex-Army CID colonel who advised Thomas Harris on *The Silence of the Lambs*, used the evidence at a crime scene to put together a psychological profile of the killers. From the victims they choose to the way they kill to the often grotesque souvenirs they take with them--Ressler unlocks the identities of these vicious killers. And with his discovery that serial killers share certain violent behaviors, Ressler goes behind prison walls to hear bizarre first-hand stories from countless convicted murderers, including Ted Bundy, John Wayne Gacy; Edmund Kemper; and Son of Sam. Getting inside the mind of a killer to understand how and why he kills is one of the FBI's most effective ways of helping police bring in killers who are still at large. Join Ressler as he takes you on the hunt for the world's most dangerous psychopaths in this terrifying journey you will not forget.

The author of this book played a major part in the FBI's development of psychological profiles for serial killers, he even invented the term serial killer. Whilst Thomas Harris made Ressler's work famous in fiction, Ressler did it for real.

From John Douglas—the legendary FBI criminal profiler, #1 New York Times bestselling author, and inspiration for the Netflix show Mindhunter—comes a chilling journey inside the mind and crimes of Larry Gene Bell, one of the most dangerous serial killers Douglas confronted, and the desperate effort to identify and catch him. On May 31, 1985, two days before her high school graduation, Shari Smith was abducted from the driveway of her family home in South Carolina. Based on the crime scene and the abductor's repeated and taunting calls to the family, law enforcement quickly realized they were dealing with a sophisticated and highly dangerous criminal. A letter arrived the next day entitled "Last Will & Testament," in which Shari, knowing she was to be murdered, wrote bravely and aching of her love for her parents, siblings, and boyfriend, saying that while they would miss her, she knew they would persevere through their faith. The abduction rocked her quiet town, triggering a massive manhunt and bringing in the FBI, which enlisted profiler John Douglas. A few days later, a phone call told the family where they could find Shari's body. Then nine-year-old Debra May Helmick was kidnapped from her yard, confirming the harsh realization that Smith's murder was no random act. A serial killer was evolving, and the only way to stop him would be to use the study of criminal behavior to anticipate his next move before he could kill again. Douglas devised a risky and emotionally fraught strategy to use Shari's lookalike older sister Dawn as bait to draw out the unknown subject. Dawn and her parents courageously agreed. One of the most haunting investigations of Douglas's storied career, this case details how the eerily accurate profile he created—alongside his carefully crafted and stage-managed manipulation of the killer's psychology—combined with dedicated police work and cutting-edge forensic science to end a reign of criminal terror. As Shari's family took incredible personal risks to lure her killer from the shadows, Douglas and the FBI pushed criminal profiling to its limits, culminating in one of his most dramatic and effective confrontations with a sadistic and remorseless killer.

FBI Special Agent John Douglas, known as the Mindhunter, takes readers behind the scenes of some of his most gruesome, fascinating, and challenging cases.

Legendary FBI profiling pioneer John Douglas's theory is that once you figure out the motivating force driving a perpetrator, you've got a good chance of cracking the case. In THE ANATOMY OF MOTIVE he uses cases from his own career to illustrate his argument. He takes us further than ever before into the dark corners of the minds of arsonists, hijackers, serial and spree killers and mass murderers. THE ANATOMY OF MOTIVE analyses such diverse killers as Lee Harvey Oswald and Timothy McVeigh - and helps us learn to anticipate potential violent behaviour before it's too late.
