*Two of the world's leading experts explain the vital link between health and wealth that could add years to your life and dollars to your retirement savings. All the money in the world doesn't mean a thing if we can't get out of bed. And the healthiest body in the world won't stay that way if we're frazzled about five figures worth of debt. Today Show financial expert Jean Chatzky and the Cleveland Clinic's chief wellness officer Dr. Michael Roizen explain the vital connection between health and wealth--giving readers all the tactics, strategies, and know-how to live longer, healthier, more lucrative lives. The same principles that allow us to achieve a better body will allow us to do the same for our investment portfolio. For instance, physical and financial stability comes down to the same equation: Inflow versus outflow. Do we burn more calories than we ingest? Likewise, are we making more money than we spend? The authors detail scientific ways to improve our behavior so that the answers tilt in the readers' favor. They also offer ways to beat the system by automating how we do things and limiting our decisions in the face of too much food or too much debt. Chatzky and Roizen provide a plan for both financial independence and biological strength with action steps to get you there.*

*A powerfully simple, must-have manifesto on money with more than 90 wealth-building rules from the Today show's finance guru. In a time of great financial uncertainty, this is the book everyone must read. The bottom line: Money is simple-people make it complicated. Now, bestselling personal finance author Jean Chatzky has distilled this simplicity into a smart, immediate, and entertaining set of rules that will change readers' financial lives. Chatzky removes the stress associated with all things money and says it clearly: Readers who follow these basic yet crucial approaches to spending, saving, investing, increasing their income, and most importantly, protecting what they have, will build the wealth and financial stability they've been dreaming of. Chatzky's advice is reassuring,*

*straightforward, and often counterintuitive, including: - Date your stocks; don't marry them. - 'More money' won't always make you 'more happy.' - To spend less, carry Benjamins, not Jacksons. - If you can't explain it, don't invest in it. - 'Free' can be very expensive. Written in her trademark warm, witty voice, and with a special Dos and Don'ts section, Money Rules is the only book readers really need to achieve true financial health and happiness.*

*A leading financial adviser offers a groundbreaking and simple approach to tackling personal finance by breaking down formulas used by the most successful businesses. A troubled economy calls for answers. People need sound, easy-to-follow financial advice that can be implemented immediately. For the first time, a leading financial adviser has developed a remarkable set of guidelines to give individuals the same kind of objective insight into their personal finances that successful businesses have. Your Money Ratios will help readers effectively manage debt, invest prudently, and develop a realistic and effective savings plan to ensure both financial success and security. Some key ratios include: ? The Capital-to-Income Ratio: how much capital (savings) you should have if you plan to retire at 65 ? The Mortgage-to-Income Ratio: the maximum mortgage debt you should carry and still have sufficient capital left for comfortable savings ? The Education-to-Average-Income Ratio: the amount of education-related debt you can safely incur based on anticipated average earnings after obtaining your degree Few schools teach personal finance, and most young adults cannot afford a financial advisor. This book gives twentysomethings straightforward guidance to avoid common money mistakes and to take control of their finances. Readers learn the impact of taxes on income, what rent they can afford, facts about credit reports and credit scores, and more.*

**"I recommend this book highly as one of the 10 most important 'must read' books published this year," Robert Plotkin, Founding President, World Trade Center San Diego. "Three Steps to Wealth & Financial Security - All That Glitters Isn't Gold" is a back to basics, easy to use guide to reassert financial control and secure your financial future. The book draws on real world examples that husband-and-wife authors attorney Gary Laturno, Esq. and Victoria Kuick, MBA, have encountered in counseling over two thousand homeowners in financial distress since 2007. As a result, the book will be an easy read for people who find financial matters confusing or even frightening. The authors' straightforward guidance and recommendations will help many take charge of their financial futures. Comments by Readers: I read your book last night. I'm incredibly impressed! It's a huge undertaking to present an enormous wealth of REALLY important and helpful information in a streamlined way...but you guys did it! And, I think your readers will really appreciate the genuine tone and straightforward approach—life changing stuff. Great job! I see this book distributed in high schools, colleges (law schools particularly—some lawyers are not great when it comes to financial matters), vocational schools, and the like. I hope you're aiming to reach the masses with this one—the subject matter is so salient right now, and this information is really resonating with people. Jennifer Manganello, Esq., University of California, Hastings College of the Law I just finished reading your book. Outstanding! I love the unique way it was written in PowerPoint format—original, straightforward, and easy to follow. The information the book contains, and how it is explained, makes it stand out. You do not allow the reader to blame others or make excuses about their financial situation. You tell them to look in the mirror, take responsibility, and you show them that money problems are not hopeless but fixable. The stock and real estate investing sections are informative**

