This book is based on the parody account Fake Headteacher. Fake Headteacher has become one of the most inspiring and innovative primary Headteachers this country has seen for many years. With his long book scrutiny checklists, non-negotiables and expertise in micro-management, Fake Headteacher has certainly transformed the lives of many teachers up and down the country. You too, can now learn the secrets of how to manage a school effectively with his new book 'Non-negotiables'. If you are already a Headteacher, an ambitious Deputy or still working your way up the teacher pay scale, this book is a must. Based on the parody account Fake Headteacher.

First published in 1967, this book looks at what the role of a headteacher should be, challenging the traditional views of the head and the authoritarian structure of schools. Contributors explore new concepts of the head’s role in school and authors include both theorists and headteachers coming from various backgrounds including those that are historical, philosophical, sociological, and practical. The book also benefits from some more down-to-earth musings by heads on the job. The collection as a whole offers a stimulating variety of views on a subject which is of importance to all teachers, as well as those concerned with management and decision making. Although first published some time ago, it explores issues that are ever present today.

DWELLERS IN THE HILLS + THE MOUNTAIN SCHOOL-TEACHER + THE GILDED CHAIR: 3 Adventure Novels in One Volume

Middle-schoolers are interesting creatures. Teaching them was both challenging and fulfilling. Sixth grade, in my opinion, is the most difficult grade to teach. Too many times to count, mothers claimed that their child had never done "that" before. I learned to respond, "That's because he wasn't in the sixth grade before." As hard as it was at times, as I look back on my days in middle school, I can reminisce with a chuckle at most of their antics. Too often, though, it was I who said or did something foolish in the heat of the moment. If I had kept notes, I could have filled hundreds of pages with the comical things that happened in the middle grades. Instead, these are my memories.

What eight qualities would you take with you to run your desert island school?” In this inspirational book, some of the UK’s most successful headteachers answer this question, talking openly about what it takes to effectively manage a school today. In candid and moving accounts we hear how they have both turned around failing schools and improved outstanding schools. Their thoughts, from vision, to courage and resilience, form the 8 key qualities which are examined in depth through the book. This is not a book about government-led initiatives, top-down models or politically-motivated attempts to change the way schools are managed. Instead, it focuses on the vital leadership ingredients that successful heads say work for them. It offers essential insights and advice into the challenges of running a school successfully and will be a source of inspiration for all school leaders and anyone thinking about moving into headship.

Being an Effective Headteacher

One of the most significant words in the teaching of Jesus, is that in which he gives his command concerning the care of the children. He asked Peter a question, "Do you love me?" and when he got a satisfactory answer, he said to him, "Feed my lambs." He had in mind the figure of a shepherd. David had sung, "The Lord is my shepherd." Jesus himself had used the figure to describe his own tender watchfulness over his people. They are his sheep. The children are the lambs. The word used here means, "little lambs." This suggests that the very youngest children are included. They were infants that were once brought to Jesus, whom the disciples would have kept away, but whom he welcomed so warmly, saying "Allow the little children to come unto me, and forbid them not." This book will help people teach children in Sunday School and in ministries dedicated to teaching children.

A humorous yet honest look at the education system, from trainee teacher to headmaster across an extraordinary thirty-year career.
