The Advocate is a lesbian, gay, bisexual, transgender (LGBT) monthly newsmagazine. Established in 1967, it is the oldest continuing LGBT publication in the United States.

Who is the mysterious man in the red mask? Did he really engineer and carry out the crime of the century? With hidden political machinations for the pursuit of world conquest? Who is the secret agent pulled into the maze of treacherous intrigue, a trek into the unknown that nearly became a journey of no return? A fast paced action packed spy novel that intertwines historical events with the underlying theme that dominant women play in the secret circles enmeshed in European intelligence services. The esoteric methods and ingenious devices used in their secret chambers. Vivid interrogation scenes along with their use of binding cords and gags.

"Proven methodologies, technical rigor, and from-the-trenches experience to countering mobile security exploits--from the bestselling coauthor of the original Hacking Exposed. Hacking Exposed Mobile focuses on the security of applications running on mobile devices, specifically mobile phones. This book focuses on Android OS, as well as operating systems from Microsoft and Apple. As businesses rush their mobile products to market and conduct business transactions via mobile devices, vast new security risks, vulnerabilities, and exploits are of great concern. This book addresses all of these issues and provides proven solutions for securing mobile applications. No other book on hacking rivals the original, bulletproof pedagogy of this book's clear-cut Hack/Countermeasure approach. Proven strategies for preventing, detecting, and remediating common technology and architecture weaknesses and maintaining tight security controls permanently. Accessible style and format: attacks/countermeasures; risk ratings; case studies; self-assessment tips; check lists; and organizational strategies"--

art.”- Elizabeth Egan, The New York Times From British illustrator, artist, and author Charlie Mackesy comes a journey for all ages that explores life’s universal lessons, featuring 100 color and black-and-white drawings. “What do you want to be when you grow up?” asked the mole. “Kind,” said the boy. Charlie Mackesy offers inspiration and hope in uncertain times in this beautiful book, following the tale of a curious boy, a greedy mole, a wary fox and a wise horse who find themselves together in sometimes difficult terrain, sharing their greatest fears and biggest discoveries about vulnerability, kindness, hope, friendship and love. The shared adventures and important conversations between the four friends are full of life lessons that have connected with readers of all ages.

“Delightful. . . . A real winner.”—School Library Journal “The friendly, cooperative tone of the text is reminiscent of the Frog and Toad series.”—Kirkus Reviews “Yee’s comfy beginning reader (dedicated to ‘Friends of Frog and Toad’) . . . packs in plenty of sweetness and civility.”—Publishers Weekly Mouse and Mole are neighbors. Mouse lives inside an oak tree, and Mole lives in a hole underneath. They are neighbors, but they are also friends. Sometimes friends make mistakes—but they always try to help each other out. That is what Mouse and Mole do. From star-nosed moles that have super-sensing snouts to electric eels that paralyze their prey, animals possess unique and extraordinary abilities. In *Great Adaptations*, Kenneth Catania presents an entertaining and engaging look at some of nature's most remarkable creatures. Telling the story of his biological detective work, Catania sheds light on the mysteries behind the behaviors of tentacled snakes, tiny shrews, zombie-making wasps, and more. He shows not only how studying these animals can provide deep insights into how life evolved, but also how scientific discovery can be filled with adventure and fun. --Inside jacket.

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.

The Westing Game

FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations.

"For over forty years, Ellen Raskin's Newbery Medal-winning *The Westing Game* has been an enduring favorite. This highly inventive mystery involves sixteen people (including a dressmaker, a secretary, an inventor, a doctor, a judge, a bookie, a burglar, and a bomber) who are invited to the reading of the very strange will of the very rich Samuel W. Westing. They could become millionaires, depending on how they play the game. All they have to do is find the answer -- but the answer to what? The Westing game is tricky and dangerous, but they play on -- through blizzards, burglaries, and bombings. Ellen Raskin has entangled a remarkable cast of characters in a puzzle-knotted, word-twisting plot filled with humor, intrigue, and suspense. This unforgettable, timeless classic continues to be cherished by young readers of each new generation." --

An Indie Next List Top 10 Pick! From the author of *WOLF CAMP* comes the story of a charming, mushroom-loving, headgear-wearing, totally awkward naked mole rat who is looking for like-minded peeps. Sweetie is awkward, even for a naked mole rat. She has protruding front teeth, thick glasses, and some very unusual hobbies, including interpretive dance and fungus identification. She's intense and passionate--and her peers don't always get her. But surely there are other mushroom lovers out there? As Sweetie sets out to find them, she comes to realize--with a little help from her cool Aunt Ruth-- that being Sweetie is actually pretty

THE PURSUIT

Special edition slipcase edition of John Green's Paper Towns, with pop-up paper town. From the bestselling author of The Fault in our Stars. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.

Serving as an adviser to the Iranian military, CIA operative Frank Sullivan finds his past relationship with the shah compromising his position, his life-threatening mission to recruit a KGB agent, and his quest to identify a mole. 20,000 first printing.

A Mole of Chemistry: An Historical and Conceptual Approach to Fundamental Ideas in Chemistry is intended for students in their undergraduate years who need to learn the basics of chemistry, including science and engineering as well as humanities. This is a companion textbook which provides a unique perspective on how the main scientific concepts describing nature were discovered and, eventually, how modern chemistry was born. The book makes use of context found in history, philosophy and the arts to better understand their developments, and with as few mathematical equations as possible. The

focus is then set on scientific reasoning, making this book a great companion and addition to traditional chemistry textbooks. Features: A companion for a general chemistry textbook and provides an historical approach to fundamental chemistry Presents origins of fundamental ideas in chemical science and the focus is then set on scientific reasoning User friendly and with as few mathematical equations as possible About the Authors: Dr. Caroline Desgranges earned a DEA in Physics in 2005 at the University Paul Sabatier – Toulouse III (France) and a PhD in Chemical Engineering at the University of South Carolina (USA) in 2008. Dr. Jerome Delhommelle earned his PhD in Chemistry at the University of Paris XI-Orsay (France) in 2000. He is currently working as an Associate Professor in Chemistry at the University of North Dakota. When her father begins a long-distance romance with a Washington, D.C. zookeeper, twelve-year-old Frankie sends fabricated email letters to the zookeeper in an attempt to end the relationship, in this story about family, friendship, and growing up.

notion that women need not work for wages because they are economically supported by men. It offers insight into the lives of undocumented women.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Best-selling author Al Sweigart shows you how to easily build over 80 fun programs with minimal code and maximum creativity. If you've mastered basic Python syntax and you're ready to start writing programs, you'll find *The Big Book of Small Python Projects* both enlightening and fun. This collection of 81 Python projects will have you making digital art, games, animations, counting programs, and more right away. Once you see how the code works, you'll practice re-creating the programs and experiment by adding your own custom touches. These simple, text-based programs are 256 lines of code or less. And whether it's a vintage screensaver, a snail-racing game, a clickbait headline generator, or animated strands of DNA, each project is designed to be self-contained so you can easily share it online. You'll create:

- Hangman, Blackjack, and other games to play against your friends or the computer
- Simulations of a forest fire, a million dice rolls, and a Japanese abacus
- Animations like a virtual fish tank, a rotating cube, and a bouncing DVD logo screensaver
- A first-person 3D maze game
- Encryption programs that use ciphers like ROT13 and Vigen è re to conceal text

If you're tired of standard step-by-step tutorials, you'll love the learn-by-doing approach of *The*
