3,000 years ago, deep inside the forests of India, a great 'thought- revolution' was brewing. In those forest labs, the brightest scientist-philosophers contemplated the universe and reflected upon the already-ancient texts called the Vedas, gaining some startling insights into questions that we still have no watertight answers to, like: * Why the universe made of? *How do I know I'm looking at a tree when I see one? *Who am I? My body, my mind, my intelligence, my emotions, or NOTA? And where did they put those explosive findings? In a sprawling body of goose-bumpy, thought-provoking and fascinating oral literature called the Upanishads! Intimidated? Don't be! For this joyful, fun guide to some of India's most enduring and secular wisdoms, reinterpreted for first-time explorers by author Roopa Pai, is guaranteed to keep you turning the pages. Why haven't you read it yet?

Two women. All alone. With no provision...Can they find hope in a foreign land? Ruth leaves her home with a barren womb and an empty future after losing her husband. She forsakes her abusive parents and follows the woman she has grown to love as a true parent, her late husband's mother, Naomi. Ruth arrives in Israel with nothing to recommend her but Naomi's love. She is destitute, grief-stricken, and unwanted by the people of God. But God has great plans for her. While everyone considers Ruth an unworthy outsider, she is shocked to find the owner of the field—one of the wealthiest and most honored men of Judah—is showing her favor. Long since a widower and determined to stay that way, Boaz finds himself irresistibly drawn to the foreign woman with the dark, haunted eyes. He tells himself he is only being kind to his cousin Naomi's chosen daughter when he goes out of his way to protect her from harm, but his heart knows better. Obstacles. Heartache. Withered dreams. How can God forge love, passion, and new hope between two such different people?

From the first shots fired at Lexington to the signing of the Declaration of Independence to the negotiations for the Louisiana Purchase, Joseph J. Ellis guides us through the decisive issues of the nation's founding, and illuminates the emerging philosophies, shifting alliances, and personal and political foibles of our now iconic leaders—Washington, Jefferson, Madison, Hamilton, and Adams. He casts an incisive eye on the founders' achievements, arguing that the American Revolution was, paradoxically, an evolution—and that part of what made it so extraordinary was the gradual pace at which it occurred. He explains how the idea of a strong federal government was eventually embraced by the American people, and details the emergence of the two-party system, which stands as the founders' most enduring legacy. Ellis is equally incisive about their failures, and he makes clear how their inability to abolish slavery and to reach a just settlement with the Native Americans has played an equally important role in shaping our national character. With eloquence and insight, Ellis strips the mythic veneer of the revolutionary generation to reveal men both human and inspired, possessed of both brilliance and blindness. American Creation is an audiobook that delineates an era of flawed greatness, at a time when understanding our origins is more important than ever.

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family—and the roots--she so desperately craves.

Out from the Heart James Allen - AS THE HEART, SO IS THE LIFE. The within IS ceaselessly becoming the without. Nothing remains unrevealed. That which is hidden is but for a time; it ripens and comes forth at last. Seed, tree, blossom, and fruit are the fourfold order of the universe. From the state of a mans heart proceed the conditions of his life. His thoughts blossom into deeds; and his deeds bear the fruitage of character and destiny.Life is ever unfolding from within, and revealing itself to the light, and thoughts engendered in the heart at last reveal themselves in words, actions, and things accomplished.As the fountain from the hidden spring, so flows forth a mans life from the secret recesses of his heart. All that he is and does is generated there. All that he will be and do will take its rise there.Sorrow and happiness, suffering and enjoyment, fear and hope, hatred and love, ignorance and enlightenment, are nowhere but in the heart. They are solely mental conditions.Man is the keeper of his heart; the watcher of his mind; the solitary guard of his citadel of life. As such, he can be diligent or negligent. He can keep his heart more and more carefully. He can more strenuously watch and purify his mind; and he can guard against the thinking of unrighteous thoughts>this is the way of enlightenment and bliss.James Allen was born in Leicester, Central England, November 28, 1864. The family business failed within a few years, and in 1879 his father left for America in an effort to recoup his losses. The elder Allen had hoped to settle in the United States, but was robbed and murdered before he could send for his family.James Allen is a literary mystery man. His inspirational writings have influenced millions for good. Yet today he remains almost unknown..... None of his nineteen books give a clue to his life other than to mention his place of residence - Ilfracombe, England. His name cannot be found in a major reference work. Not even the Library of Congress or the British Museum has much to say about him.Who was this man who believed in the power of thought to bring fame, fortune and happiness? Or did he, as Henry David Thoreau says, hear a different drummer?..... James Allen never gained fame or fortune. That much is true. His was a quiet, unrewarded genius. He seldom made enough money from his writings to cover expenses.

InThe Irrationals, the first popular and comprehensive book on the subject, Julian Havil tells the story of irrational numbers and the mathematicians who have tackled their challenges, from antiquity to the twenty-first century.
