

## Monet Or Triumph Impressionism Jumbo

*Pearl and Ginevra grow up in the era known as the Gilded Age in Newport, Rhode Island. One lives above the stairs, the other below. Surrounded by Astors and Vanderbilts, Pearl fills her days with teatime and shallow friendships, yearning for something more. A chance meeting with Mary Cassatt sparks her secret desire to be an artist. Meanwhile Ginevra, fresh off the boat from Italy, finds her own dreams out of reach as she joins the unwelcoming household as a servant and seamstress. Kindred souls, the girls become fast friends but must keep their friendship hidden from Pearl's controlling mother. Every summer, they meet in a hidden spot beneath the weeping beeches to talk of art and life, and their struggles to break the barriers of their lives. Soon, the two young women must decide who they want to be in this world, and survive what it takes to get there... no matter what it takes. This is the large print edition of Gilded Summers, with a larger font / typeface for easier reading. Gustav Klimt's art thoroughly expresses the apocalyptic atmosphere of Vienna's upper middle-class society - a society devoted to the cultivation of aesthetic awareness and the cult of pleasure. The ecstatic joy which Klimt and his contemporaries found - or hoped to find - in beauty was constantly overshadowed by death. And death therefore plays an important role in Klimt's art. Klimt's fame, however, rests on his reputation as one of the greatest erotic painters and graphic artists of his times. In particular, his drawings, which have been widely admired for their artistic excellence, are dominated by the erotic portrayal of women. Klimt saw the world "in female form". The amazing work of a tormented soul Vincent van Gogh's story is one of the most ironic in art history. He lived an unhappy and difficult life during which his work received almost no appreciation—finally killing himself by a bullet to the chest, so great was his despair—and is now widely considered one of the most important painters of all time, his works fetching record prices of tens of millions of dollars at auction. This comprehensive study of Vincent Van Gogh (1853-1890) represents a rarity in art history: a detailed monograph on his life and art combined with a complete catalogue of his 871 paintings. These volumes also reproduce most of Van Gogh's paintings in color. Reproductions of the Dutch realist's paintings are accompanied by biocritical introductions and commentaries*

Postmodernism, Or, The Cultural Logic of Late Capitalism

A completely updated, revised edition of the classic, outfitted with a whole new arsenal of indispensable knowledge on global affairs, popular culture, economic trends, scientific principles, and modern arts. Here’s your chance to brush up on all those subjects you slept through in school, reacquaint yourself with all the facts you once knew (then promptly forgot), catch up on major developments in the world today, and become the Renaissance man or woman you always knew you could be! How do you tell the Balkans from the Caucasus? What’s the difference between fission and fusion? Whigs and Tories? Shiites and Sunnis? Deduction and induction? Why aren’t all Shakespearean comedies necessarily thigh-slappers? What are transcendental numbers and what are they good for? What really happened in Plato’s cave? Is postmodernism dead or just having a bad hair day? And for extra credit, when should you use the adjective continual and when should you use continuous? An Incomplete Education answers these and thousands of other questions with incomparable wit, style, and clarity. American Studies, Art History, Economics, Film, Literature, Music, Philosophy, Political Science, Psychology, Religion, Science, and World History: Here’s the bottom line on each of these major disciplines, distilled to its essence and served up with consummate flair. In this revised edition you’ll find a vitally expanded treatment of international issues, reflecting the seismic geopolitical upheavals of the past decade, from economic free-fall in South America to Central Africa’s world war, and from violent radicalization in the Muslim world to the crucial trade agreements that are defining globalization for the twenty-first century. And don’t forget to read the section "A Nervous American’s Guide to Living and Loving on Five Continents" before you answer a personal ad in the International Herald Tribune. As delightful as it is illuminating, An Incomplete Education packs ten thousand years of culture into a single superbly readable volume. This is a book to celebrate, to share, to give and receive, to pore over and browse through, and to return to again and again.

Monet was the most typical and the most individual Impressionist painter. But while the painter was faithful and persevering in the pursuit of his motifs, his personal life followed a more restless course. Parisian by birth, he discovered painting as a youth in the provinces, where one of his homes, Argenteuil, has come to represent the artistic flowering and official establishment of Impressionism as a movement.

