This book represents [the author's] own variant of the IFS (Internal Family Systems) model as [he has] used it for nearly twenty years in clinical practice, in the classroom with graduate students at Western Michigan University, and in workshops and trainings throughout the United States and Europe. [Here, he shares his] understanding of why we think, feel and act as we do and how we can move toward harmony and balance in our inner and outer lives. -Introd.

ILLUSTRATED GUIDE TO THE NATIONAL ELECTRICAL CODE 5E provides your students with a unique approach to learning the Code using highly-detailed, technically-accurate illustrations and visuals to break down and simplify the expanding volume and complexity of the 2011 National Electrical Code. By translating the sometimes vague, complicated wording of the Code into straightforward illustrations and clear explanations, this book provides a resource that will facilitate your students' comprehension and application of Code requirements whether they are beginning or master electricians. Material is organized logically, covering fundamental provisions first, then grouping code requirements by the type of occupancy, beginning with one-family dwellings and progressing on to multi-family housing, commercial locations, and special occupancies. This organization also reflects how information is needed when working in the electrical industry, better preparing your students for the real world. The fifth edition of ILLUSTRATED GUIDE TO THE NATIONAL ELECTRICAL CODE discusses new Code changes and shows some of these Code changes through new illustrations, while incorporating other Code changes into existing illustrations. Its comprehensive coverage, innovative learning approach, and industry-based organization make this an indispensable supplement to the NEC whether your students need information on a specific area or need to learn the complete Code.
