

National Geographic Kids Mission Wolf Rescue All About Wolves And How To Save Them

An unintended experiment teaches real-life lessons about life's intricate interconnections. In the 1800s, the American government decided to eliminate threats to livestock near Yellowstone National Park. By 1926, there were no gray wolves left in the park. This set off a cascade of devastating changes to virtually every part of the park's ecosystem, and the once-thriving landscape was soon in distress. Then, in an effort to reverse course, gray wolves were reintroduced in 1995. In time, animal populations start to stabilize, waterways are restored and, miraculously, health returns to the park. This remarkable story of transformation is sure to captivate, and to inspire respect for nature's surprisingly complex balancing act.

Combines engaging facts with photography in a species portrait that reveals the real-life survival challenges that have caused lions to become endangered, sharing information about what kids can do to help.

"No question goes unanswered in this important book about being gay. All the basics--and not-so-basics--are covered in more than one hundred questions asked by real teens."--Amazon.com.

From dinosaurs to Siberian tigers, this title is a superb introduction to creatures that are either extinct, such as the dodo, or those that are under threat. Discover some of the wildest habitats on Earth and the endangered animals that live there. Examine how people are working to save their fellow creatures.

What If?

Journey

Filled with fun facts and amazing photographs, an in-depth look at amazing weather includes real-life encounters as documented by National Geographic tornado chaser, Tim Samaras. Simultaneous.

Provides an introduction to geography that focuses on the animals found on each continent, including descriptions of common animals, simple pictorial maps, and profiles of endangered species.

In this book, early fluent readers will learn how and why wolves live together in groups called packs. Vibrant, full-color photos and carefully leveled text will engage young readers as they learn more about the animal's predatory habits, diet, behaviors, appearance, and social structure. A Take a Look! infographic aids understanding, sidebars present interesting, supplementary information, and an activity offers readers an opportunity to extend discovery. Children can learn more about wolf packs using our safe search engine that provides relevant, age-appropriate websites. Wolf Packs also features reading tips for teachers and parents, a table of contents, a glossary, and an index. Wolf Packs is part of Jump!'s Better Together: Animal Groups series.

The final installment of the thrilling The Door Within trilogy! Pure evil collides as Paragor, the betrayer of the one true King Eliam, unites with the Wyrn Lord and the mythical Seven Sleepers to launch a full-scale assault on the Kingdom of Alleble. And while their enemies plot their next attack, Alleble's remaining allies flee from the four corners of The Realm to safety within the Alleble's walls. Once there, the allies find the Kingdom crestfallen, grieving a fallen hero. While Alleble and its allies prepare to face the coming onslaught, they cling to an ancient legend about three witnesses who have the power to bring victory. But is the legend true? And if it is, where are the witnesses? Time is running out as darkness spreads over the Realm, and Paragor unleashes the final storm. But will anyone survive to see the dawn? With over 250,000 copies sold in The Door Within trilogy, this is a perfect time to introduce this bestselling series to a new batch of readers. The fantasy genre is wildly popular among young readers, and The Final Storm is thrilling end to this epic trilogy! Meets national education standards.

A photographic tribute to the authors' work as wolf caregivers and advocates documents their efforts with the Sawtooth Pack in Idaho and features a passionate argument for reintroducing and protecting wild wolves.

A quirky compendium of animal chatterboxes Ever wanted to talk to a tiger? Or chatter with a cheetah? Or yak with a yak? This book brings together a babble of more than 100 beasties and explores the amazing ways they talk to each other. From fish that fart to alligators that dunk to fire worms that flash, you ' ll discover that wildlife have the strangest ways of sending a message . . .

Imagine living with a pack of wolves! For National Geographic wildlife documentarians Jim and Jamie Dutcher, that dream came true. Join the Dutchers as they discover what life is like among wolves in the western wilderness. Filled with engaging photos, fast facts, and fascinating sidebars, readers will be howling for more.

This adorable new title from Emmy Award-winning singer-songwriter (and animal lover) Parry Gripp shows us the magical world of furry friendship and teaches young readers to be kind to animals of all shapes and sizes. Through adorable, uplifting photographs, and sweet, silly text, kids will learn not only how to interact with animals, but also just what makes you a good friend for your fuzzy, feathered, or scaly new bud. This fun book will inspire young animal lovers to understand their perfect new pal, giving kids lessons on being gentle with pets, making sure to care and love

them, how to be patient, and more. Lyrical text illustrates the fun and companionship that dogs, cats, lizards, fish, rabbits, and all sorts of animal friends can offer. Parents and families considering or who've just gotten a new pet will have fun sharing and learning all about animals together. Plus, turn each page and sing along with Parry with an original song and music video!

