Book jacket: Known primarily as a dramatist, Bertolt Brecht was also a gifted poet. These fifty poems--among them many ballads that later became part of The Threepenny Opera, Mahagonny, and Baal--reveal the tremendous range and versatility of Brecht's expression. His first and best book of poetry, Manual of Piety uses the traditional form of devotional literature to provide both an irreverent spoof and a serious critique of the post-World War I European (and more specifically, German) culture that gave rise to fascism. His characteristically sly wit combines with mordant social commentary to make Manual of Piety Brecht at his most hilarious--and also his most brutally incisive.

In this book, Sean Safford compares the recent history of Allentown, Pennsylvania, with that of Youngstown, Ohio. Allentown has seen a noticeable rebound over the course of the past twenty years. Facing a collapse of its steel-making firms, its economy has reinvented itself by transforming existing companies, building an entrepreneurial sector, and attracting inward investment. Youngstown was similar to Allentown in its industrial history, the composition of its labor force, and other important variables, and yet instead of adapting in the face of acute economic crisis, it fell into a mean race to the bottom. Challenging various theoretical perspectives on regional socioeconomic change, *Why the Garden Club Couldn't Save Youngstown* argues that the structure of social networks among the cities' economic, political, and civic leaders account for the divergent trajectories of post-industrial regions. It offers a probing historical explanation for the decline, fall, and unlikely rejuvenation of the Rust Belt. Emphasizing the power of social networks to shape action, determine access to and control over information and resources, define the contexts in which problems are viewed, and enable collective action in the face of externally generated crises, this book points toward present-day policy prescriptions for the ongoing plight of mature industrial regions in the U.S. and abroad.

Winner of the Professional/Scholarly Publishing Award in Economics from the Association of American Publishers
Within a few months of assuming the position of curator

of medieval coins at the American Numismatic Society in 1980, Alan M. Stahl was presented with a plastic bag containing a hoard of 5,000 recently discovered coins, most of which turned out to be from medieval Venice. The course of study of that hoard (and a later one containing more than 14,000 coins) led him to the Venetian archives, where he examined thousands of unpublished manuscripts. To provide an even more accurate account of how the Zecca mint operated in Venice in the thirteenth through fifteenth centuries, Stahl commissioned scientific analyses of the coins using a variety of modern techniques, uncovering information about their content and how they had been manufactured. The resulting book, *Zecca: The Mint of Venice in the Middle Ages*, is the first to examine the workings of a premodern mint using extensive research in original documents as well as detailed study of the coins themselves. The first of the book's three sections traces the coinage of Venice from its origins in the ninth century as a minor, and unofficial, regional Italian coinage to its position at the dawn of the Renaissance as the dominant currency of Mediterranean trade. The second section, entitled "The Mint in the Life of Medieval Venice," illustrates the mechanisms of the control of bullion and the strategies for mint profit and explores the mint's role in Venetian trade and the emergence of a bureaucratized government. The third section, "Within the Mint," examines the physical operations that transformed raw bullion into coins and identifies the personnel of the mint, situating the holders of each position in the context of their social and professional

backgrounds. Illustrated with photos of Venetian coinage from the world's major collections, Zecca also includes a listing of all holders of offices related to the medieval Venetian mint and summaries of all major finds of medieval Venetian coins.

A devoted fascist changes her mind and her life after witnessing the horrors of the Holocaust First published in Italy in 1979, Luce D'Eramo's *Deviation* is a seminal work in Holocaust literature. It is a book that not only confronts evil head-on but expands that confrontation into a complex and intricately structured work of fiction, which has claims to standing among the greatest Italian novels of the twentieth century. Lucia is a young Italian girl from a bourgeois fascist family. In the early 1940s, when she first hears about the atrocities being perpetrated in the Nazi concentration camps, she is doubtful and confused, unable to reconcile such stories with the ideology in which she's been raised. Wanting to disprove these "islanders" on Hitler's Reich, she decides to see for herself, running away from home and heading for Germany, where she intends to volunteer as camp labor. The journey is a harrowing, surreal descent into hell, which finds Lucia confronting the stark and brutal realities of life under Nazi rule, a life in which continual violence and fear are simply the norm. Soon it becomes clear that she must get away, but how can she possibly go back to her old life knowing what she now knows? Besides, getting out may not be as simple as getting in. Finally available in English translation, *Deviation* is at once a personal testament, a work of the imagination, an investigation into the limits of memory, a warning to

future generations, and a visceral scream at the horrors of the world.

