In the light of the moon, a little egg lay on a leaf. "Every child should have a copy" - Daily Telegraph 2019 marks 50 years since The Very Hungry Caterpillar first munched his way through a variety of delicious food and into our hearts. You can celebrate this incredible milestone with this golden jacketed limited hardback edition of the original classic story, featuring bonus content: · The story of the making of the classic · A letter to the reader from Eric Carle himself Since its first publication in 1969, The Very Hungry Caterpillar has now sold over 50 million copies worldwide and has been translated into over sixty-two languages.

The Age of Wonder is a colorful and utterly absorbing history of the men and women whose discoveries and inventions at the end of the eighteenth century gave birth to the Romantic Age of Science. When young Joseph Banks stepped onto a Tahitian beach in 1769, he hoped to discover a new Paradise. Inspired by the scientific ferment sweeping through Britain, the botanist had sailed with Captain Cook in search of new worlds. The voyages of discovery—astronomical, chemical, poetical, philosophical—swiftly follow in Richard Holmes's thrilling evocation of the second scientific revolution. Through the lives of William Herschel and his sister Caroline, who forever changed the public conception of the solar system; Humphry Davy, whose near-suicidal gas experiments revolutionized chemistry; and of the great Romantic writers, from Mary Shelley to William Wordsworth, Coleridge and Keats, who were inspired by the scientific breakthroughs of their day, Holmes brings to life the era in which we first realized the awe-inspiring and the frightening possibilities of science—an era whose consequences are with us still. BONUS MATERIAL: This ebook also includes an excerpt from Richard Holmes's Falling Upwards.

Silliness takes center stage in this laugh-out-loud book from the creator of The Very Hungry Caterpillar?--now available as a board book Yes, there's something strange, something funny and even downright preposterous on every page of this book. But it's not a mistake - it's nonsense Nonsense lies at the heart of many beloved nursery rhymes. Children readily accept odd statements like "the cow jumped over the moon" and "the dish ran away with the spoon." This fanciful bending of reality is also basic to surrealism. In this book, nonsense and surrealism combine to spark creativity and imagination. What's true? What's impossible? What's absolutely absurd? From Eric Carle, creator of the classic, The Very Hungry Caterpillar, comes a book to make children laugh and think, preparing them for a lifetime of loving both words and art. Praise for The Nonsense Show A TIME Magazine Top 10 Children's Book of 2015 * "Carle creates fun and laughter in this homage to the surrealist artist Ren Magritte.
