

## My Mum The Boy And Others My Story Of Abuse Neglect And Turmoil At The Hands Of People Who Loved Me From Childhood Right Through My Marriage And Beyond The Beginning Book 1

Your kids will enjoy this classic story even more in this beautiful Read & Listen edition. A baby bird is hatched while his mother is away. Fallen from his nest, he sets out to look for her and asks everyone he meets—including a dog, a cow, and a plane—"Are you my mother?" This ebook includes Read & Listen audio narration.

Suddenly, in 1994, the author stopped taking life for granted. When her existence filled with sunshine, parties and good times came to an end. A near fatal car crash left her comatose for six weeks; Gillian doesn't know what happened on that night and 'never will'. 'Gillian Mk2' chronicles her feisty determination to regain independence in a society where she was invisible. We follow her trek for the first four years. From hospitals, doctors, falls, nurses onto more hospitals, specialists, falls, attitudes, patients... Gillian Firth is lucky, clearly her family adore her, she lives to tell the tale and does so with blunt honesty. She knew nothing and only remembered she smoked because Pathetic bought her cigarettes, into the hospital ironically, her mum went mad. A Traumatic Brain Injury (TBI) is serious, life-changing, but you laugh out loud, then cry and laugh again, as we listen to Gillian speaking. Watch how she improves, cringe or agree with her observations, feel the anger and frustration, be embarrassed by comments and reactions. This author will be remembered for her flippan't, but serious, heart rending yet hilarious, kick in the teeth, that's what it is. Funny, factual and inspirational... my eyes are open.

This book provides rich insights into the pre and post care experiences of boys who were pupils in a residential school where the author worked over the course of the 1980s. It describes the boys' trajectories through life, as well as detailing the rhythms, rituals, routines, and relationships that existed in the school. While the focus is on the (former) boys' experiences, these are augmented by interview material from staff members, including religious Brothers, who worked in the school. Together, these different perspectives provide unique insights into an area of social work history that is ill-served by existing accounts, making the book required reading for all scholars and students of social work; social and oral history; narrative sociology; criminology and desistance and social policy.

"You will devour these beautifully written—and very important—tales of honesty, pain, and resilience" (Elizabeth Gilbert, New York Times bestselling author of Eat Pray Love and City of Girls) from fifteen brilliant writers who explore how what we don't talk about with our mothers affects us, for better or for worse. As an undergraduate, Michele Filgate started writing an essay about being abused by her stepfather. It took her more than a decade to realize that she was actually trying to write about how this affected her relationship with her mother. When it was finally published, the essay went viral, shared on social media by Anne Lamott, Rebecca Solnit, and many others. This gave Filgate an idea, and the resulting anthology offers a candid look at our relationships with our mothers. Leslie Jamison writes about trying to discover who her seemingly perfect mother was before ever becoming a mom. In Cathi Hanauer's hilarious piece, she finally gets a chance to have a conversation with her mother that isn't interrupted by her domineering (but lovable) father. André Aciman writes about what it was like to have a deaf mother. Melissa Febos uses mythology as a lens to look at her close-knit relationship with her psychotherapist mother. And Julianna Baggott talks about having a mom who tells her everything. As Filgate writes, "Our mothers are our first homes, and that's why we're always trying to return to them." There's relief in acknowledging how what we couldn't say for so long is a way to heal our relationships with others and, perhaps most important, with ourselves. Contributions by Cathi Hanauer, Melissa Febos, Alexander Chee, Dylan Landis, Bernice L. McFadden, Julianna Baggott, Lynn Steger Strong, Kiese Laymon, Carmen Maria Machado, André Aciman, Sari Botton, Nayomi Munaweera, Brandon Taylor, and Leslie Jamison. "Thought-provoking, well-written, and offering a range of fresh and sometimes challenging perspectives, Planning and Support should be essential reading for people working in the field of learning disabilities. Highly recommended." - Involve Magazine The authors outline the skills needed and common issues in case management practice across a range of people with different disabilities at different stages of their life. Emphasising the importance of taking a rights-based approach to supporting people with learning disabilities, the authors argue that effective case management needs to be individualised and carried out in partnership with the individual and their family in order to draw up a lifestyle plan that meets their many needs, including employment, education, vocational training, therapy and behaviour support. The book includes chapters on inter-agency and cross-sector negotiation and collaboration, balancing rights and protection, listening to individuals and families, communication, optimising health outcomes, approaches to behaviour support, ethical decision-making and reflective supervision, and the text is complemented by case studies throughout. An essential reference for practitioners, the book is also an invaluable guide for policy makers, researchers and students, nurses, carers, and people with intellectual disabilities and their families.

The Sissy Baby is an incredibly important and common aspect of ABDL life. These four novels are not books that are a full-on sissy extravaganza from the first word until the last. They are – like in real life – a step-by-step journey that follows the story of a young man who finds femininity erupting in his life, just as infancy is also developing. The twin aspect merge and a sissy baby is formed. And in every case, the sissy baby needs to find a life where they are able to live, develop, grow and be part of a relationship that works and matters. I hope you enjoy these four novels as much as the authors enjoyed writing them and it is worth remembering that while they are fiction, they do represent part of the canvas of real life and some scenes are based in part on actual events. Enjoy your travels through the world of the sissy adult baby.

My Mom Was my Dad is not just another book on parenting. This book was written to help single mothers deal with raising boys. Based on my life story of how I was raised in a single - parent home due to the death of my father, I wanted to take single mothers on a journey of what they will face as they try to raise a boy to a man. I cover deep topics such as: the discussion of the birds and the bees, along with showing a young man how to pay bills and also about sports. This book is much more than the average how-to-book on parenting. Once I started to reminisce about my childhood, my memory overflowed with incidents and events long forgotten! I started to laugh and shed a few tears at the same time when I decided to write this book about my mom and my childhood! Readers may do the same as they walk with me through my first-hand accounts of my mom, Rena Johnsons, humorous and sometime confusing job of making a Man out of a Boy!

Social scientists claim that we now live in a post-race society, where race has been replaced by 'ethnicity'. Yet racism is endemic to British society and people often think in terms of black and white. With a marked rise in the number of children from mixed parentage, there is an urgent need to challenge simplistic understandings of 'race', nation and culture, and interrogate what it means to grow up in Britain and claim a 'mixed' identity. Focusing on mixed-race and inter-ethnic families, this book not only explores current understandings of 'race', but it shows, using innovative research techniques with children, how we come to read race. What influence do photographs and television have on childrens ideas about 'race'? How do children use memories and stories to talk about racial differences within their own families? How important is the home and domestic culture in achieving a sense of belonging? Ali also considers, through data gathered from teachers and parents, broader issues relating to the effectiveness of anti-racist and multicultural teaching in schools, and parental concerns over the social mobility and social acceptability of their children. Rigorously researched, this book is the first to combine childrens accounts on 'race' and identity with contemporary cultural theory. Using fascinating case studies, it fills a major gap in this area and provides an original approach to writing on race.

Bullying is one of the most destructive but common social practices that young people experience in schools, and one of the most difficult for teachers to manage successfully. Sexual bullying is even more difficult to deal with. Most adults can recall the important part sexual reputation played in the hierarchies of peer-group popularity during secondary schooling. The significance of this formative period of our sexual identities seems obvious, but is largely ignored by education policy makers and rarely appears in staff training programmes. This book draws together a number of theories on gender, adolescent behaviour and schooling to examine social interactions in four comprehensive schools. The original research underpinning this book comprises of group and individual interviews with the pupils, case-studies and classroom-practitioner observations over a seven-year period. This book will stimulate interest amongst all concerned with pupil welfare and social change.