The theft, trafficking, and falsification of cultural property and cultural heritage objects are crimes of a particularly complex nature, which often have international ramifications and significant economic consequences. Organized criminal groups of various types and origins are involved in these illegal acts. The book *Crime in the Art and Antiquities World* has contributions both from researchers specializing in the illegal trafficking of art, and representatives of international institutions involved with prevention and detection of cultural property-related crimes, such as Interpol and UNESCO. This work is a unique and useful reference for scholars and private and public bodies alike. This innovative volume also includes an Appendix of the existing legal texts, i.e. international treaties, conventions, and resolutions, which have not previously been available in a single volume. As anyone who has undertaken research or study relating to the protection of cultural heritage discovers one of the frustrations encountered is the absence of ready access to the multi- various international instruments which exist in the field. Since the end of the Second World War these instruments have proliferated, first in response to increasing recognition of the need for concerted multinational action to give better protection to cultural property during armed conflict as well as ensuring the repatriation of cultural property looted during such

conflict. Thus the international community agreed in 1954 upon a Convention for the Protection of Cultural Property in the Event of Armed Conflict. That Convention, typically referred to as the Hague Convention of 1954, is now to be found reproduced in the Appendix to this book (Appendix I) together with 25 other important and diverse documents that we believe represent a core of the essential international sources of reference in this subject area. In presenting these documents in one place we hope that readers will now experience less frustration while having the benefit of supplementing their understanding and interpretation of the various instruments by referring to individual chapters in the book dealing with a particular issue or topic. For example, Chapter 9 by Mathew Bogdanos provides some specific and at times rather depressing descriptions of the application in the field of the Hague Convention 1954, and its Protocols (Appendices II and III), to the armed conflict in Iraq. Reference may also be had to the resolution of the UN Security Council in May 2003 (Appendix VI) urging Member States to take appropriate steps to facilitate the safe return of looted Iraqi cultural property taken from the Iraq National Museum, the National Library and other locations in Iraq. Despite such pleas the international antiquities market seems to have continued to trade such looted property in a largely unfettered manner, as demonstrated by Neil Brodie in Chapter 7. Fittingly, as referred to in the Preface to this book, the last document contained in the Appendix (Appendix 26) is the “ Charter of Courmayeur ” , formulated at a ground breaking international workshop on the protection of cultural property conducted by the International Scientific and Professional Advisory Council (ISPAC) to the United Nations Crime Prevention and Criminal Justice Program in Courmayeur, Italy, in June 1992. The Charter makes mention of many of the instruments contained in the Appendix while also foreshadowing many of the developments which have taken place in the ensuing two decades designed to combat illicit trafficking in cultural property through international collaboration and action in the arena of crime prevention and criminal justice.

In questo lavoro “ Progettare Paesaggio, Landscape as Infrastructure ” si confrontano: da un lato le stimolanti proposte progettuali redatte dal gruppo di studenti della Harvard Graduate School of Design guidati dalla docente Paola Cannavò ; dall’ altro l’ analisi del territorio portuense ed ostiense e delle possibili future trasformazioni del contesto paesaggistico determinate dai progetti infrastrutturali, in fase di realizzazione o di valutazione, con ipotesi di linee guida per la riqualificazione e la valorizzazione di questa area, intesa come complesso palinsesto storico e paesaggistico, al fine di rendere evidenti le modalità procedurali di quella reale tutela attiva e dinamica del paesaggio affidata al Ministero per i beni e le attività culturali e da sempre svolta. [ANTONIA P. RECCHIA – Direttore Generale, Direzione Generale per il paesaggio, le belle arti, l’ architettura e l’ arte contemporanee, MiBAC] The project “ Progettare Paesaggio, Landscape as Architecture ” combines the inspiring design proposals drafted by a group of students of the Harvard Graduate School of Design headed by the teacher Paola Cannavò with a study of the portuense and ostiense areas and how the landscape might change due to the construction of new

