The unfathomable rate of Black males in education should result in a national call to action. Across the country Black males represent only 2% of the teaching workforce. By the year 2024, minority students will be the majority, yet our current education workforce does not reflect this growing trend in what has been called "The Browning of America." Why is it acceptable that a student can matriculate from Kindergarten through twelfth grade and not have one Black male as his or her teacher? Why has

it been a challenge to recruit and in many instances retain Black males in the classroom? Unopened Books explains what is referenced in the book as the Five Black Male Deterrents in Education. Through the personal narrative of Jermaine D. Gassaway, a native Washingtonian, educator, and school leader; coupled with practical solutions, Unopened Books provides insight to multiply the 2%. It is intended to not only be a provocative conversation starter but an actionable approach to increase the number of Black men in the classroom.

Is your special friend always waiting at the door for you with a wagging tail and an unconditional look of happiness? Is your favorite lap warmer always ready to keep you company on dark and stormy nights? No matter if your friend is furry, finned, feathered, or leathered, no doubt your pet plays an important role in your life and your family. In fact, your pet may be your family. But after the inevitable happens and you sob your last good-bye, will you see your pet again? In Heaven? Does your pet have a soul? Will your pet go to Heaven? This fun and light-hearted look at a seriously sad subject reveals many perspectives about Spot's stairway to Heaven, Fluffy's final resting place, and birds of Paradise. Will your pet rabbit rest in peace, or will your fish float forever in the septic tank? In addition to their own blend of passionate and compassionate diva dialogue, the four writers quote devoted pet owners, clergy, friends, family, and even those who just aren't "pet people." From the variety of perspectives and opinions, this is a heart-warming, tail-wagging conversation sure to keep you smiling from now until then...

This first book contains information specific to high school success and applying to colleges as well as information to help young people with interviewing, creating relationships with potential mentors, and following their passions. Exercises that build on the information are included.

Phyllis Zimbler Miller has an M.B.A. from The Wharton School of the University of Pennsylvania and coaches high school students on their college applications using the marketing principles in this book.

Based on extensive research, Grammar and Beyond ensures that students study accurate information about grammar and apply it in their own speech and writing.

This is the first half of Student's Book, Level 2. The Student's Book is the main component of Grammar and Beyond. In each unit, students study the grammar in a realistic text and through charts and notes informed by a billion-word corpus of authentic language. The exercises provide practice in reading, writing, listening, and speaking, making this a complete course. Students learn to avoid common mistakes, based on an extensive corpus of learner language. Each unit concludes with a Grammar for Writing section, in which students apply the grammar in an extended writing task.

All the Advice You Need to Get In To the College You Want! Getting in to your dream college has never been more competitive. Swamped with applications, admissions officers spend 10-20 minutes on each, looking for reasons to say no. It's crucial that students make it easy for colleges to say yes. In his new book, Brand U, renowned college admissions adviser David Montesano shows you exactly how to position yourself as the kind of applicant colleges are eager to admit. David's proven, easy-to-follow Montesano Method takes the fear and uncertainty out of the admissions process, maximizes your chances of success, and is a guide that addresses the goals and concerns of both students and parents, because going through college applications is a family experience. The Montesano Method has 4 phases: SPARK: Here we identify the most critical element for your college application, your spark. This is what sets you apart from the crowd. FIRE: With your spark, now we build your fire, finding and developing your abilities and experiences that make you exceptional. This process isn't just about college, but life. VISION: What kind of undergraduate experience is right for you? We avoid superficial criteria like magazine rankings and instead guide you to the best undergrad fit for you. BRAND: Here, by positioning how you're different and what you bring to each college, we turn the admissions game around so that you're in control and colleges are pursuing you. The college game is too rough to go it alone. With Brand U, you'll have everything you need to find-and get into-the college of your dreams. Brand U Reviews "David Montesano has written a masterful book on how high school students can brand themselves in a way that will lead to winning more college acceptances. With top schools becoming more exclusive, getting the inside scoop on what excites college admission officers is invaluable. I highly recommend that parents and teenagers read this book." Lynn O'Shaughnessy, Education and Finance Writer, CBS Moneywatch "Montesano expertly translates tried and tested strategies and marketing techniques into a "how to" get-into-the-college-of- your-choice guide. His techniques work. I know, because my son got into 14 of the 15 schools he applied to, including his "reach" schools. Do not apply without reading this first!" John McLaughlin, Former CEO and Group President, Monster.com About the Author: David Montesano is founder of College Match (collegematchus.com) - a leading global educational consultancy; more than 96% of Montesano Method students have gained admission to their "reach" colleges and graduate schools, winning merit scholarships averaging \$57,000 - the largest amount for students whose awards are being measured. Brand U is David's second book; his first was 10 Strategic College Admission Steps (College Bound News). Termed a "new breed" of college admission consultant by The Washington Post/Newsweek, David contributes to articles in The New York Times, U.S. News & World Report's "Best Colleges," the CBS Moneywatch Blog, Seattle Magazine and Newsweek/Daily Beast. Appearances include CBS-TV in San Francisco and on radio shows and webcasts including Michael Dresser Live and College Week Live. David also offers the Montesano Methodology in a six-part video course available at www.Uninfluence.com.

