***This book reports in detail the newly developed Communicative Listening Comprehension Test (CLCT) for the National College English Test (CET) of China. Following the principles of communicative testing in general and test construction approach proposed by Bachman and Palmer (1996) in particular, the project develops***

***CLCT for CET-4 and CET-6. The research begins with the construction of frameworks of listening task characteristics and communicative listening ability. Subsequently, based on a survey of Chinese college students' English listening needs and an analysis of listening tasks in influential English listening course books and public tests, CLCT-4 and CLCT-6 test specifications are developed. Finally, sample papers are produced and a series of posteriori studies are conducted to examine the difficulty and usefulness of the newly developed notes-completion task type in two CLCT tests. As an example of successful integration of communicative testing theories and test construction practice, this research provides valuable insights into listening test development for other large-scale tests.***

This is the third volume of a trilogy on English Language education in Asia within the Routledge Critical Studies in Asian Education. Put together by editors and contributors selected by Asia TEFL, this book provides a timely and critical review of the current trends in tertiary level English education in Asia. It foregrounds the developments and trends, policies and implementation, as well as research and practice. Written by ELT scholars and educational leaders, this book presents articles on China, Hong Kong, India, Japan, Korea, Malaysia, the Philippines, Singapore, Thailand, and Vietnam. While the authors focus on their own local issues, providing an overview of the state of tertiary English teaching in their respective territories, they also provide insights from their successes and failures which can help inspire solutions to similar challenges faced internationally in the field. Chapters in the book include:

- Heading toward the global standardization of English education in Korean universities
- English in tertiary education in India: A Janus-faced perspective with special reference to University of Delhi
- Developing English language skills in the Singapore higher education context
- ELT at tertiary institutions in China: A developmental perspective

This book will be valued by administrators, researchers and scholars interested in bilingualism, language policy and planning in higher education.

SGN.The ebook Maharashtra MBA-CET 2023 Premium Edition-Logical Reasoning And General Mental Ability Section Covers Study Material Plus Objective Questions With Answers.

This book collects and organizes the original studies presented at PROMS 2014 conference on theories and applications of Rasch model. It provides useful examples of the Rasch model used to address practical measurement problems across a range of different disciplines including: Item Response Theory (IRT), philosophy of measurement, dimensionality, the role of fit statistics and residuals, application, educational application, language testing, health related research, business and industrial application and Rasch-based computer software. PROMS 2014 (Pacific Rim Objective Measurement Symposium) was held August 2 – 6, 2014 in Guangzhou, China. The goal of this conference is to bring together the researchers from academia, universities, hospitals, industry, management sector as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of Rasch Model.
