*exposure assessment  
in epidemiological  
studies. Risks  
associated with  
occupational and  
environmental  
exposure are  
generally small, but  
the exposed  
population, and hence  
the population  
attributable risk, may  
be large. To detect*

Where To  
Download Multiple  
Choice Questions  
*small risk, the  
exposure assessment  
needs to be very  
refined. Exposure  
assessment is the  
study of the  
distribution and  
determinants of  
potentially hazardous  
agents, and includes  
the estimation of  
intensity, duration and  
frequency of exposure,*

Where To