A series that prepares students for paragraph and composition writing, while making the process enjoyable. Writing from Within, Level 2 focuses on generating topics, writing cohesive paragraphs, and organizing them into clear, logical compositions. The book contains twelve units, each one centering around a final writing assignment. As students prepare for their assignment, they brainstorm ideas for writing and analyze sample paragraphs and compositions for both language and organization. The outbreak of the COVID-19 pandemic has created challenges and opportunities for both teachers and students. In many countries, online teaching was something new, never experienced before. Therefore, everyone had to start from scratch. The articles in this proceeding provide the experiences, challenges, and strategies that L2 teachers and students had during the recent emergency remote teaching. Four main themes were covered: 1) online L2 learning curriculum and materials development, 2) L2 learning and acquisition in a virtual learning environment, 3) online L2 testing, assessment, program evaluation, and 4) teacher and students' critical reflections on online L2 teaching and learning practices. Written by L2 teachers and teacher educators, we dedicate this proceeding to all L2 teachers and

teacher educators who continue trying to maintain high-quality L2 education during and post-pandemic.

Please note that this is the 2nd book in the series. The first book is recommended before beginning this one. Are you looking for the ? BEST, ? EASIEST, and ? QUICKEST way for you or your child to learn Spanish? Then, the Spoken Spanish at Home book series (for Native English Speakers) is for you! This series is what I created for my own family to practice Spanish. We are too busy for formal classes, so we have to fit in language learning wherever we can! SUMMARY Book #2 (this book): Learn the vocabulary for furniture and appliances in the home. Book #1 (previous book): Learn the vocabulary for rooms in a house. FROM THE LANGUAGE CURRICULUM EXPERT Learning Spanish since 2005, teaching since 2010, graduating with a B.A. and 2 M.A.s, I love to study. However, I spent a lot of time on things that I never ended up needing. Then, when my husband wanted to improve his English, we tried many different courses. But none of them worked. They were filled with: Too much boring grammar Vocabulary that he would never use No interaction or practice WE KNOW OTHER BILINGUAL FAMILIES HAVE THE SAME PROBLEM There had to be a better way! A way for him to learn quickly, effectively, and to stay motivated by seeing a ton of progress along the way. And as a bilingual family, as well as expats, prioritizing the vocabulary that we see, use, and touch everyday, was my number one goal. Therefore, I set out to create materials that are Easy enough for any beginner student to understand Teach the most common and valuable concepts FIRST Encourage speaking practice Can be read together as a family HIGHLIGHTS OF THE BOOK With the read-aloud strategy that you will experience in this book, students will see: Easy to understand grammar structures. Vocabulary words with bright pictures. A book that can be read as a family, regardless of age. Visuals that help younger learners easily participate (before they can read). Faster speaking results than traditional grammar-based programs. An increase in overall comprehension as they pick-up everyday words. HOW IS A BOOK INTERACTIVE? Not just a picture book, Learn English Around the House Book 1 for Native Spanish Speakers, makes beginner students (children, teens, and adults!) use the information right away. ? Vocabulary is replaced by pictures through the book. ? Students have to orally say the vocabulary as they read aloud. It sounds much easier than it is! They are not just repeating words from the paper. Instead, they have to recall the correct English vocabulary word as they read. This strategy is meant to help students retain the information quicker, and for a longer period of time. When students have to stop and think, (or flip back to the vocabulary page), it sends

a message to their brains. The brain understands that trying to find this word means that it must be important. And the brain holds on to important information. AN ENTIRE SERIES OF ENGLISH LANGUAGE BOOKS FOCUSED ON THE HOME Once you finish this book, make sure you read the next one. You will have repetition of common vocabulary. It will introduce more grammar to build on your current knowledge. Each book has a new skill to help you progress. You will see immediate results and progress.

