"A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review
American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? Each book in the Patterson's Bluff series is **STANDALONE**: * The Aussie Next Door * Her Aussie Holiday

As Kurt Vonnegut once said, "True terror is to wake up one morning and discover that your high school class is running the country." When it comes down to it, work--with its know-it-alls, gossips, and brown-noser--is a lot like high school. This clever and useful book helps readers identify and better communicate with these and other common types we all remember from the days when report cards, not business reports, were our concern, and when the big social event was the prom, not the company picnic. You don't need to dig out your yearbook to get a glimpse of these types--just take a look around your office: the Teacher's Pet, the Player, the Cheerleader, the Go-Getter, the Underachiever, the Class Clown, and many more. With wit and uncanny accuracy, corporate coaches Wilma Davidson and Jack Dougherty outline all the members of the "class," offering tips on working efficiently with each type, whether they're your boss, your client, or a colleague. The book also delivers advice on handling authority, conformity, looks, popularity, "sex education," and other indignities from high school that live on in the workplace. Whether you're still the same as you were in high school, a combination of types, or a reformed Rebel turned Class President, you will delight in and learn from this

unique guide.

In this collection of nonfiction pieces, John Updike gathers his responses to nearly two hundred invitations into print, each “ an opportunity to make something beautiful, to find within oneself a treasure that would otherwise remain buried. ” Introductions, reviews, and humorous essays, paragraphs on New York, religion, and lust—here is “ more matter ” commissioned by an age that, as the author remarks in his Preface, calls for “ real stuff . . . not for the obliquities and tenuosities of fiction. ” Still, the novelist ’ s shaping hand, his gift for telling detail, can be detected in many of these literary considerations. Books by Edith Wharton, Dawn Powell, John Cheever, and Vladimir Nabokov are incisively treated, as are biographies of Isaac Newton, Abraham Lincoln, Queen Elizabeth II, and Helen Keller. As George Steiner observed, Updike writes with a “ solicitous,

almost tender intelligence. The critic and the poet in him . . . are at no odds with the novelist; the same sharpness of apprehension bears on the object in each of Updike ' s modes. ”

A brilliant, hilarious, and touching story from the author of Conversations with the Fat Girl, Liza Palmer ' s More Like Her is smart, funny, though-provoking women ' s fiction in the vein of Emily Giffin, Marian Keyes, Meg Cabot, and Jane Green. More Like Her is the story of a seemingly perfect woman who ' s the envy of her friends, neighbors, and co-workers. . .until the life of the object of their jealousy spectacularly, unexpectedly, and disastrously explodes. A novel of secrets, disappointments, false impressions—and what really goes on behind those suburban picket fences—More Like Her is ultimately about facing reality and appreciating everything that life has to offer.

Presents games and other activities from different countries and cultures that teach a variety of basic mathematical concepts.

Mothers in the twenty-first century confront us, both in clinical practice and in theory, with fascinating challenges that to some extent subvert the traditional maternal ideal: the motherhood of single women, motherhood in which the mother-child relationship seems minimal (in the case of very busy working mothers), teenage motherhood in which there is no true awareness of the maternal function, motherhood in couples of homosexual women, men who take upon themselves the maternal function (men-mothers), complex motherhood by virtue of the multiple variants that have nowadays become possible thanks to new reproductive techniques, shared motherhood, surrogate motherhood, sublimated motherhood, perverse motherhood. Psycho-history, the accumulation and variety of psychoanalytic theories of femininity and motherhood, the contribution of gender studies, cross-disciplinary research, and listening to what our patients have to say - all this has

yielded, in the past few decades, much controversial data that challenges orthodox classical thinking with respect to the role and function of women as mothers.

'This volume contains many excellent chapters on some of the most cutting edge topics in competition law today. Among the contributions are assessments of new

approaches to competition law analysis, analyses of central and controversial topics in the relationship between competition law and intellectual property, and explorations of new transnational developments in China and elsewhere. The chapters range from studies of specific cases to broad interpretations of major trends. I found many of them to be highly insightful and very useful.' – David J. Gerber, Chicago-Kent College of Law, US

'This fresh collection of essays by scholars from around the world lives up to its title: it stakes out more common ground for the competition law systems of nations. The chapters result from the fourth annual conference of the Academic Society for Competition Law (ASCOLA). The essays cover major issues that reverberate around the world today, including: How should we think about the economic foundations of competition law in view of new research on behavioral economics and consumer choice? What is the future of the treatment of resale price maintenance? What is the

proper fit of intellectual property with competition law? And how do we promote competition law and policy across borders? The collection offers insight from law, economics, political science, business strategy, and history.' – Eleanor Fox, New York University, US

In recent years, an impressive proliferation of competition laws has been seen around the world. Whilst this development may lead to greater diversity of approaches, economic arguments may promote convergence. The contributions to this book look at a number of most topical issues by asking whether the competition world is turning more towards convergence or diversity. These issues include, among others, the changing role of economics in times of economic crises and political change, the introduction of criminal sanctions, resale-price maintenance, unilateral conduct and the application of competition law to intellectual property and state-owned enterprises. *More Common Ground for International Competition Law* will appeal to academics, PhD students, and postgraduate students law and economics, members of competition agencies, legal practice and international business.

