My Bucket Journal

Our Bucket List

My Bucket List: Create and Record Your 100 Bucket List Ideas, Goals, and Dreams to Live an Inspired Life with This Handy 6"x9" Journal

This Journal is a safe place for your dreams to live. This is where you can track your dreams and update them as you evolve over time. This journal is designed to help you overcome the greatest barriers that will stop you from achieving your goals. The following pages will help you take tangible steps towards your goals and help you achieve them. The problem is that our personal goals often take the back burner in our busy lives. They are the first things to fall through the cracks of our packed schedules and most of us continue to push our personalgoals until it's too late. When we reach our final days we regret the things we didn't do, not the things we did. When researchers from Cornell asked thousands of people on their deathbed to name the biggest regret in their entire life, 76% of participants had the same answer, "Not fulfilling my ideal self." This statistic not only broke my heart but it was a turning point in my life. My mission became to not only ensure that I didn't end up in that76% but to also help as many people as I could to not end up there either. It's wild to think that over three-quarters of the population will reach the end of their life and think, "Damn. I wish I had more courage to live a life true to myself. Not the life that others expected of me."The goal of The Bucket List Journal is simple: ensure that you do not reach your deathbed regretting the things you did not do. My bucket list transformed my life. It changed the realities of my friends and my family and I believe it has the power to change your life too.

Bucket List Journal There are a long list of benefits you will gain by having a bucket list - but the fact that you have are looking at this book means you probably already know that! If you don't, here are just some of the ways a bucket list will improve your life: They force you to look at what you really want They give you something to be excited about They help you to create focus They will push you out of your comfort zone They will make you dream bigger They will help you to feel accomplished They will make you more interesting They will keep you active They will constantly motivate you (And so much more) This book was designed to help create and importantly keep a record of your bucket list and the growth you get from each activity. A bucket list is not something you should simply complete and forget. Each activity should be a moment of personal growth, and give you a chance to reflect - After all, your bucket list is your own, and there is a personal reason for having each activity on your list (whether it is for you alone, and your family, as a couple etc). What this book contains: Cover page with title for naming your list Fillable list that also acts as contents page Space for 100 Activities Each Bucket List Page contains the following: Activity Category Why this is on your list Goals / expectations Other Notes Date completed Completed At Completed with Quick recap of events Rating Do it again (Yes / No) Reflections / thoughts / notes Space for image or drawing Book Features 6 x 9 inch Printed on white paper Perfect bound Soft Cover 208 Pages (100 Activities in the list) Some people will have different bucket lists (E.g. Travel bucket list, things to do before you're 30, Life goals, things to achieve in my lifetime, retirement bucket list etc). Although this book has a 'category input section' some people find it easier to separate their lists (e.g. by having a separate book for each list). This is a personal choice and may depend on the size of each list. (This book has space for 100 list items). Check our author page for more cover options (BucketList Express)! Quick tips for keeping a bucket list: - Don't be afraid to add the list over time Complete your list as you go, things to do before you list things (Do not wait until retirement or until 'the time is right') Ask yourself questions to build your list (Where do I want to be in 5 years? Where would I like to travel? How can I push myself? Your bucket list is your own! You should only add items that you personally wish to complete. You should also not be afraid to add items due to fear of judgment from others.

What are you gonna do with your life? Ever had someone say that to you only to have absolutely no response. Do you really know what you want to do before you die? Not many of us do and that is because we have never taken the time to think about it. We are too busy living it. A bucket list journal, diary, notebook or whatever you want to call it forces you to think about it. What do you want to do before you die? You could climb to the top of a mountain, swim with some sea creature, ride a unicorn (o.k. let's keep it realistic) or pretty much anything else you can think of. Just start thinking of 100 things you want on your bucket list. If you get to 101 just buy another one of these books! If you need inspiration watch The Bucket List movie. By writing down your goals of what you want to achieve, it allows you to visualize it and make it happen. Saying you want to travel to the Amazon jungle someday is a lot less powerful then writing down an exact date you plan on going. Write down what you plan on doing in as much detail as you can. Some bucket list items might be easy to achieve and others will take more planning. As long as what you want to accomplish makes you feel just a bit more whole inside you have nailed it. Let your imagination run wild with what you want to do. Spend some time reflecting on the what it's. What if you got told you were going to die in one year? What are those things you absolutely have to experience before you "kick the bucket"? If you are ready to take your life in a new direction with the simple act of writing out your goals then scroll up and hit the orange buy button today.