How a Predator Restored an Ecosystem

National Geographic Readers: Wolves

"In Everything Sharks, exciting photos depict great whites, hammerheads, and more. Scientists tell hair-raising tales about encounters. With its awesome facts and action-packed images, this book brings kids close to the mysterious lives of sharks."--Amazon.com.

Mission: Wolf Rescue All About Wolves and How to Save Them National Geographic Children's Books

"This biography for children will trace Goodall's life, but each chapter will also focus on two or more the chimpanzees that she observed, with information in sidebars about these particular animals. Along with biographical details, the book will explore the ethical issues that surround Goodall's work and show what has changed in our understanding of Great Apes. What do we know today about these animals in terms of language, speech, tool use, and DNA? How has sophisticated technology - GPS systems, Satellite imagery, portable digital microphones - been used to gain new information about animal populations."--

Lakota is shy and the lowest-ranking and frequently picked-on member of a wolf pack until he finally finds that supportive and nurturing friend he's always wanted.

An award-winning writer and photographer tells the extraordinary story of a lone black wolf who, showing up on his doorstep, returned again and again to interact with the people and dogs of Juneau, giving humans a rare chance to understand it a little more. 40,000 first printing.

Provides facts about wolves, including their habitat, packs, and feeding habits.

In the tradition of Peter Matthiessen's Wildlife in America or Aldo Leopold, Brenda Peterson tells the 300-year history of wild wolves in America. It is also our own history, seen through our relationship with wolves. The earliest Americans revered them. Settlers zealously exterminated them. Now, scientists, writers, and ordinary citizens are fighting to bring them back to the wild. Peterson, an eloquent voice in the battle for twenty years, makes the powerful case that without wolves, not only will our whole ecology unravel, but we'll lose much of our national soul.

The true life of Crazy Horse is plagued with questions. He did not leave any letters or diaries nor are there any records of speeches he made. Most notably, it is still unclear whether his death was an accident or a murder. Nevertheless, Crazy Horse is considered a gripping symbol of freedom, dignity, and the American West. He was the unfathomable leader for the Lakota tribe and was looked upon for protection by his people. But as whites invaded the Lakota lands and the buffalo herds shrank, many Lakota were forced to relocate to reservations. But not all, for Crazy Horse was determined to fight for his home. Rejecting the reservation system and negotiations with the white invaders, he guided the Lakota in two of the most monumental defeats ever suffered by the US Army: the Fetterman Fight in 1866, and the Battle of Little Bighorn in 1876, which was fought against the infamous General George Armstrong Custer. Over twenty illustrations and photographs help kids better understand this crucial figure and pivotal moment in nineteenth-century American history. Crazy Horse, part of the Wild West for Kids series, is a must-read for any young historian hoping to learn about a mysterious man who played an influential role in the Native American battles in the West.

True Stories of Adventures with Animals

All about Lions and How to Save Them

The Wild Life of Jane Goodall

Living with Wolves!

Throughout history, animals have shaped the world as we know it. But rarely have they received the recognition they deserve. Until now. This inside look at history's most famous animals features wacky verse, cool facts, historical stats, and zany cartoon art. Meet Alexander the Great's horse Bucephalus, who was his battle companion for nearly 30 years. Learn about Mozart's starling bird that helped him write music by singing along as he composed. Read about the Ethiopian goats that discovered the coffee bean, Marco Polo seeing dragons in China, and a dog named Boatswain that saved Napoleon's life. From the cobra that killed Cleopatra to Cairo, the dog that helped hunt down Osama bin Laden, Historical Animals has these stories and more!

"The stories of the children whose families were torn apart as a result of a failed attempt to assassinate Hitler in 1944"--

"A fictionalized account about a real wolf with the scientific name OR7 (the 7th radio-collared wolf in Oregon) that traveled from eastern Oregon to northern California--the first known wolf in the Golden State in 90 years"--

A collaboration by an award-winning author and the paleontologist renowned for the discovery of Australopithecus sidiba chronicles the riveting story

behind one of the most significant archaeological discoveries of all time, explaining its significance for understanding human evolution and how it is shaping the thinking of the scientific community.