<https://www.youtube.com/channel/UCXP3bY7BbMt1pXK0tPp8G4Q> It's time to think about where the digital marketing world is actually heading. The answer is quite simple and known to you - "Artificial Intelligence". The power of Artificial Intelligence for digital marketing usage can be compared to a treasure-house of activities and it cannot be measured instantly, at all. Today, the presence of "Artificial Intelligence"(AI) is common in almost every area - such as self-driving cars, machine learning, using your own personal assistants such as Siri, Alexa and others. In 2020, AI continues to take firm steps to become increasingly integral to our world. Digital marketing is indeed one of the most exciting applications for AI. Artificial Intelligence in Digital Marketing (AIDM) plays a role in making life simpler for business organisations that deploy marketing. One can rely on AI development resources and tools to simplify, cut costs, reduce manual labor etc. AI tools that function with neural networks are becoming more and more powerful. They aid in search and analysis of consumer behaviour with big data and information. Despite all these incredible technologies, the Internet seemed like a source of confusion for many. Nevertheless, today sophisticated companies are using artificial intelligence to devise digital marketing plans. Some companies use AI to get at the top of their game or grow ahead by devising brilliant digital marketing strategies— and to maintain that level. AI can save companies from spending too much money on time-bound human resources. It can speed up tasks with minimal effort, reduce your spendings on manual labour - at the same time. This book serves to be a brief insight or a very short compilation of 9 years of research that I conducted on Artificial Intelligence in Digital Marketing (AIDM). It will convey the guided method you can leverage to 'Enter the Digital Marketing Universe with the Power of Artificial Intelligence' with Future 1.0 techniques. Nevertheless, AI is not just about chatbots and personal helpers or assistants. You can find various forms of artificial intelligence that enable digital marketers in the field to make increasingly brilliant strategic and marketing decisions. Working on digital marketing with Artificial Intelligence projects require great practice, according to the details and research available, as far as the current scenario is concerned. Artificial intelligence is an amazing and grand asset for your company to simply work wonders. Using digital marketing tactics for AI will help brands offer enhanced customer experience and more efficiently market the brand. In addition, AI digital marketing will change the way we create brands and communicate with clients. So, get ready for Lights. Camera. Action. with Marketing Legend "Srinidhi Ranganathan".

This book introduces the concept of worth for design teams, relates it to experiences and outcomes, and describes how to focus on worth when researching and expressing design opportunities for generous worth. Truly interdisciplinary teams also need an appropriate common language, which was developed in the companion book Worth-Focused Design, Book 1: Balance, Integration, and Generosity (Cockton, 2020a). Its new lexicon for design progressions enables a framework for design and evaluation that works well with a worth focus. Design now has different meanings based upon the approach of different disciplinary practices. For some, it is the creation of value. For others, it is the conception and creation of artefacts. For still others, it is fitting things to people (beneficiaries). While each of these design foci has merits, there are risks in not having an appropriate balance across professions that claim the centre of design for their discipline and marginalise others. Generosity is key to the best creative design—delivering unexpected worth beyond documented needs, wants, or pain points. Truly interdisciplinary design must also balance and integrate approaches across several communities of practice, which is made easier by common ground. Worth provides a productive focus for this common ground and is symbiotic with balanced, integrated, and generous (BIG) practices. Practices associated with balance and integration for worth-focused generosity are illustrated in several case studies that have used approaches in this book, complementing them with additional practices.

In this book, Troy Hicks—a leader in the teaching of digital writing—collaborates with seven National Writing Project teacher consultants to provide a protocol for assessing students' digital writing. This collection highlights six case studies centered on evidence the authors have uncovered through teacher inquiry and structured conversations about students' digital writing. Beginning with a digital writing sample, each teacher offers an analysis of a student's work and a reflection on how collaborative assessment affected his or her teaching. Because the authors include teachers from kindergarten to college, this book provides opportunities for vertical discussions of digital writing development, as well as grade-level conversations about high-quality digital writing. The collection also includes an introduction and conclusion, written by Hicks, that provides

context for the inquiry group's work and recommendations for assessment of digital writing. Book Features: An adaptation of the Collaborative Assessment Conference protocol to help professional learning communities examine students' digital work. Detailed descriptions of students' digital writing, including the assessment process and implications for instruction. Links to the samples of student digital writing available online for further review and to be used as digital mentor texts. "Building on his foundational work in helping us to embrace digital writing in the classroom, Hicks and his collaborators help us take the next step to becoming teachers who practice authentic assessment that supports students to learn through digital writing. This is the book (and the thinking) that advances our field." -Sara Kajder, Clinical Assistant Professor, Department of Language and Literacy Education, University of Georgia
