Monograms have been used for many years as signatures for many things, but gained the most popularity and use in the early 20th century. In the 1920's and 1930's the monogram was in the height of fashion and the classiest gentlemen and ladies had theirs on their most fashionable pieces. The classic monograms most people will recognize are monogrammed towels or the always classic monogrammed piece of jewelry. A monogram is made from two or more overlapping letters to form a symbol or design. The most recognizable would be the first, middle, and last initials of ones name. Grab a copy today

The Frugal Homeowner's Guide to Buying, Selling & Improving Your Home

Dee Dee Ramone doesn't quite know what he's getting himself into when he and his wife Barbara move into the squalid Chelsea Hotel with their dog Banfield. He spends most of his time trying to score drugs and walking Banfield, with whom he can magically communicate. Meanwhile, he can't stand his neighbors and shies away from violence, but wishes everyone were six feet under. He also thinks that the room he's staying in is the very room where his old friend Sid Vicious stabbed Nancy Spungen, and begins having nightmares of Nancy emerging from the bathroom with a knife wound. After one of his nightmares, an evil force enters his hotel room and hurls him against a wall. Dee Dee also gets involved with the transvestite lover of one of his gay fellow addicts. When his wife finds out, the two fight it out and become seriously wounded. During all this, Dee Dee is tormented by the living and dead demons that plague the hotel, along with the ghosts of his old dead punk rock friends Sid Vicious, Johnny Thunders and Stiv Bators. And that's when the Devil himself decides to join the party . . .