**and easy to understand. You take the complexity out of stock market investing. You show real estate investors the pitfalls to avoid. Readers will especially benefit from how you compare and contrast real estate investing with the stock market and other investments — bonds, precious metals and cash. It's evident the book was written from firsthand experience, making it truly authentic. I am impressed both by your credentials and your experience counseling over 2,000 homeowners in financial distress since 2007. This book cuts to the core of what people need to know and do to put their financial house in order. I highly recommend your book! Read it and you will substantially increase your financial I.Q. Dory Laramore, Certified Registered Tax Preparer, and author of *Get Your Finances Right: The Foundation for Success "Three Steps to Wealth & Financial Security"* is well written, concise and provides a wealth of financial advice for every American. The authors ask and answer a number of profound questions. What are the lessons of the housing crisis? Why are savings rates in the United States so low? Why do so many retire on Social Security only? Why do so many mismanage their financial affairs? How do we put our financial house in order? What do we need to know and do to be financially secure? Understand the mistakes that so many made and continue to make. Fine tune your financial plan and money management skills. Recommendation: Read the book! Money management, financial planning, and wealth building are mandatory subjects not electives. Andrew J. Sussman, Esq., Partner, RSR Law Group, San Diego, California**

*Jean Chatzky has been working with viewers of NBC's Today show for a series on how to get out of debt once and for all. Her method, both on TV and in this book, is simple yet powerful: the key is saving just \$10 a day that you currently waste. It doesn't sound like much—a movie ticket or lunch for two at McDonald's— but \$10 really can take you from debt to wealth in just a few years. And because it doesn't feel like an impossible goal, people are more likely to stick with Chatzky's plan than an extreme regimen of spending cutbacks. Chatzky is focusing on debt because it's the single biggest threat to our financial health. The average American family has sixteen credit cards and high-rate debt of more than \$8000, not even counting car loans and mortgages. They pay more than \$1000 a year in interest alone. Debt makes people feel depressed and overwhelmed, leaving them without enough money for the truly important things in life—education, retirement, owning a home, feeling secure. Chatzky, one of America's most popular personal finance experts, writes in down-to-earth, woman-next-door language about how to get started right away, without giving up the things that truly give you pleasure. She offers practical, accessible strategies to help readers find the money to pay off their bills, lower their interest rates, and improve their credit scores. Featuring real-life examples of people featured on her Today show series, Pay It Down can transform debtors into future millionaires. Breaks down the simple strategies and steps used by the self-made wealthy to rise above negative circumstances, effortlessly climb social ladders, and experience real financial success and independence.*

Gentry was a simple baker who knew there was more to life but did not know what it was or how to get there. One day, a traveler came to town and told Gentry that he is seeking The Destination. However, the traveler provides a warning. The path to The Destination is guarded by dragons that only seek to take travelers off of the path. Armed with a scroll, a shield and a sword, Gentry sets out on his quest. As Gentry heads towards The Destination, he is expecting to face fierce dragons that he heard so many stories about growing up. He pictured himself doing battle with a large scaly beast. But what he found surprised him. The dragons were not the fire breathing animal he expected but much more deceiving. Gentry had to face each dragon before he can travel on towards The Destination or be sent back to the town as a failure. Each dragon, however, has a different name and affect on Gentry. He must use the wisdom he finds in the scroll in order to defeat each of the dragons. As we each travel the journey to success, we are often times side tracked by dragons of our own. Through this book and as you travel with Gentry, you will learn the secrets to defeating many of the common dragons that only seek to hold us back from reaching our destination.

With updated resources, an easy-to-use index, and anecdotes and examples particularly relevant today?t tells you how to: ?get out of debt and develop savings?reorder material priorities and live well for less?resolve inner conflicts between values and lifestyle?save the planet while saving money?and much more In *Your Money or Your Life*, Vicki Robin shows readers how to gain control of their money and finally begin to make a life, rather than just make a living.

Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The

world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In *The Psychology of Money*, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

You've worked hard to get where you are, and you're doing well by most people's standards. But despite your outward success, the income you earn only feeds an endless cycle of consumption, debt, and despair. You need a simpler, more effective approach to money management--and life. *True Wealth Formula: How to Master Money, Live Free & Build A Legacy* is a step-by-step roadmap and master strategy to gain control over your money and master the investing game, while delving into the deeper meaning of wealth, relationships, fulfillment, and legacy. The door to personal freedom lies within you. *True Wealth Formula* will show you how to unlock it and gain access to the life of momentum and blessing you were intended for.

