ColdFusion Presents: New Thinking

The Pocket Idiot's Guide to Satellite Radio

The Complete Idiot's Guide to MBA Basics, 3rd Edition

A Managerial Approach

Electronics Buying Guide

The creator of YouTube's ColdFusion explores the development of technology from Industrial Revolution to Artificial Intelligence to figure out what's next. As each new stage of technology builds on the last, advancements start to progress at an exponential rate. In order to know where we're headed, it's essential to know how we got here. What hidden stories lie behind the technology we use today? What drove the men and women who invented it? What were those special moments that changed the world forever? Daggoo Altraide explores these questions in a history of human innovation that reveals how new technologies influence each other, how our modern world came to be, and what future innovations might look like. From the electric world of Tesla and the steam engine revolution to the first computers, the invention of the internet, and the rise of artificial intelligence, New Thinking tells the stories of the men and women who changed our world with the power of new thought.

Enterprise: Entrepreneurship and Innovation

Programming the Mobile Web

2008 AccessWorld Guide to Assistive Technology Products

*Enterprise, Entrepreneurship and Innovation: Concepts, Contexts and Commercialisation provides readers with an accessible and readable introduction to the various dimensions of entrepreneurship and market innovation. It has a clear structure that is easy for the reader to follow and it focuses on enterprising behaviour. The text contains: * case studies and 'pause and reflect' situations for the entrepreneur to deliberate on the information they have available before making their decision. This helps to emphasise the point that there are few simple and straightforward decisions closely reflecting decisions in 'real life'. * integrative personal development activities that provide a basis for readers to reflect on the learning of the chapters and develop a personal development strategy to increase their ability to become more entrepreneurial and improve their ability to manage market innovation. * an accompanying website giving students and lecturers access to additional resources in order to explore the subject further. A full set of powerpoint slides plus exercises is included, plus suggestions for the use in class of the case studies and other illustrations. Students can access further learning resources to build up their knowledge of innovation situations using the hotlinks to useful websites that will add further depth and bring up to date the case studies and illustrations. Enterprise, Entrepreneurship and Innovation: Concepts, Contexts and Commercialisation shows: * how to understand and acquire the entrepreneur's skills, attitudes and knowledge * the techniques needed to generate new business and create a new organisation * how to become more innovative, self reliant, and opportunistic. * the learning and decision-making processes of entrepreneurs*

We all have our favourite radio stations-the ones we listen to each morning on the way to work or school, at night as we relax or get ready to go out. But when we travel too far from the signal, we wind up with static, and find ourselves scanning through countless stations to find something-anything-to listen to. With satellite radio, however, our favourite stations are available to us from one end of the country to the other, playing the music or talk shows we like 24 hours a day, 7 days a week. . . all virtually uninterrupted by commercials. The Pocket Idiot's Guide to Satellite Radioprovides an essential introduction to the world of satellite radio. Whether you're considering making the purchase and are confused by the options and equipment available or are already a user looking for installation

guidance and tips and tricks for getting the most out of your purchase, this book is designed to help you navigate through the sometimes-complicated world of satellite radio.
