mechanics, Keating filed his first patent at 22, started his own bicycle company at 28, and at 32 was producing one of the most innovative bicycle lines in the world in a state-of-the-art factory. Along the way he flirted with baseball, briefly playing in the major leagues and patenting the game's rubberized home plate. In early 1901

Read Free Motorcycles On The Move Transportation Station

Keating developed and marketed a groundbreaking motorcycle before either Indian or Harley-Davidson, and later successfully sued both companies for patent infringement. His company also manufactured automobiles beginning in 1898, producing both electric and gasoline powered vehicles. At the time of his death

at 59, Keating held 49 patents—everything from bicycle and motorcycle designs to lunch-chairs to a modern flushing device for toilets. This book tells the story of Keating and his Keating Wheel Company, a Gilded Age story of unbridled inventiveness that encapsulates America's transformation into a society that would