infrastructure, either being completed or in the design stage. The study includes guidelines for the requalification and enhancement of the area considered as a complex historical landscape; it also highlights the past and present active and dynamic protection measures and procedures adopted by the Italian Ministry of Cultural Heritage and Activities.

[ANTONIA P. RECCHIA – Director General, Directorate General for the landscape, fine arts, architecture and contemporary art, MiBAC] “ Questa pubblicazione e la ricerca progettuale qui documentata, propongono una opportuna testimonianza delle sfide contemporanee della forma urbana, del processo ecologico e dello sviluppo economico affrontato dalla capitale italiana. ”

“ Evidenziando gli impulsi complessi e contraddittori di tipo ecologico ed economico di un paesaggio portuale attivo, Cannavò propone un nuovo ruolo chiave per l’architettura del paesaggio come strumento urbanistico. Così facendo promuove una posizione italiana all’interno del dibattito contemporaneo sul Landscape Urbanism e l’Ecological Urbanism fornendo al contempo una prospettiva futura per l’urbanistica, anche nell’area di Fiumicino. ” [CHARLES WALDHEIM – Direttore, Dipartimento di Architettura del Paesaggio, Harvard Graduate School of Design]

“ This publication, and the design research that it documents, offers timely evidence of the contemporary challenges of urban form, ecological process, and economic development faced by the Italian capital. ” “ Highlighting the complex and contradictory ecological and economic impulses of a working port landscape, Cannavò proposes a renewed relevance for landscape architecture as a medium of urbanism. In so doing, she stakes an Italian position in the contemporary discourses of landscape urbanism and ecological urbanism, while pointing to a way forward for urbanism, even in the fields of Fiumicino. ” [CHARLES WALDHEIM – Chair, Department of Landscape Architecture, Harvard Graduate School of Design]

Kadi on Trial

The judgment of the European Court of Justice concerning the Kadi case has raised substantive and procedural issues that have caught the attention of scholars from many disciplines including EU law, constitutional law, international law and jurisprudence. This book offers a comprehensive view of the Kadi case, and explores specific issues that are anticipated to resonate beyond the immediate case from which they derive. The first part of the volume sets out an analysis of the new judgment of the Court, favouring a "contextual" reading of what is the latest link in a judicial chain. The following three parts offer interdisciplinary accounts of the decision of the European Court of Justice, including legal theory, constitutional law, and international

law. The book closes with an epilogue by Ernst-Ulrich Petersmann, who studies the role of the Kadi case in the methodology of international law and its contribution to the concept of global justice. The book brings together legal scholars from a range of fields, and discusses pressing topics such as the European Union's objective of 'the strict observance and the development of international law', the EU as a site of global governance, constitutional pluralism and the protections of fundamental rights. A brutal murder, a nefarious plot, a coded letter. After five hundred years, the most notorious mystery of the Renaissance is finally solved. The Italian Renaissance is remembered as much for intrigue as it is for art, with papal politics and infighting among Italy's many city-states providing the grist for Machiavelli's classic work on take-no-prisoners politics, *The Prince*. The attempted assassination of the Medici brothers in the Duomo in Florence in 1478 is one of

