Tove Jansson's Moomin characters and books are admired the world over. In the United States the series beginning with Finn Family Moomintroll (first published in English in 1945) has accumulated generations of fans. Since Farrar, Straus

The insanity  
defense is one of  
the oldest fixtures of  
the Anglo-American  
legal tradition.

Though it is  
available to people  
charged with  
virtually any crime,

and is often employed without controversy, homicide defendants who raise the insanity defense are often viewed by the public and even the legal system as trying to get away with murder. Often it seems that legal

result of an insanity  
defense is  
unpredictable, and  
is determined not by  
the defendants  
mental state, but by  
their lawyers and  
psychologists  
influence. From the  
thousands of  
murder cases in  
which defendants  
have claimed

Ruby, while others  
were never

nationally  
publicized.

Regardless of the  
circumstances, each  
case considered  
here was extremely  
controversial, hotly  
contested, and  
relied heavily on  
lengthy testimony by  
expert psychologists

Several of them  
played a major role  
in shaping the

skillfully conveys the  
psychological and  
legal drama of each  
case, while