Running with Wolves

David has no greater wish than to explore the mountains behind his new home in North Carolina and as he does he finds a wonder never dreamed of, the Phoenix. The Phoenix introduces David to an endless list of his friends from mythology and in the process opens David's eyes to the wide world both the unseen world and seen world. In the unseen world David and the Phoenix share many adventures all the while a scientist is trying to capture the Phoenix to prove to the world that the bird is real. The phoenix takes David on "educational field trips" to meet sea monsters, fauns and other creatures. Plus they hatch a hysterical plot to scare off an over eager scientist from the phoenix's trail. David learns some valuable lessons about life, one is that nothing remains the same as one grows up. The other is... well perhaps you should read the book yourself and find your own lessons within the pages. A well written story, "David and the Phoenix" has no particular time setting so that it could very well be placed in current time. It brings back to me memories of times when life was much simpler, more pleasant and without the problems we as adults face. It's a story of childhood and the dreams that children of every age share and which we all to soon leave behind. Of course, there is the traditional fiery death of the phoenix in the story.

Provides facts about tigers, such as their habitat, talents, and feeding habits.

Saving our planet's most endangered and threatened creatures is the mission of this new, dynamic series from National Geographic that features an amazing narrative for each animal, plus an exciting layered design highlighting beautiful photography and amazing true stories of adventure with animals. A portion of the proceeds goes to support activities or research that will help save that animal. Simultaneous.

Discover the wonder of wolves from Emmy-award winning filmmakers Jim and Jamie Dutcher as they tell their story of the six years they watched, learned about, and lived with the Sawtooth wolf pack. Adventure, friendship, and family come together in this riveting memoir as two award-winning filmmakers take you through the experience of the years they spent living in the wild with a real-life wolf pack. Jim and Jamie set out to show the world that instead of fearsome beasts, wolves are social, complex, and incredible creatures that deserve our protection. Deep in the mountain wilderness of Idaho, they set up Wolf Camp, where they spent years capturing the emotional, exciting, and sometimes heartbreaking story of their pack. Meet Kamots, the fearless leader. Learn from wise Matsi. Explore the forest with shy Lakota. And watch as adorable pups grow from silly siblings to a devoted pack. See how these brave wolves overcome all odds, battling mountain lions and frigid temperatures. Most of all, discover the surprising kindness, compassion, and devotion that Jim and Jamie discovered by living with wolves.

Earth's Astonishing Animals and where They Live

Bringing Back the Wolves

Introduces sperm whales, including their different body parts, how they travel in groups, what they eat, and how they care for their young.

What would you do if you found an alligator in your garage? Or if you spotted a mountain lion downtown? In cities and suburbs around the world, wild creatures are showing up where we least expect them. Not all of them arrive by accident, and some are here to stay. As the human population tops seven billion, animals are running out of space. Their natural habitats are surrounded—and sometimes even replaced—by highways, shopping centers, office parks, and subdivisions. The result? A wildlife invasion of our urban neighborhoods. What kinds of animals are making cities their new home? How can they survive in our ecosystem of concrete, steel, and glass? And what does their presence there mean for their future and ours? Join scientists, activists, and the folks next door on a journey around the globe to track down our newest wild animal neighbors. Discover what is bringing these creatures to our backyards—and how we can create spaces for people and animals to live side by side.

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals—especially those that are endangered. His powerful message, conveyed with humor, compassion, and art— to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits— from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet.

The Trail of Tears tragedy in Creek history reminds the Creek how far they've come. The Muscogee people rebuilt their lives in a new territory and adapted to many changes. The Creek now thrive in modern America, celebrating their culture and ancestors' traditions.

They run in packs, stalk their prey, and howl at the moon. And no matter where you are—they're always lurking somewhere nearby. Wolves, the predatory puppy dogs of the wild, are feared and loved by people everywhere. But are they misunderstood? In this fascinating level 2 reader, you'll learn that there's much more to being a wolf than most people could ever believe. Did you know that each pack has a pecking order? That wolves can "talk" to each other using body language? Or that they're actually not out to attack humans, they usually leave people well enough alone? Full of incredible photographs and interesting information, Wolves will appeal to all kids.

While at the Winding River Lodge, the Aldens hear about a zombie living in the surrounding forest! As the signs of zombie attacks start to mount, the Boxcar Children recruit the help of a reporter and some locals. But is someone hiding information? Or should the Boxcar Children really be afraid of things that go bump in the night?