“The newbie investor will not find a better guide to personal finance.” –Burton Malkiel, author of A RANDOM WALK DOWN WALL STREET  
TV analysts and money managers would have you believe your finances are enormously complicated, and if you don't follow their guidance, you'll end up in the poorhouse. They're wrong. When University of Chicago professor Harold Pollack interviewed Helaine Olen, an award-winning financial journalist and the author of the bestselling Pound Foolish, he made an offhand suggestion: everything you need to know about managing your money could fit on an index card. To prove his point, he grabbed a 4" x 6" card, scribbled down a list of rules, and posted a picture of the card online. The post went viral. Now, Pollack teams up with Olen to explain why the ten simple rules of the index card outperform more complicated financial strategies. Inside is an easy-to-follow action plan that works in good times and bad, giving you the tools, knowledge, and confidence to seize control of your financial life.

In *Stop Sabotaging Your Life: 3 Steps To Your Full Potential*, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything that ails you. As he says, "There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether." What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: "As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that."—Cristina "The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person

with an infectious enthusiasm to make you seize your inborn potential." –Adrian  
"If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth." –Blaine

P. T. Barnum, the great American showman of the 19th century, wrote this short book about making and keeping money. He certainly had life experiences that qualify him for the subject--he started a small newspaper in his twenties, bought and transformed a museum into a showplace for curiosities, built a circus empire that gave performances in America and Europe, promoted a performing tour of a singer, fell into debt in the 1850s and pulled himself out by lecture tours, ..

*"In the dark, bewildering, trap-infested jungle of misinformation and opaque riddles that is the world of investment, JL Collins is the fatherly wizard on the side of the path, offering a simple map, warm words of encouragement and the tools to forge your way through with confidence. You'll never find a wiser advisor with a bigger heart." -- Malachi Rempen: Filmmaker, cartoonist, author and self-described ruffian This book grew out of a series of letters to my daughter concerning various things-mostly about money and investing-she was not yet quite ready to hear. Since money is the single most powerful tool we have for navigating this complex world we've created, understanding it is critical. "But Dad," she once said, "I know money is important. I just don't want to spend my life thinking about it." This was eye-opening. I love this stuff. But most people have better things to do with their precious time. Bridges to build, diseases to cure, treaties to negotiate, mountains to climb, technologies to create, children to teach, businesses to run. Unfortunately, benign neglect of things financial leaves you open to the charlatans of the financial world. The people who make investing endlessly complex, because if it can be made complex it becomes more profitable for them, more expensive for us, and we are forced into their waiting arms. Here's an important truth: Complex investments exist only to profit those who create and sell them. Not only are they more costly to the investor, they are less effective. The simple approach I created for her and present now to you, is not only easy to understand and implement, it is more powerful than any other. Together we'll explore: Debt: Why you must avoid it and what to do if you have it. The importance of having F-you Money. How to think about money, and the unique way understanding this is key to building your wealth. Where traditional investing advice goes wrong and what actually works. What the stock market really is and how it really works. Why the stock market always goes up and why most people still lose money investing in it. How to invest in a raging bull, or bear, market. Specific investments to implement these strategies. The Wealth Building and Wealth Preservation phases of your investing life and why they are not always tied to your age. How your asset allocation is tied to those phases and how to choose it. How to simplify the sometimes confusing world of 401(k), 403(b), TSP, IRA and Roth accounts. TRFs (Target Retirement Funds), HSAs (Health Savings Accounts) and RMDs (Required Minimum Distributions). What investment firm to use and why the one I recommend is so far superior to the competition. Why you should be very cautious when engaging an investment advisor and whether you need to at all. Why and how you can be conned, and how to avoid becoming prey. Why I don't recommend dollar cost averaging. What financial independence looks like and how to have your money support you. What the 4% rule is and how to use it to safely spend your wealth. The truth behind Social Security. A Case Study on how this all can be implemented in real life.*

**Cristian Vega has a talent very few people know about: he's a musician. And he's quite good. The problem he faces is that he has no confidence in himself and is overly concerned about what others think of him, and this fear of rejection has turned Cristian into an introvert. The day after his nineteenth birthday, Cristian receives a call from his girlfriend who tells him that she's met someone else. Confining himself to his bedroom, Cristian has become an emotional wreck and vows to never allow himself to fall in love again. After calling his cousin in an attempt to get his mind off of his ex-girlfriend, Cristian sets in motion a chain of events that will change his life forever. And it all begins with the meeting of a girl... Emma Turner is quite sick of dating the same kind of man-tall, clean-cut and handsome-and every guy she meets seems more interested in trying to impress her than they are in learning anything about her. When Cristian Vega begins attending the same church as her, she finds herself inexplicably drawn to him. None of her friends understands her attraction to Cristian and they are sure to tell her that every chance they get. Emma's problem isn't in getting her friends to accept Cristian, her bigger issue is in getting Cristian to admit his feelings to her before the successes of being a musician tears them apart. THE PATH tells the story of overcoming one's fear of rejection in order to pursue one's dream regardless of what may come.**
