

Mumpreneur On Fire 2 20 Amazing Women Share Their Inspirational Stories Of Struggle And Success Volume 2

The purpose of this book is to identify and analyze modern classics in entrepreneurship research with the goal of highlighting cutting-edge themes in the work of various scholars that are pushing the boundaries of the field, post 2000. As the entrepreneurship field matures, it is important to identify the novel contributions that will help shape the next decades of scholarship, by providing scholars with the concepts, frameworks, and approaches needed to help develop the new theories and practices of entrepreneurship. By focusing on emerging key contributions, this book takes a stance that sets it apart from other similar works by scholars that have focused only on existing themes rather than those that will characterize the relationship between entrepreneurship and new technological advances, growing inequalities, gender, diversity and inclusion, and socio-political shifts in the landscape of entrepreneurial ecosystems, allowing for critical and new conversations on entrepreneurship to take shape. This book will provide discussion on emergent themes and approaches that will continue to build the future of entrepreneurship as an exciting and rigorous academic discipline.

This edited book focuses on the organization and meaning of craft work in contemporary society. It considers the relationship between craft and place and how this enables the construction of a meaningful relationship with objects of production and consumption. The book explores the significance of raw materials, the relationship between the body, the crafted object and the mind, and the importance of skill, knowledge and learning in the making process. Through this, it raises important questions about the role of craft in facing future challenges by challenging the logic of globalized production and consumption. The Organization of Craft Work encompasses international analyses from the United States, France, Italy, Australia, Canada, the UK and Japan involving a diverse range of sectors, including brewing, food and wine production, clothing and shoe making, and perfumery. The book will be of interest to students and academic researchers in organization studies, marketing and consumer behaviour, business ethics, entrepreneurship, sociology of work, human resource management, cultural studies, geography, and fashion and design. In addition, the book

will be of interest to practitioners and organizations with an interest in the development and promotion of craft work.

Meritocracy today involves the idea that whatever your social position at birth, society ought to offer enough opportunity and mobility for 'talent' to combine with 'effort' in order to 'rise to the top'. This idea is one of the most prevalent social and cultural tropes of our time, as palpable in the speeches of politicians as in popular culture. In this book Jo Littler argues that meritocracy is the key cultural means of legitimation for contemporary neoliberal culture - and that whilst it promises opportunity, it in fact creates new forms of social division. *Against Meritocracy* is split into two parts. Part I explores the genealogies of meritocracy within social theory, political discourse and working cultures. It traces the dramatic U-turn in meritocracy's meaning, from socialist slur to a contemporary ideal of how a society should be organised. Part II uses a series of case studies to analyse the cultural pull of popular 'parables of progress', from reality TV to the super-rich and celebrity CEOs, from social media controversies to the rise of the 'mumpreneur'. Paying special attention to the role of gender, 'race' and class, this book provides new conceptualisations of the meaning of meritocracy in contemporary culture and society.

Entrepreneurship is an academic discipline that, despite decades of growth in research and teaching activity lacks a traditionally distinct or common theoretical domain. In this book, editors Thomas N. Duening and Matthew Metzger explore entrepreneurial identity, facets of entrepreneurship education in forming and developing this identity and the development of entrepreneurs in general. Chapters focus primarily on macro-level identity issues (i.e., how do these entrepreneurial archetypes form, persist, and sometimes change) or micro-level identity issues (i.e., how can educators and resource providers identify, communicate, and incentivize identity construction among aspiring entrepreneurs), topics that will be of interest to researchers and students alike.

Entrepreneurship underpins many roles within the publishing industry, from freelancing to bookselling. Entrepreneurs are shaped by the contexts in which their entrepreneurship is situated (social, political, economic, and national).

Additionally, entrepreneurship is integral to occupational

identity for book publishing entrepreneurs. This Element examines entrepreneurship through the lens of identity and narrative based on interview data with book publishing entrepreneurs in the US Book publishing entrepreneurship narratives of independence, culture over commerce, accidental profession, place, risk, (in)stability, busyness, and freedom are examined in this Element.

Fourteen and Pregnant is written for the young girl who might find herself unexpectedly pregnant. Teen moms can often feel overwhelmed and hopeless. But Mary Jenkins, a mom to five who became pregnant with her first at age fourteen, offers her story as encouragement to the scared and hurting. Her story is inspirational. Though she has found happiness and meaning now, she had to overcome challenges, regrets, and heartbreaks along the way. She offers readers hope by writing words of healing and strength. While having a baby at such a young age was unplanned, the experience became one of Mary's greatest blessings. The relationship she now shares with her daughter Vichica is rich, and Mary appreciates all she learned in assuming such weighty responsibility early on. Mary gives the teen reader hope that life will get better. While a young mom might feel life is over with the birth of her baby, that event can actually be the beginning of their best chapter yet.

"In her coaching and programs for women, Tara Mohr saw how women were "playing small" in their lives and careers, were frustrated by it, and wanted to "play bigger." She has devised a proven way for them to achieve their dreams by playing big from the inside out."--Amazon.com.

