#### **Biology for You**

#### **Thinking Straight About Being Gay**

Designed to be motivating to the student, this book includes features that are suitable for individual learning. It covers the AS-Level and core topics of almost all A2 specifications. It provides many questions for students to develop their competence. It also includes sections on 'Key Skills in Biology, 'Practical Skills' and 'Study Skills'.

#### **A2-Level Biology AQA Complete Revision & Practice**

Imagine a future scenario in which prospective parents will have the option to decide the sexual orientation of their offspring in the privacy of a doctor's consultation room. In the past, liberals dreaded the intrusion of a paternalistic state apparatus into the minutiae of people's private lives. In the future they may have to fear the reverse: that private reproductive decisions will impact the very demographic composition of future generations that make up 'the public'. Nowhere does this book claim that the ability to isolate a 'gay gene' or similar genetic marker for homosexuality currently exists. Rather, it demonstrates how Christian bioethicists and liberal eugenicists have so far anticipated and addressed the seemingly implausible scenario just described and provides a liberal critique of the their arguments, should pre-natal selection for sexual orientation ever become a genuine possibility. Murray provides an unprecedented survey of Christian bioethicists' responses to the 'gay science' of the 1990's, and shows where they fit in a long religious tradition of stigmatizing and pathologizing homosexual people that stretches back to first century Christian communities. This book contains no assertion that all people who identify as homosexual, gay, lesbian, bi, or transgender are born that way. Nor does it suggest that being 'born that way' is a necessary condition for granting full legal acceptance of homosexual behavior. Rather, it reveals how religious teachings about human sexuality have both misrepresented the facts of human nature and misjudged their ethical significance. Murray's analysis provides an opportunity for the universal and global church and those who object to homosexuality as less than innate to reconsider and learn new perspectives. - Reverend Rowland Jide Macaulay, Founder & CEO, House Of Rainbow Fellowship, Lagos, Nigeria and London, United Kingdom A fresh, informative and challenging contribution to the scientific and ethical issues concerning homosexuality, which debunks traditional Christian objections and tackles the emerging debate around the potential of 'genome editing' to eliminate same-sex behaviour. - Peter Tatchell, human rights campaigner

Get the most from your AQA Environmental Studies AS/A2 studenta s book with blended online resources delivered via kerboodle! You can personalise your studentsa learning and track their progress online, whilst giving them the benefit of 24-hour access. Additional Information: Case studies WebQuests Interactive activities... and much, much more!

"This revision book has everything that I wanted when I was revising my Biology for AS-Level. It has clear concise revision notes and notes pages for you to add your own notes as you go along"

Myrevisionnotes is a series founded by what I thought was wrong with revision books for A-level. They simply didn't work for me and then I realised that this was because they weren't mine! Simply these revision guides are a collection of clear and concise revision notes, just what you need to know presented in an easy to read format. Simple right?