Hans Fallada was a drug addict, womanizer, alcoholic, jailbird and thief. Yet he was also one of the most extraordinary storytellers of the twentieth century, whose novels, including *Alone in Berlin*, portrayed ordinary people in terrible times with a powerful humanity. This acclaimed biography, newly revised and completely updated, tells the remarkable story of Hans Fallada, whose real name was Rudolf Ditzen. Jenny Williams chronicles his turbulent life as a writer, husband and father, shadowed by mental torment and long periods in psychiatric care. She shows how Ditzen's decision to remain in Nazi Germany in 1939 led to his self-destruction, but also made him a unique witness to his country's turmoil. *More Lives Than One* unpicks the contradictory, flawed and fascinating life of a writer who saw the worst of humanity, yet maintained his belief in the decency of the 'little man'.

More Than a Dream

So wrote Texas pioneer cattle drover William Berry

Duncan in his March 1862 diary entry, the day he joined the Confederate Army. Despite his misgivings, Duncan left his prosperous business to lead neighbors and fellow volunteers as commanding officer of cavalry Company F of Spaight's Eleventh Battalion that later became the 21st Texas Infantry in America's Civil War. Philip Caudill's rich account, drawn from Duncan's previously untapped diaries and letters written by candlelight on the Gulf Coast cattle trail to New Orleans, in Confederate Army camps, and on his southeast Texas farm after the war, reveals the personable Duncan as a man of steadfast integrity and extraordinary leadership. After the war, he returned to his home in Liberty County and battled for survival on the chaotic Reconstruction-era Texas frontier. Supplemented by archival records and complementary accounts, Moss Bluff Rebel paints a picture of everyday life for the Anglo-Texans who settled the Mexican land grants in the early nineteenth century and subsequently became citizens of the proudly independent Texas Republic. The carefully crafted narrative goes on to reveal the wartime emotions of a reluctant Confederate officer and his postwar struggles to reinvent the lifestyle he knew before the war, a way of life he sensed was lost forever. Moss Bluff Rebel will appeal to history lovers of all ages attracted to the drama of the Civil War period and the men and

women who shaped the Texas frontier. When Richard Slater receives a letter of complaint from one of his constituents, a Margaret Hayton, he merely responds with his standard letter of empty promises. Clearly, this woman is insane and must be avoided at all costs. But she will not be dismissed so easily, and when Richard finally sets eyes on the `twenty-something vision in stone-washed denim, with a cloud of dark ringlets and huge, serious eyes? he risks losing his heart, his head and quite possibly his political career. During the past quarter century, free-market capitalism was recognized not merely as a successful system of wealth creation, but as the key determinant of the health of political and cultural democracy. Now, renowned British journalist and historian Godfrey Hodgson takes aim at this popular view in a book that promises to become one of the most important political histories of our time. *More Equal Than Others* looks back on twenty-five years of what Hodgson calls "the conservative ascendancy" in America, demonstrating how it has come to dominate American politics. Hodgson disputes the notion that the rise of conservatism has spread affluence and equality to the American people. Quite the contrary, he writes, the most distinctive feature of American society in the closing years of the twentieth century was its great and growing

inequality. He argues that the combination of conservative ideology and corporate power and dominance by mass media obsessed with lifestyle and celebrity have caused America to abandon much of what was best in its past. In fact, he writes, income and wealth inequality have become so extreme that America now resembles the class-stratified societies of early twentieth-century Europe. More Equal Than Others addresses a broad range of issues, with chapters on politics, the new economy, immigration, technology, women, race, and foreign policy, among others. A fitting sequel to the author's critically acclaimed America In Our Time, More Equal Than Others is not only an outstanding synthesis of history, but a trenchant commentary on the state of the American Dream. More Good Old Stuff, a classic collection of short fiction from crime writer John D. MacDonald, the beloved author of Cape Fear and the Travis McGee series, is now available as an eBook. The companion to The Good Old Stuff, this anthology features fourteen more early stories by one of America's premier authors of hard-boiled noir. Culled from the hundreds that John D. MacDonald published in the wildly popular pulp magazines of the 1940s and '50s, these are electrifying tales of murder, corruption, intrigue, and revenge: a serial widow making a fortune by murdering her husbands . . . an amnesiac being watched by the

mob . . . an ex-cop trying to crack the case that nearly wrecked his life. All are told through MacDonald's vivid language and taut storytelling—the hallmarks of a writer who holds a distinguished place in the popular canon. This collection includes "Deadly Damsel," "State Police Report That . . .," "Death for Sale," "A Corpse in His Dreams," "I Accuse Myself," "A Place to Live," "Neighborly Interest," "The Night Is Over," "Secret Stain," "Even Up the Odds," "Verdict," "The High Gray Walls of Hate," "Unmarried Widow," and "You Remember Jeannie." Features a new Introduction by Dean Koontz Praise for John D. MacDonald "The great entertainer of our age, and a mesmerizing storyteller."—Stephen King "My favorite novelist of all time."—Dean Koontz "To diggers a thousand years from now, the works of John D. MacDonald would be a treasure on the order of the tomb of Tutankhamen."—Kurt Vonnegut "A master storyteller, a masterful suspense writer . . . John D. A Novel

The sister is a knife thrower in a magician's stage act, the brother is an undertaker's assistant. Neither orphan knows of

the other's existence. Until, that is, three terrible Aunts descend on the girl's house and imprison her guardian, the Great Cardamom. His dying act is to pass the girl a note with clues to the secret he has carried to his grave. Cardamom was one of three explorers on an expedition to locate the legendary Amarant, a plant with power over life and death. Now, pursued by flesh-eating crow-like ghuls, brother and sister must decode the message and save themselves from its sinister legacy. This book chronicles the rise of goddess worship in the region of Bengal from the middle of the eighteenth century to the present. Focusing on the goddesses Kali and Uma, McDermott examines lyrical poems written by devotees from Ramprasad Sen (ca. 1718-1775) to Kazi Nazrul Islam (1899-1976).

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking

into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.
