A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. The Things They Carried depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

A guide for anyone who wants to live conscientiously and make a positive impact Western society makes it challenging for those of us who desire a just world--one of shared prosperity--to live a life that is consistent with our values. Handbook for an Integrated Life provides both philosophical principles and practical steps that you can use to bring your actions in line with your goal of creating a world that works for everyone. Sharon Schneider, a philanthropy consultant to some of the world's wealthiest families, distills her expertise into pragmatic guidance for all of us--even those on a budget. She lays out seven foundational principles on which you can base your everyday decisions, helping you: * Identify the cultural norms that lead you away from your goals * Differentiate between giving back and simply giving * Avoid settling for slacktivism * Resist the allure of convenience * Gain the courage to challenge your beliefs or assumptions * Understand the benefits of purposeful consumption * Recognize your power to effect change Schneider supplements this guidance with useful steps and real-world applications to help you employ the principles in multiple areas of your life, including in food choices, clothing choices, finances, the workplace, relationships, and more. You will come away feeling, at last, equipped and empowered to follow your internal compass.

This resource for the Michigan Department of Education's math standards exam highlights mathematical processes and number concepts, patterns, algebraic relationships and functions, measurement and geometry, data analysis, statistics, probability, and discrete mathematics. (Study Guides)

MTTC Integrated Science (Secondary) Practice Questions are the simplest way to prepare for your MTTC test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our MTTC Integrated Science (Secondary) Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our MTTC Integrated Science (Secondary) Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand. Includes 25 competencies/skills found on the MTTC Chemistry test and 125 sample-test questions. This guide, aligned specifically to standards prescribed by the Michigan Department of Education, covers the sub-areas of Historical Perspective Geographic Perspective; Civic Perspective; Economic Perspective; Inquiry and Public Discourse and Decision Making.