the best-known examples of the machinations endemic to the age. While the assailants were the Medici's rivals, the Pazzi family, questions have always lingered about who really orchestrated the attack, which has come to be known as the Pazzi Conspiracy. More than five hundred years later, Marcello Simonetta, working in a private archive in Italy, stumbled upon a coded letter written by Federico da Montefeltro, the Duke of Urbino, to Pope Sixtus IV. Using a codebook written by his own ancestor to crack its secrets, Simonetta unearthed proof of an all-out power grab by the Pope for control of Florence. Montefeltro, long believed to be a close friend of Lorenzo de Medici, was in fact conspiring with the Pope to unseat the Medici and put the more malleable Pazzi in their place. In *The Montefeltro Conspiracy*, Simonetta unravels this plot, showing not only how the plot came together but how its failure (only one of the Medici brothers, Giuliano, was killed; Lorenzo survived) changed the course of Italian and papal history for generations. In the course of his

versions, and for the first time with an English translation. Through extensive original research of manuscript sources, the editor posits new dates, places, and audiences for multiple performances of the oration. La crisi finanziaria scoppiata nell'autunno 2008 ha sancito il successo di coloro che ne sono stati gli artefici. In Italia e Grecia sono andati al potere tecnocrati e banchieri, gli stessi che, fino al giorno prima, hanno lavorato per le istituzioni responsabili del crollo dell'economia. Ai vertici dei governi europei, delle istituzioni internazionali, dell'Unione europea (un «super Leviatano»), siedono i referenti delle banche e della finanza, nelle mani dei quali una classe politica incapace e inadeguata ha affidato le speranze di ripresa. Essi continuano a perseguire le politiche di impoverimento di 720 milioni di europei, con l'unico scopo di trasformare il Vecchio Continente in un immenso lager di schiavi moderni: tagli, flessibilità, liberalizzazioni, privatizzazioni, queste le «ricette» per raggiungere falsi obiettivi: la riduzione del deficit ed il pareggio di bilancio (tecnicamente impossibile). Con la «privatizzazione» (svendita) delle ultime società pubbliche completeranno il disegno, raggiungendo l'obiettivo di distruzione degli Stati e della privazione dei più elementari diritti di cittadinanza. Sono politici, banchieri, economisti, editori, controllano i media, e attraverso essi ci tranquillizzano. Non possiamo illuderci che, coloro che hanno appiccato l'incendio, si trasformino improvvisamente in pompieri. Guardando i dati, viene spontaneo domandarsi come sia possibile che in soli tre anni dall'autunno 2008, il debito pubblico di alcuni Stati (Italia, Spagna, Portogallo, Irlanda) sia sensibilmente peggiorato. La risposta è semplice: la colpa è delle misure anti-crisi legate alle operazioni di sostegno al sistema

bancario. Con i soldi dati alle banche a interessi irrisori (1.200 miliardi in Europa, e altrettanti negli Usa), queste non fanno altro che rifinanziare le loro obbligazioni o acquistare a loro volta il debito degli Stati, che è divenuto nel frattempo più oneroso da sostenere perché è aumentato, e il rating è peggiorato. Le banche, quindi, chiedono interessi più alti agli Stati, e la voragine del debito pubblico aumenta in una spirale infinita. In tutto questo giro, chi ci guadagna, ancora una volta, sono proprio le banche. Ma come siamo arrivati fino a qui? Quali sono i sottili meccanismi che hanno privato gli Stati della loro sovranità? L'Ue, la Bce, l'euro, il Trattato di Lisbona, Basilea II, il Fmi, le agenzie di rating, sono tutti strumenti nelle mani della finanza, che ha piazzato i suoi uomini al vertice delle istituzioni nazionali e sovranazionali. Il potere, scippato da tecnocrati e banchieri, con la complicità di politici incapaci e corrotti, deve tornare nelle mani del popolo sovrano.

One of the world's most renowned architects, Renzo Piano was born in Genoa in 1937 into a family of Italian builders. He is responsible for such iconic landmarks as the Shard in London, the Centre Georges Pompidou in Paris and the Whitney Museum of American Art in New York. The Renzo Piano Building Workshop, based in

Paris and Genoa, fosters this spirit of collaboration and mentoring, and continues to pioneer groundbreaking architecture that challenges and inspires. This book, which accompanies an exhibition at the Royal Academy of Arts, provides an intimate look at the life and work of a man who believes passionately that architecture should make a positive contribution to people and place. An exclusive interview with Piano himself introduces this publication, before a series of texts by major figures from the worlds of culture, engineering and building, including the Oscar-winning actor and director Roberto Benigni, the artist Susumu Shingu and the architect Richard Rogers, Piano's co-designer of the Centre Georges Pompidou.