When a servant girl is found dead, a supposed suicide, Victorian gentleman and amateur sleuth Charles Lenox is called in by his old friend, Lady Jane, to investigate and begins to suspect that the girl has fallen victim to a rare and deadly poison, in a case complicated by the discovery of a second body in the middle of London's most fashionable ball. A first novel. Reprint. 20,000 first printing.

As the breadth and empirical diversity of entrepreneurship research have increased rapidly during the last decade, the quest to find a "one-size-fits-all" general theory of entrepreneurship has given way to a growing appreciation for the importance of contexts. This promises to improve both the practical relevance and the theoretical rigor of research in this field. Entrepreneurship means different things to different people at different times and in different places and both its causes and its consequences likewise vary. For example, for some people entrepreneurship can be a glorious path to emancipation, while for others it can represent the yoke tethering them to the burdens of overwork and drudgery. For some communities it can drive renaissance and vibrancy while for others it allows only bare survival. In this book, we assess and attempt to push forward contemporary conceptualizations of contexts that matter for entrepreneurship, pointing in particular to opportunities generating new insights by attending to contexts in novel or underexplored ways. This book shows that the ongoing contextualization of entrepreneurship research should not simply generate a proliferation of unique theories – one for every context – but can instead result in better theory construction, testing and understanding of boundary conditions, thereby leading us to richer and more profound understanding of entrepreneurship across its many forms. Contextualizing Entrepreneurship Theory will critically review the current debate and existing literature on contexts and entrepreneurship and use this to synthesize new theoretical and methodological frameworks that point to important directions for future research.

In 2020, the COVID-19 pandemic brought the world to its knees. When we weren't sheltering in place, we were advised to wear masks, wash our hands, and practice social distancing. We watched in horror as medical

Online Library Mumpreneur On Fire 2 20 Amazing Women Share Their Inspirational Stories Of Struggle And Success Volume 2

personnel worked around the clock to care for the sick and dying. Businesses were shuttered, travel stopped, workers were furloughed, and markets dropped. And people continued to die. Amid all this uncertainty, writers and artists from around the world continued to create comics, commenting directly on how individuals, societies, governments, and markets reacted to the worldwide crisis. *COVID Chronicles: A Comics Anthology* collects more than sixty such short comics from a diverse set of creators, including indie powerhouses, mainstream artists, Ignatz and Eisner Award winners, and media cartoonists. In narrative styles ranging from realistic to fantastic, they tell stories about adjusting to working from home, homeschooling their kids, missing birthdays and weddings, and being afraid just to leave the house. They probe the failures of government leaders and the social safety net. They dig into the racial bias and systemic inequities that this pandemic helped bring to light. We see what it's like to get the virus and live to tell about it, or to stand by helplessly as a loved one passes. At times heartbreaking and at others hopeful and humorous, these comics express the anger, anxiety, fear, and bewilderment we feel in the era of COVID-19. Above all, they highlight the power of art and community to help us make sense of a world in crisis, reminding us that we are truly all in this together. The comics in this collection have been generously donated by their creators. A portion of the proceeds from the sale of this volume are being donated by the publisher to the Book Industry Charitable Foundation (Binc) in support of comics shops, bookstores, and their employees who have been adversely affected by the pandemic.

Nearly a decade after Spain's conquest of Mexico, the future of Christianity on the American continent was very much in doubt. Confronted with a hostile colonial government and Native Americans wary of conversion, the newly-appointed bishop-elect of Mexico wrote to tell the King of Spain that, unless there was a miracle, the continent would be lost. Between December 9 and December 12, 1531, that miracle happened, and it forever changed the future of the continent. It was then that the Virgin Mary famously appeared to a Native American Christian convert on a hilltop outside of what is now Mexico City. The image she left imprinted on his cloak or tilma has puzzled scientists for centuries, and yet Our Lady of Guadalupe's place in history is profound. A continent that just months before the apparitions seemed completely lost to Christianity suddenly and inexplicably embraced it by the millions. Our Lady of Guadalupe's message of love replaced the institutionalized violence of the Aztec culture, and built a bridge between two worlds -- the old and the new -- that were just ten years earlier engaged in brutal warfare. Today, Our Lady of Guadalupe continues to inspire the devotion of millions. From Canada to Argentina -- and even beyond the Americas -- one finds great devotion to her, and great appreciation for her message of love, unity and hope. Today reproductions of the Virgin's miraculous image can be seen throughout North and South America, in churches and homes, on billboards and even clothing apparel. Her shrine in Mexico City, where the miraculous image is housed to this day, is one of the most

visited in the world. In Our Lady of Guadalupe: Mother of the Civilization of Love, Anderson & Chavez trace the history of Our Lady of Guadalupe from the sixteenth century to the present discuss of how her message was and continues to be an important catalyst for religious and cultural transformation. Looking at Our Lady of Guadalupe as a model of the Church and Juan Diego as a model for all Christians who seek to answer Christ's call of conversion and witness, the authors explore the changing face of the Catholic Church in North, Central, and South America, and they show how Our Lady of Guadalupe's message was not only historically significant, but how it speaks to contemporary issues confronting the American continents and people today.
