There has not been anything written about U.S. Taxation matters that apply to U.S. Expats in over a decade.....until now! Larry Lipsher's new book is written especially for the American taxpayer who lives and works outside of the U.S. Tax year 2O1O places a whole new set of tax rules, regulations and laws into operation with two major tax acts passed by Congress and signed into law by the President. FATCA, the Foreign Accounts Tax Compliance Act

will forever impact how Americans will do their banking and what they will have to report, in detail, for matters they were not required to report upon in the past. Lipsher, a popular commentator of taxes in Asia for well over a decade, writes to get laughs from a subject that usually generates far more tears than laughter. He is brief and very much to the point, concentrating upon making a boring subject as interesting as possible!

North Carolina Almanac and State Industrial Guide
This thoroughly updated new edition of Bradt's Northern Tanzania Safari Guide remains the only full-length guidebook focussed exclusively on the northern part of the country and Zanzibar. Tailored closely to the requirements of anyone going on a safari to northern Tanzania, followed by a few days on Zanzibar, it provides far more detailed coverage of the local safari circuit and other main attractions than other guides. As such, it offers complete and detailed

lodge listings and also goes into greater detail about wildlife and where to see it. It is also the only guide to include detailed information on the many new private concessions that have opened up. Northern Tanzania is dominated by Africa's finest safari circuit. Centred on the legendary Serengeti National Park and its world-famous wildebeest migration, this circuit also incorporates the Ngorongoro Crater and surrounding Ngorongoro Conservation Area, Lake Manyara and Tarangire national parks. Geographically it is one of the most varied regions in Africa, with a palm-fringed Indian Ocean coastline

complemented by the scenic wonders of the Great Rift Valley, Africa's largest lake, and several impressive volcanically formed mountains, most notably snow-capped Mount Kilimanjaro, the tallest peak in Africa and a popular goal for hikers. Lesser-known gems include the prehistoric rock art at Kondoa (a UNESCO World Heritage Site), the forested Arusha National Park and Amani Nature Reserve, and the spectacular Ol Doinyo Lengai - Africa's most active volcano. Tanzania is home to more than 100 ethnic groups, from the Arab-influenced Swahili of the coast to the traditionalist

Maasai pastoralists and Hadza hunter-gatherers of the Rift Valley, yet it takes pride in a long history of post-independence tolerance, stability and safety. Northern Tanzania offers spectacular game-viewing all year round, and supports some of the world's largest surviving populations of lions, elephants, buffalos, leopards, giraffes, zebra, wildebeest and gazelle. Serviced by a well-developed safari industry, the superlative reserves of northern Tanzania are complemented by a stopover on the legendary Spice Island of Zanzibar. With its atmospheric old town, idyllic beaches and offshore reefs teeming with

marine life, it is every bit as evocative as its name. Bradt's Northern Tanzania is written by Philip Briggs, the world's leading writer of guidebooks to Africa, and Chris McIntyre, CEO of specialist Africa tour operator Expert Africa. The guide reflects the growing trend away from large lodges towards small exclusive eco-friendly camps in remote parts of the Serengeti and other major reserves and this edition is more critically selective than previous editions, detailing the best on offer in all price brackets. Also new for this edition is a 48-page colour field guide, detailing all species a visitor can expect to find on a safari in the northern

circuit, making this guide the most authoritative source available. Northern Tanzania is an essential travel companion for both first-time visitors and seasoned safari-goers.