This award-winning collection confirms Giorgio Pressburger as a European master of the short story. Each tale is wondrous in its situation and its telling, but each refined truth it contains is hauntingly familiar in its resonance. In the title story, four rabbis on a trip through the mountains offer marvelous interpretations of the similarities between snow and guilt, just before an avalanche, killing three of them, provides the most concrete interpretation of all for the survivor. In other stories, horrors await a scientist who provokes unrequited passion in a young girl; a wheelchair-bound philosopher rails at cosmic injustice; and a man who saves a kitten from death unwittingly changes his life through a random act of kindness. Giorgio Pressburger was born in Budapest in 1937 and

later settled in Italy. He is now the Director of the Institute of Italian Culture in Hungary. Among his previous books is The Law of White Spaces.

Routledge Handbook of Social and Sustainable Finance brings together an international cast of leading authorities to map out and display the disparate voices, traditions and professional communities engaged in social finance activity. With a clear societal or environmental mission, foundations, individual and group investors, as well as public bodies around the world have become increasingly eager to finance and support innovative forms of doing business. Together, founders and established businesses alike are embracing new sustainable business models with a distinct stakeholder approach to tackle social or environmental problems in what they see as a failed economic system in crisis. As a result, the topic of social and sustainable finance is at the forefront of financial economic thought. This Handbook is divided up into three parts. The first, "The Landscape of Social and Sustainable Finance and Investments", comprises of chapters from a multitude of perspectives in an effort to grasp the entirety of the landscape. The second, "Challenges, Suggestions, Critiques and Debates", focuses on areas ranging from sociological underpinnings to critical takes on markets, and the identification of specialized business models. Amongst ethical considerations, topics include the scaling of impact, an analysis of sustainability as risk prevention and

comparative analyses of various methods of justification and measurement. In the third and final section, "Markets and Institutions", contributions range from various perspectives on sustainable banking to environmental marketplaces, and finally on to practical cases and country specific observations. This volume is essential reading for both academics and students in economics and finance. It is also of interest to those who study environmental economics, microeconomics and banking. How do people excluded from political life achieve political agency? Through a series of historical events that have been mostly overlooked by political theorists, Martin Breugh identifies fleeting yet decisive instances of emancipation in which people took it upon themselves to become political subjects. Emerging during the Roman plebs's first secession in 494 BCE, the plebeian experience consists of an underground or unexplored configuration of political strategies to obtain political freedom. The people reject domination through political praxis and concerted action, therefore establishing an alternative form of power. Breugh's study concludes in the nineteenth century and integrates ideas from sociology, philosophy, history, and political science. Organized around diverse case studies, his work undertakes exercises in political theory to show how concepts provide a different understanding of the meaning of historical events and our political present. The Plebeian Experience describes a recurring

phenomenon that clarifies struggles for emancipation throughout history, expanding research into the political agency of the many and shedding light on the richness of radical democratic struggles from ancient Rome to Occupy Wall Street and beyond.

Stress relieving seamless patterns on reverse pages Perfect for all coloring mediums Black background reverse pages to reduce bleed-through High quality 60lb (90gsm) paper stock Large format 8.5" x 11.0" (22cm x 28cm) pages About 130 Latin inscriptions shine a fascinating light on the medium-sized Roman town of Grumentum in ancient Lucania. Most of these stones have hardly been studied since the end of the 19th century. They now for the first time appear in a scholarly edition with revised Latin text, illustration, apparatus criticus, translation and extensive commentary. Both the introduction and the edition illustrate the richness of the material: archaeology, politics, institutions, the Roman army, economy, religion, family and life course, and Christianity are dealt with. The use learned scholars made of the inscriptions opens a window to Italian intellectual history from the Renaissance on. Written and presented in an accessible way, this volume avoids the pitfalls of highly technical epigraphical editions, and opens the field to archaeologists, (ancient) historians and a more general audience with an interest for Roman sites in general, and this hidden gem in Basilicata in particular.