From Holbein to Hockney, from Norman Rockwell to Pablo Picasso, from sixteenth-century Rome to 1980s SoHo, Robert Hughes looks with love, loathing, warmth, wit and authority at a wide range of art and artists, good, bad, past and present. As art critic for Time magazine, internationally acclaimed for his study of modern art, The Shock of the New, he is perhaps America's most widely read and admired writer on art. In this book: nearly a hundred of his finest essays on the subject. For the realism of Thomas Eakins to the Soviet satirists Komar and Melamid, from Watteau to Willem de Kooning to Susan Rothenberg, here is Hughes—astute, vivid and uninhibited—on dozens of famous and not-so-famous artists. He observes that Caravaggio was “one of the hinges of art history; there was art before him and art after him, and they were not the same”; he remarks that Julian Schnabel’s “work is to painting what Stallone’s is to acting”; he calls John Constable’s Wivenhoe Park “almost the last word on Eden-as-Property”; he notes how “distorted traces of [Jackson] Pollock lie like genes in art-world careers that, one might have thought, had nothing to do with his.” He knows how Norman Rockwell made a chicken stand still long enough to be painted, and what Degas said about success (some kinds are indistinguishable from panic). Phrasemaker par excellence, Hughes is at the same time an incisive and profound critic, not only of particular artists, but also of the social context in which art exists and is traded. His fresh perceptions of such figures as Andy Warhol and the French writer Jean Baudrillard are matched in brilliance by his pungent discussions of the art market—its inflated prices and reputations, its damage to the public domain of culture. There is a superb essay on Bernard Berenson, and another on the strange, tangled case of the Mark Rothko estate. And as a finale, Hughes gives us “The SoHoiad,” the mock-epic satire that so amused and annoyed the art world in the mid-1980s. A meteor of a book that enlightens, startles, stimulates and entertains.

Designed for introduction to art courses, this text covers art history and looks at art from the oldest cultures and from around the world.

*An utterly compelling, heart-breaking novel that introduces a revelatory young voice to the U.S. market. Meet Luca, a curious young boy living with his mother, a taciturn woman who every now and then tries out a new father. Luca keeps to himself, his cat, Blue, and his favorite toys—words. One February morning his mom doesn't wake up to bring him to school, so Luca—driven by a deep fear of being an orphan—decides to pretend to the world that his mom is still alive. At first it's easy. Luca dresses himself for school, makes sure Blue gets his dinner, and manages to avoid nosy neighbors. He and Blue camp out in the living room and embark on imaginary expeditions to outer space, and Luca dreams about marrying his school crush, Antonella. Soon, however, the laundry starts piling up, the fridge emptying—and the smell of Mama's decaying body begins to permeate the apartment. As Luca grapples with what to do, we ultimately witness something much more poignant than the morbid circumstance—a young boy's journey to the point at which he can say: "I am no longer an orphan. I am a single human being. It's a matter of words."*

*\*\*Kirkus Best Books of the Year (2013)\*\* \*\*Time Magazine 10 Top Nonfiction Books of 2013\*\* \*\*The New Republic Best Books of 2013\*\* In this heart-lifting chronicle, Richard Holmes, author of the best-selling The Age of Wonder, follows the pioneer generation of balloon aeronauts, the daring and enigmatic men and women who risked their lives to take to the air (or fall into the sky). Why they did it, what their contemporaries thought of them, and how their flights revealed the secrets of our planet is a compelling adventure that only Holmes could tell. His accounts of the early Anglo-French balloon rivalries, the crazy firework flights of the beautiful Sophie Blanchard, the long-distance voyages of the American entrepreneur John Wise and French photographer Felix Nadar are dramatic and exhilarating. Holmes documents as well the balloons used to observe the horrors of modern battle during the Civil War (including a flight taken by George Armstrong Custer); the legendary tale of at least sixty-seven manned balloons that escaped from Paris (the first successful civilian airlift in history) during the Prussian siege of 1870-71; the high-altitude exploits of James Glaisher (who rose seven miles above the earth without oxygen, helping to establish the new science of meteorology); and how Mary Shelley, Edgar Allan Poe, and Jules Verne felt the imaginative impact of flight and allowed it to soar in their work. A seamless fusion of history, art, science, biography, and the metaphysics of flights, Falling Upwards explores the interplay between technology and imagination. And through the strange allure of these great balloonists, it offers a masterly portrait of human endeavor, recklessness, and vision. (With 24 pages of color illustrations, and black-and-white illustrations throughout.)*