In Moazzamabad, UP, too large to be a town and too backward to be a city, a young man stabs a

police inspector and is beaten to death. The last words he speaks are, 'My name is Jimmy the Terrorist.' Journalists descend on the town, 'like shrill birds', and a long-time resident decides to tell a story that none of them will know. Jimmy was once Jamaal, son of Rafiq Ansari of Rasoolpur Mohalla, a Muslim neighbourhood in a Hindu town. And his story goes back a long way: to the time when Moazzamabad was named, after Aurangzeb's son; when Rafiq was seduced by the wealth and refinements of Shabbir Manzil and married Shaista; when the Hanuman temple grew ten storeys high and the head priest was elected mayor; when Shaista died, a mosque was brought down in Ayodhya and Rafiq became a mullah. As Jamaal grows up, watching both his father and his neighbourhood change and curfew reach Moazzamabad, he is changed himself. He becomes Jimmy, one among the countless marginalized trying to find a place in the world, dimly aware that the choices that shape their lives are being made in distant places, where they have no influence. Shortlisted for the Man Asian Prize 2009, this spare, compelling novel, as intimate as it is political, confirms Omair Ahmad's reputation as one of the most distinctive and exciting new voices in Indian fiction.

PRESENTATION: HOW TO KNOW EVERYTHING ABOUT THE ROLEX GMT-MASTER

The GMT-Master was created to meet the needs of Pan American Airways to supply its pilots with a wristwatch able to indicate the time back home and the time in their arrival destination simultaneously. It was necessary to give the pilots a “technical” wristwatch, which indicated simultaneously the two different times. It is from this point that the request arose from Pan Am to Rolex, to create a new watch for modern age aviators: a watch with two time zones. The name GMT-Master was chosen... Are you a watch collector and you need information about the Rolex GMT-Master? Are you a watch dealer and you want to know exactly what you are buying and selling? Do you want to know the real value of your GMT-Master? For all this and much much more, this book is perfect for you. You will also know the current value of every GMT-Master. TOPICS With high quality images, technical details and updated prices, this book shows and describes every GMT-Master and GMT-Master II reference. For each watch this guide explains every characteristic: crystal, bakelite bezel, anodized aluminium bezel, Cerachrom bezel, bracelet, case back, winding crown, case number with production year, dial, movement, hands, etc. Furthermore, the book

shows: “Albino”, bachelite, “Batman”, bracelets, calibers, “circular” indexes, “circular edged” indexes, “Cornino” crown guards, “standard” crown guards, GMT hand with small arrow, Green Dial, Oysterlock, sunken holes, vintage advertisements, Underline, box, papers, the “Ice” model, “Chuck Yeager”, “Tiffany & Co.”, “Mission Everest”, dials with Arab coats of arms, ... With a total of 285 wineries reviewed from California, Oregon and now from New York and Washington states, the 2021 edition of the Slow Wine guide USA covers more ground than ever before. For the first time, the 2021 edition stands as an individual publication devoted to US producers. The idea behind Slow Wine is straightforward: it acknowledges the unique stories of people and vineyards, of grape varieties and landscapes, and of their wines. The knowledge that wine is more than just liquid in a glass helps wine lovers make better, more conscious choices and enhances the very enjoyment of these products. Since its beginnings in Italy eleven years ago, Slow Wine has combined its tasting sessions with equally important moments of exchange and debate with producers. In doing so, we're bringing you the most up-to-date information about what's happening at the wineries within our pages. We're thrilled to see the guide finding fertile ground in the USA. Our incredible team of wine experts has once again teamed up to bring you our fourth edition, Slow Wine 2021 - a

year in the life of the vineyards and
wines of the USA.