Renowned primatologist Robert Sapolsky offers a completely revised and updated edition of his most popular work, with over 225,000 copies in print Now in a third edition, Robert M. Sapolsky's acclaimed and successful Why Zebras Don't Get Ulcers features new chapters on how stress affects sleep and addiction, as well as new insights into anxiety and personality disorder and the impact of spirituality on managing stress. As Sapolsky explains, most of us do not lie awake at night worrying about whether we have leprosy or malaria. Instead, the diseases we fear-and the ones that plague us now-are illnesses brought on by the slow accumulation of damage, such as heart disease and cancer. When we worry or experience stress, our body turns on the same physiological responses that an animal's does, but we do not resolve conflict in the same way-through fighting or fleeing. Over time, this activation of a stress response makes us literally sick. Combining cutting-edge research with a healthy dose of good humor and practical advice, Why Zebras Don't Get Ulcers explains how prolonged stress causes or intensifies a range of physical and mental afflictions, including depression, ulcers, colitis, heart disease, and more. It also provides essential guidance to controlling our stress responses. This new edition promises to be the most comprehensive and engaging one yet.

Celebrated the world over for its impressionist masterpieces, the Orsay museum keeps thousands of paintings, sculptures, and decorative art from the greatest artists of the second half of the nineteenth and early twentieth centuries. The National Gallery in London has been showing paintings owned by the British nation since 1824. Contains chapters on Renoir, Degas, Cezanne.

A must-have for any art buff, this definitive who's who of Impressionism gathers 10 monographs from the Basic Art series for the price of three. Precise texts and impeccable reproductions guide us through the life and works of C é zanne, Degas, Gauguin, Manet, Monet, Renoir, Rousseau, Seurat, Toulouse-Lautrec, and van Gogh.

The phenomenal draftsman Gustav Klimt occupies a unique place in modern art. His extant oeuvre comprises some 250 paintings and more than 4,000 works on paper. The study of the human figure--above all female--lies at the heart of the artist's activity as a draftsman, which he practiced assiduously. Through his study of the poses and gestures of his models, Klimt repeatedly examined the essence of particular psychological and existential states of being. In his constant quest for the ideal solution, Klimt often went beyond the preparation of his paintings, which, particularly after 1900, were dominated by the themes of Eros, Love, Life, and Death. His art cannot be understood without carefully considering the drawings, which are characterized by an unsurpassed mastery of line, in all the phases of his artistic development--from Historicism, through Stilkunst around 1900, the Golden Period, and up to his freer late work.This lavishly illustrated publication accompanies the exhibition organized by the Albertina Museum in Vienna (March 13 to June 10, 2012) and the J. Paul Getty Museum in Los Angeles (July 3 to September 23, 2012) to mark the 150th anniversary of Gustav Klimt's birth. In both venues, the emphasis will be placed on showing not only the variety of his draftsmanship, but also the centrality of drawing to Klimt's artistic enterprise. Most of the works on display will come from the Albertina's outstanding collection, one of the most extensive and representative groups of Klimt drawings in the world, complemented by select Austrian and international loans.

**Cultural critic Fredric Jameson, renowned for his incisive studies of the passage of modernism to postmodernism, returns to the movement that dramatically broke with all tradition in search of progress for the first time since his acclaimed *A Singular Modernity*. *The Modernist Papers* is a tour de force of analysis and criticism, in which Jameson brings his dynamic and acute thought to bear on the modernist literature of the nineteenth and twentieth centuries. Jameson discusses modernist poetics, including intensive discussions of the work of Baudelaire, Rimbaud, Mallarmé, Wallace Stevens, Joyce, Proust, and Thomas Mann. He explores the peculiarities of the American literary field, taking in William Carlos Williams and the American epic, and examines the language theories of Gertrude Stein. Refusing to see modernism as simply a Western phenomenon he also pays close attention to its Japanese expression; while the complexities of a late modernist representation of twentieth-century politics are articulated in a concluding section on Peter Weiss's novel *The Aesthetics of Resistance*. Challenging our previous understanding of the literature of this period, this monumental work will come to be regarded as the classic study of modernism.**

**Tragic genius: One of the great forerunners of 20th century painting This richly illustrated and expert study follows Vincent van Gogh from the early gloom-laden paintings in which he captured the misery of peasants and workers in his homeland, through his bright and colorful Parisian period, to the work of his final years, spent under a southern sun in Arles. Here, at last, he found the light that produced the unmistakable Van Gogh style. At Arles, Saint-Rémy and Auvers-sur-Oise, in the feverish burst of creative energy that marked his last two and a half years, he produced the 465 paintings on which his immortality rests. Vincent van Gogh (1853-1890) craved recognition during his lifetime but was denied it until after his self-inflicted death. Today he is universally seen as one of the great forerunners of 20th-century painting, and one of the tragic masters of art.**
